RE: Modified Preliminary Director's Report 27-10183

Dear Dave:

To follow up on our telephone conversation this day, enclosed is new Preliminary Director's Report for claim 27-10183. This new report reflects changes I made to the recommended quantity and diversion volume for this claim. However, since this claim is an enlargement of water right 27-7123, the total combined diversion rate and volume as stated in remarks was not changed.

Naturally if you have questions feel free to call me at the above phone number.

Respectfully yours,

FROM: Ernie Carlsen

TO: Cindy Bird

RE: 27-7123 & 27-10183

Following an administrative hearing on permit application 27-11975, Roger Warner approached me about the possibility of recommending 27-10183 as an enlargement to 27-7123. Information presented by the applicant at the hearing indicated the historical development likely qualified as an enlargement of 27-7123. From my research I have identified the following key items.

1. Licensing field exam in April 1984 found 99 acres irrigated in the SWNW (38), NWSW (36), and SWSW (25) Sec 28 T01S R37E.
2. 1987 NAPP clearly shows a pivot on the SWNW and NWSW and likely also irrigating the SENW Sec 28. The NESW does not appear to be cultivated.
3. 1989 claims were filed for the irrigation of 141 acres in the S1/2NW, N1/2SW, and SWSW.
4. 1992 aerial photography shows two pivots, one large one small, irrigating 144 to 146 acres.
5. 2003 permit application 27-11975 filed for irrigation of 144 acres in the S1/2NW, N1/2SW, and SWSW.

Since the NESW was not irrigated in 1987 per the NAPP it is not eligible to be included in an enlarged PPU. The 40 acres in the SENW per the 1987 NAPP, added to the 99 licensed acres gives the claimant a maximum of 139 acres as a PPU. Based on the time table from the time of the licensing exam to the added irrigation of the SENW the claimant irrigated the 139 acres within a five-year period of when the claims were filed. The 1992 aerial photography clearly shows all of the 139 acres were being irrigated.

To help I have prepared a shape file containing 139 acres. Unless you have information in the file that out weighs what I outlined above, I believe you can use the shapefile for a common PPU on claims 27-7123 & 27-10183. I have linked the shapefile to version 1 of 27-10183 and updated the acreage in the eCVR. I did not change your recommendation for either of the claims. Thought it best to leave that part to you and your staff.

Ernie,

On October 17, 2003 Skip did a field exam on these claims to help clarify the difference. According to Skip and David Clayson who I relieve accompanied him during the field exam the licensing exam was wrong. They did not irrigate outside of the pivot in the NWSW or in the SWSW of section 28. Skip made notes on the spatial drawing to that effect and stated in his examination of the pou that the land in SENW was an accomplished change. Skip also acknowledged he did the original field exam and missed that but was satisfied with the claimants explanation. I think Skips exam is enough to let my recommendation stand.

Attached is additional information provided by Dave Clayson to show that the area covered by the small pivot in the SW 1/4 Sec 28 was mostly under regular irrigation. Mr Clayson states in his letter that this ground was in the FSA set aside program during 1986 + 1987.

There is also a letter from Elise Cumpston of USDA, FSA that includes a map of the Clayson property. This map, Ms. Cumpston states was used for this farm area in Claim A27-10183 from 1983 to 1993.

The conclusion I make is that the small pivot was added in 1988 to ground in the W 1/2 SW 1/4 Sec 28 T15 R37E.

This ground was originally irrigated under License 27-7123 by hand or wheel lines. It appears only two years (1986-1987) of non-irrigation occurred in this area + then irrigation resumes in 1988 to this day.

Dear Mr. Jones,

Thank you so much for all the effort you have expended in our behalf. We deeply appreciate it.

Please find enclosed a copy of a map showing the small pivot on the property in question, in 1988. Accompanying is a statement from the Farm Service Agency stating this fact and the year.

We determined that in 1986 and 1987 the ground now covered by the small pivot was placed in the FSA set aside program. Those were the only two years it was not regularly irrigated.

I hope this will help the cause. If any more information is needed, please contact me.

6/14/01 Priority after mandatory permit statute
3/25/1963. Enlargement claim. CB

9/9/04. 1992 photo shows 2 pivots on this
ground but doesn't show in 1987 Wayne
photography. Development was done
post 1987. Disallow this enlargement
claim. CB.

The new application for permit is on
hold in I.F. because the application
was protested.

Notes

11-5-03 10:06am. Skip called from Dave Carlson's office and David Clayson came in and Dave had him file a pre-1987 application for permit on the additional areas not covered under license 27-7123. The licensing exam measured more than was licensed in 27-7123. If no objts are filed on the new application I will disallow 27-10183. Otherwise it will be an enlargement claim.

Hold the files for processing until Dave Carlson advertising the permit to see if any objections are filed

11-7-03 emailed Dave C. to find out when he plans to advertise the new claim. New application was filed 11-3-03 to claim the additional from this pod, (27-7123).

