REF: Snake River Basin Adjudication (SRBA)
Claim 27-10358

Subject: Amending the claim

RESPONSE DATE: FEBRUARY 25, 2005

Dear Claimants;

When Danny Daniels originally filed this SRBA claim in the adjudication he claimed the priority date of the James Welch water of 3-20-1886. We have determined in our investigation that this claim should have been filed on under the Fred Stevens water with a 10-1-1884-priority date. For your convenience I have amended the claim for your signatures. Please sign the amended claim in front of a notary and return it to my office by the above response date. Our office cannot recommend the earlier priority date if it is not claimed.

If you have any questions please feel free to contact our office in Soda Springs at 547-3993.

Respectfully,

Cindy E. Bird

RE: Change to Preliminary Director's Report 27-10358

Dear Jason and Megan:

The purpose of this letter is to notify you the Preliminary Director's Report you previously received for the above referenced claim has been changed. A printout of the new Preliminary Director's Report and a map is included for your records.

The Notices of Error and new claims received by this office subsequent to the May 2005 mailing of Preliminary Director's Reports in Basin 27, Blackfoot River Drainage, caused us to re-examine the recommendations involving decreed water right 27-27. Your claim to portion of this water right was one of those we re-examined. The enclosed report is based on information obtained subsequent to the initial mailing and replaces the previous Preliminary Director's Reports. I urge you to take a few minutes and review the elements of your water right as reflected on this revised Preliminary Director's Report.

The Department expects to submit to the Snake River Basin Adjudication Court all recommendations for the Blackfoot Drainage, Basin 27, in November 2005. At that time you will receive a Director's Report for your water right, which should mirror this revised preliminary recommendation. The Director's Report mailing will not include a map.

Naturally if you have questions please call me at the above phone number.

Respectfully Submitted,

Ernest Carlsen
Water Right Supervisor

8/2/04 according to Merlin Yancy, he thinks this right should be part of 27-27 NOT 37. He will research and get back to us. CB

Mailed claimant a letter requesting info
a claim will be disallowed. 8/16-04 response.

8-5-04 Megan Leiseth called this morning very concerned on what she still needs to do. Does not fully understand what is still needed, will call on Monday to visit with Cindy. PB

8-17-04 Megan called to see what else she needed.

8-18-04 1:19pm returned the call to Megan. Explained to her that this claim is probably based on 27-27, Fred Stevens, with a 1884 priority instead of 1886 as in James Welch. I suggested that she call Merlin Yancy and talk to him because he was doing research for me and was going to look into this. So she could check with him on what he found or what she could do to assist him in his search. CB.

I gave her another month to come up with something. 9-16-04.

2/1/15 we haven't heard from the claimant and this is not Welch water. It also does not fit into the Fred Stevens 27-27 water either. The legal description is not part of the POA for Fred Stevens.

Disallow claim. Claimant need to provide additional information.

6-29-05 sent Kandise McDermott a copy of O/C form. BTP

Re: 27-10847

I have prepared a layout for this claim. There are other possible overlaps, all dealing with Welch water. A recap of the potential overlapping files is as follows:

- 27-10357 Thyberg, Samuel Tad. Letter sent from AG's office. Response date 3/26/04
- 27-10358 Leiseth, Jason. Letter sent from AG's office. Response date 3/26/04.
- 27-10370 Durney, Gordon H. I did research of the Watermaster Reports 1975-1088. A recap is in the file. No correspondence from claimant in the file.

I have exported the layout to a .jpg file

we need the ownership change & warranty deed,
& yes we do need evidence, she said Oh. I
told her that we were just giving them
more time to find evidence, but we still
need it as soon as possible. I told her
that a public meeting was being planned
sometime in February. They would get a
letter when a date was set. PB
- 1-30-04 Received ownership change, warranty deed
& map from claimant. PB
- 2-27-04 Received the letter sent to Danny Daniel

Claim 27-10358

I called Megan Leiseth (782-3485) she said she called last week and was told by either a Pauline or Cindy that she could have more time to work on getting the information. Also she stated that she was told that she didn't need to provide evidence to support when the water was put to beneficial use for irrigation.

