ORDER GRANTING MOTION TO
AMEND TRIAL SCHEDULESUBCASE NOS.: EXHIBIT A
(IRRIGATION USE)

A Joint Motion to Amend Trial Schedule Order and Request for Expedited Hearing was filed on May 4, 2007. A hearing was held on May 10, 2007. At the hearing, the parties asked for relief from the current trial schedule. The parties explained that they have agreed to fund and collect additional water diversion data. The parties represented to the court that the additional data could significantly assist in the resolution of the contested issues, especially the volume issue. There was no opposition to the *Motion*. Therefore, the *Joint Motion to Amend Trial Schedule Order* is granted.

Please be advised that Special Master Brigitte Bilyeu has set the following dates in the above listed subcases:

December 5, 2007	11:00 am	Scheduling Conference Location: Snake River Basin Adjudication 253 3 rd Ave. North Twin Falls, Idaho 83301

Re: Snake River Basin Adjudication (SRBA)
Claim 27-10207

Subject: Basis of Claim
Changes to water right.

Response Date: 14 June 2004

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". However on line 14 of the notice of claim, the remark states "Priority date based on decreed water right A27-23B". If the claim is in fact a beneficial use claim then evidence of priority must be filed with the department. Information needed is discussed below:

Water rights based on beneficial use are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill the requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some examples of Documents Which May Be Evidence of the Priority Date**".

If the Notice of Claim is based on decree 27-23B then you will need to provide documentation for the change in the point of diversion (POD), source and place of use (POU).

Previous source: Rawlins Creek
Claimed source: Poison Creek

Previous POD: SWNE section 15, T3S, R39E.
Claimed POD: SENW section 23, T3S, R39E.

Previous POU: SWNE, SWSE section 15, T3S, R39E.
Claimed POU: SWNW, SENW section 23, T3S, R39E.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

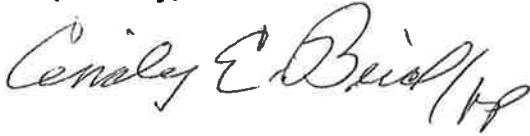

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

It's our goal to recommend historical water rights within the Snake River Basin Adjudication as accurately as possible. This office must receive your response by the date shown above. If no response is received, then your claim to water from the new source, point of diversion and place of use **will not be recommended to the SRBA court**.

I am also enclosing a Change in Address of Notice of Claim form. Please sign the form and return it to this office.

If you have any questions, please feel free to contact me at the office in Soda Springs at 547-3993.

Respectfully,

A handwritten signature in cursive script, reading "Cindy E. Bird".

Dear Claimant in the Snake River Basin Adjudication (SRBA):

About 13 years ago you or your predecessor filed with the Idaho Department of Water Resources a claim to water right in the Snake River Basin. The investigation phase of this process is now focused on your area, Basin 27.

You are invited to attend a **public meeting to be held on March 11 at 7:00 p.m. in the Eastern Idaho State Fairgrounds, Needle Craft Building, at the corner of Park and Maple streets.** The purpose of this meeting is for (1) the Department to update you on how the adjudication process works, and (2) for you, the claimant, to express concerns or discuss problems relating to water delivery in your area. This will help us to understand from an historical perspective the use and delivery of your water right.

Throughout this summer our adjudication staff, primarily from our Eastern Regional Office but also at times from Boise, will be contacting various water users in Basin 27. We ask for your cooperation in this process – the better we understand your water rights the better chance of you receiving an accurate decree from the SRBA Court that fully describes your water rights.

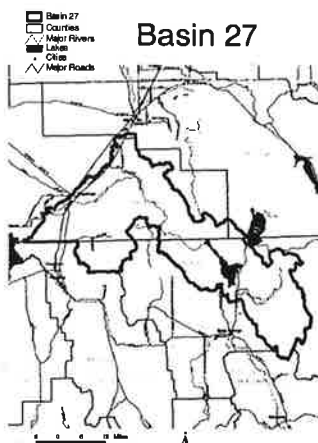

This investigation effort is being conducted by an experienced and successful staff. During recent years, this staff has accurately investigated and reported water rights in neighboring basins including the Big Lost River, the Little Lost River, Birch Creek, Camas Creek and the Portneuf River.

Please contact the Idaho Falls Office with any questions.