11-13-03 To be advertised 11/20 & 11/27 BPO

2/11/04. Prehearing conference next week. It was protested. Follow-up. 2/23/04 (pre-87 application) Called David's cell phone and left a message requesting that he call and let me know the results of the prehearing conference. CB

Notes

Claim A27-10183

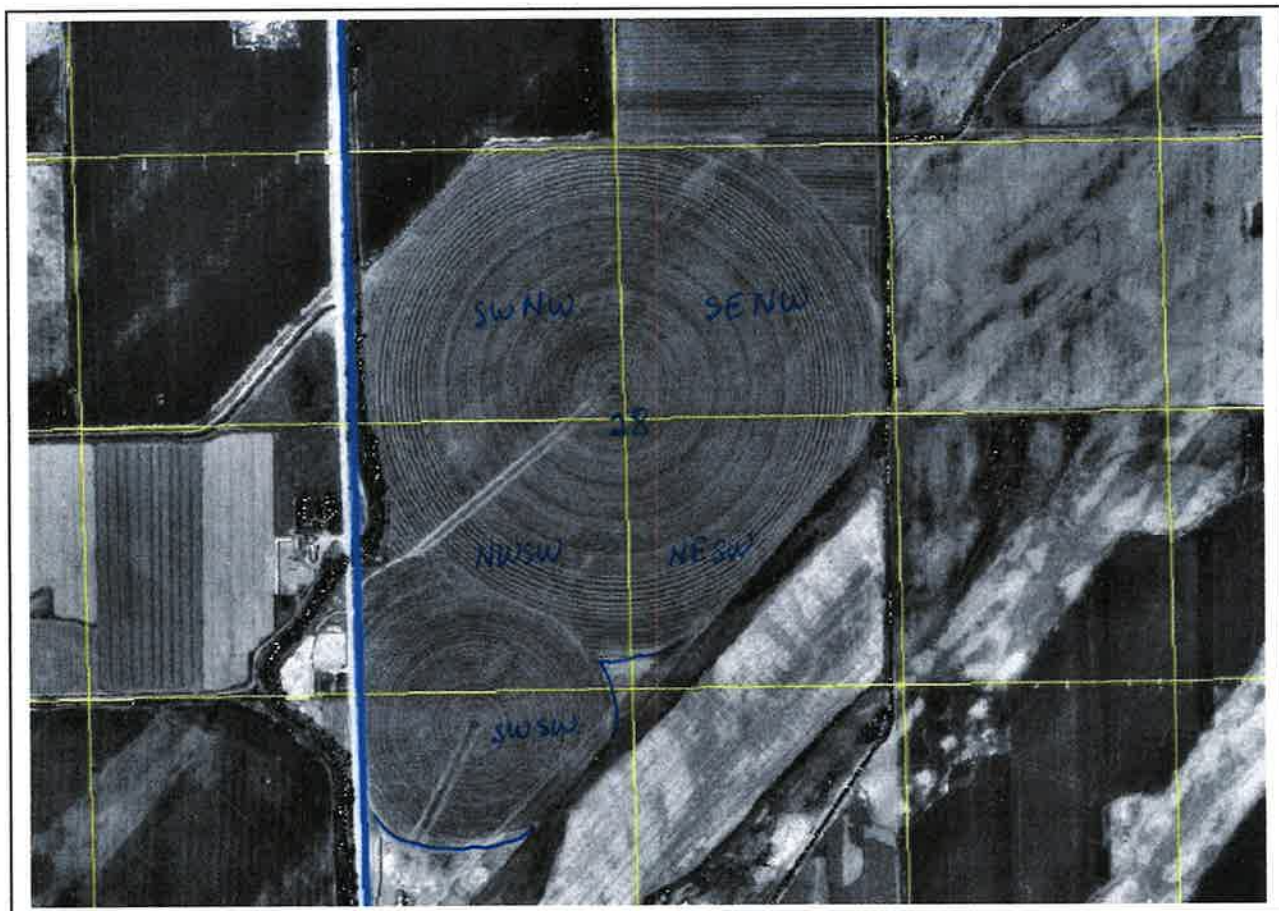

1/ Exam done 10-17-2003

2/ This is ground in the SWSW Sec 28, T1S R37E.

3/ After the $3/4$ pivot was installed under A27-07123, handlines were put in the SWSW in 1987 + then a mini-pivot in 1988 (applicant statement). However, I don't believe this could be an "enlargement" as another 30-35 acres were added in.

4/ I advised client he could file a pre-1987 Application For patent or show that both pivots use no more than 1.98 cfs when running together. If so, file an "Enlargement claim" as this is the same pd as A27-07123.

Re: Evidence of Priority

Claim No.(s): A27-10183

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

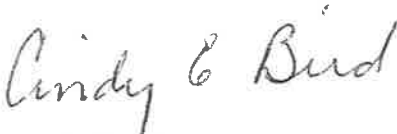

For your reference, I have enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by August 15, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

WATER RIGHT LICENSE

License of Water Right No. 27-7123 Priority July 19, 1978 Amount 1.98 cfs

THIS IS TO CERTIFY, that David Clayson
of Firth, Idaho, has complied with the terms and conditions of Permit
No. 27-7123 issued pursuant to Application for Permit dated July 19, 1978,
and has submitted proof to the Department of Water Resources on February 19, 1985,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.42 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>November 15</u>	at <u>1.98</u> cfs and	<u>346.5</u> acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 1.98 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
346.5 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 28,
Twp 1S, Rge 37E in the County of Bingham

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 25TH day of July, 19 86.