Sincerely,

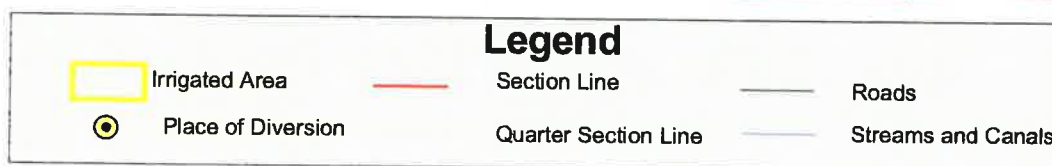

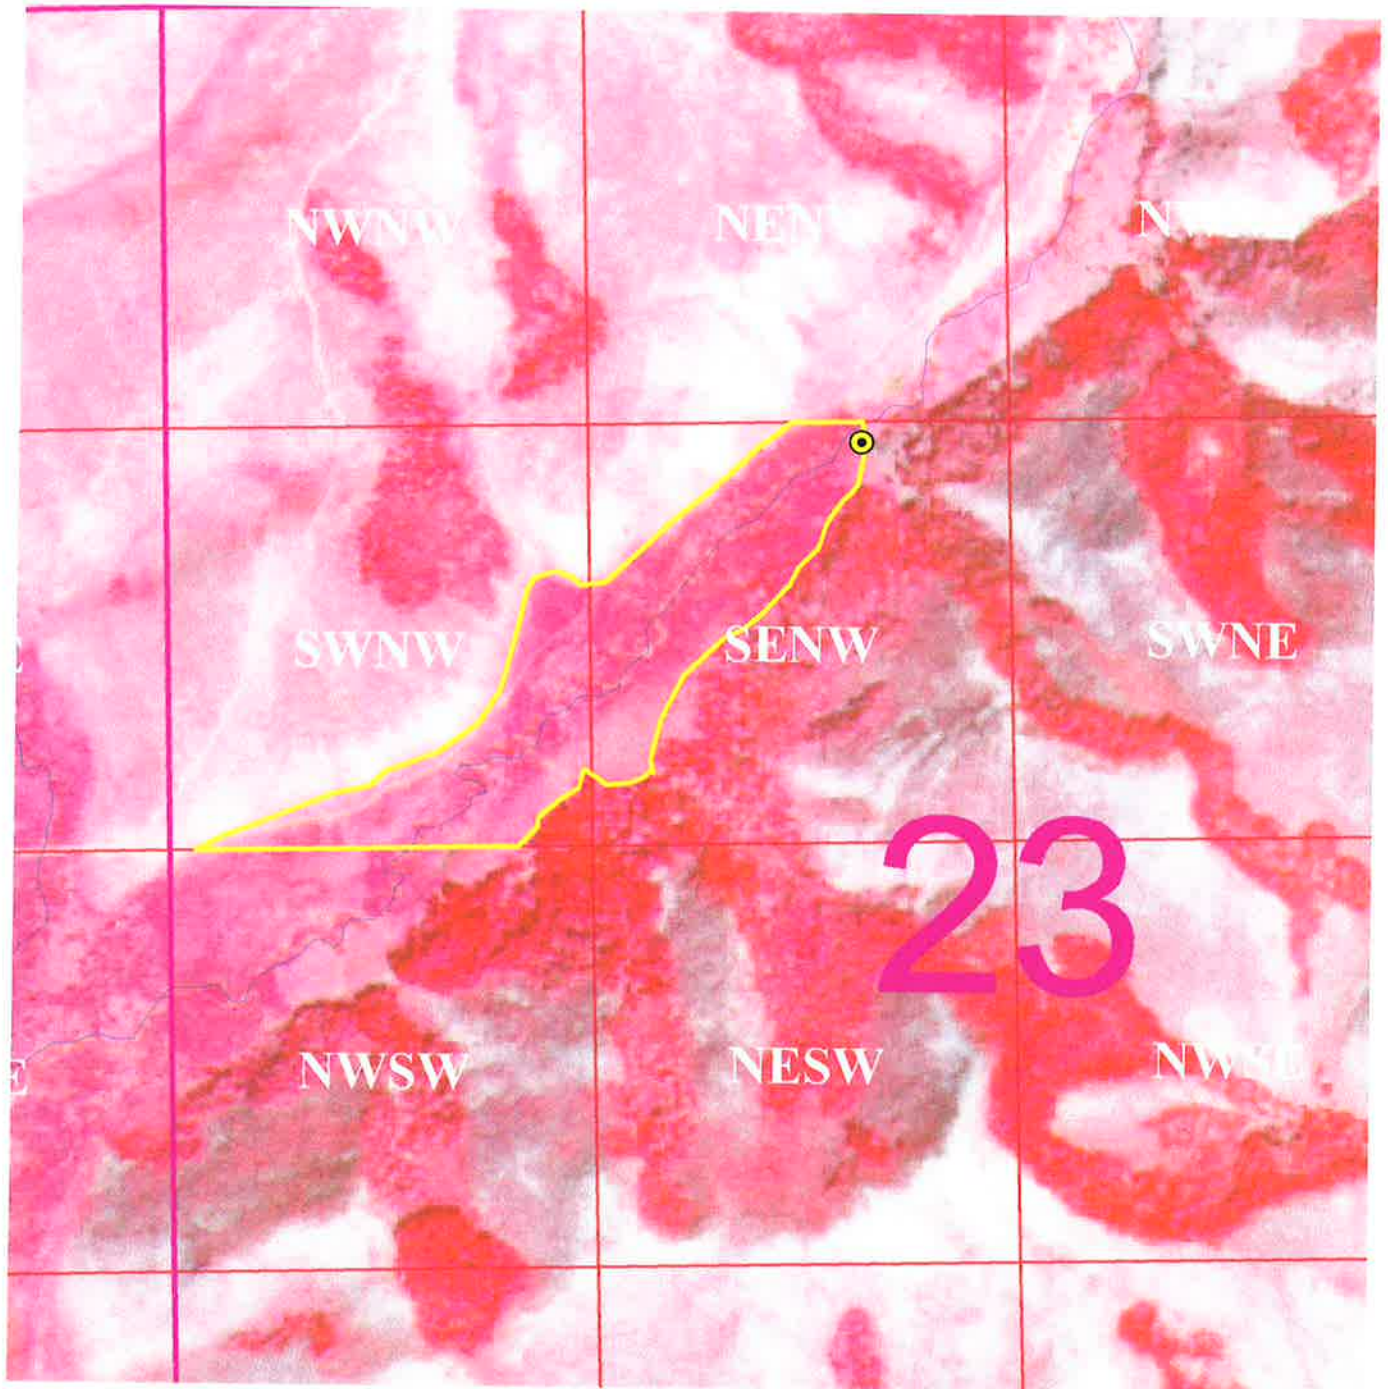

Ernest Carlsen
Adjudication Supervisor, Eastern Region