Since the date of the note in the file is dated in December I told her that I would check with Pauline and/or Cindy and let her know if she really needed to provide evidence to support when the water was put to BU.

We gave her an extension of time but didn't tell her what that time would be.

We need to clarify if we need the evidence and a deadline to get the information.

Hi Jennifer! I'm working on an ownership change for WR 27-10356 that was submitted to your office in February 2004 (finally!). Also listed on the o/c form was WR 27-10358 which was processed by your office before being sent on to us. Unfortunately, we didn't get a copy of the back page of the o/c form, so we don't have any signatures or receipting information. Could you look in your file for 27-10358 and send a complete copy of the form to me? That would be a tremendous help! :-)

Thank you!

REF: Snake River Basin Adjudication (SRBA)
Notice of Claim 27-10358

Subject: ~~Water~~ Ownership Documentation

RESPONSE DATE: 24 May 2004

Dear Claimants:

The Department of Water Resources is currently investigating water right claims in Basin 27. The above referenced claim uses the priority date of March 20, 1886. This date is recognized as representing the 400" of water decreed to James G. Welch in the 1891 Stevens vs Eastern Idaho Water Company.

It is our responsibility to recommend to the Court a clear chain of ownership for the land and water dating from the current claimant, which is you, back to the 1891 decree. We have on file a copy of the following document concerning your specific claim:

Warranty Deed dated 28 February 2003 from Don L. Cobbley and Mitzi G. Cobbley to Jason D. Leiseth and Megan N. Gay Leiseth. This deed covers a portion of the NE1/4NW1/4 of Section 18 in Township 3 South, Range 35 E. approximately 3.318 acres.

My questions concerning your claim are:

1. There is no mention if the water was also conveyed when the land was conveyed with this deed.
2. We do not have a copy of the deed that conveyed the property and water to Don L. Cobbley and Mitzi G. Cobbley from the previous owner.
- ← 3. We may have a copy of prior documents but without this missing link, we are unable to "connect the dots" and present a clear path of ownership to the Court from the 1891 decree to you as Claimant.

Claim 27-10358

If we do not receive sufficient documentation from you by the above response date, we will be forced to recommend to the Court that this claim be disallowed.

If you have any questions, please feel free to contact me at the Soda Springs Satellite office at 547-3993.

Respectfully,

Cindy E. Bird

REF: Snake River Basin Adjudication (SRBA)
Notice of Claim to Water Right 27-10358

Subject: Ownership of the Welch water

RESPONSE DATE: AUGUST 16, 2004

Dear Jason and Megan,

IDWR has been investigating the ownership of water rights in basin 27. IDWR information indicates that your water right claim is based on a water right decreed in *Stevens v. Eastern Idaho Water Co.*, Judgment Book 1, pp. 106-117 (Bingham County, Idaho August 1, 1891) to James Welch. This water right was decreed for 400 inches (8.0 cfs) with a March 20, 1886, priority date. This water right was numbered sometime after the decree by IDWR as Water Right No. 27-37.

The Department has received multiple claims to this water. We have not received a responds to our request for information. Without some documentation to support your claim to water it will be recommended as **DISALLOWED**.

Either you one of two things listed: 1). Provide convincing documentation/evidence to support a favorable recommendation. 2). Provide convincing documentation/evidence to show beneficial use of the water. Failure to achieve number one or two will result in the claim being disallowed. If convincing documentation/evidence to show beneficial use is provided then we can amend the basis of your claim to a "Beneficial Use" instead of a "Decree". The priority date would be recommended sometime after the August 1, 1891 date based on the evidence of when the water was first put to beneficial use.

Please let this office know by the above response date with the option you wish to pursue. If we do not hear from by the above response date your claim to water will be **DISALLOWED**.

If you have any additional questions please feel free to contact me at the Soda Springs
Office at 547-3993.

Respectfully,

RE: SRBA Claim based on decreed water right No. 27-10358

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources (IDWR or the "Department") in Basin 27 in the Snake River Basin Adjudication.

The Department of Water Resources is currently investigating water right claims in Basin 27. IDWR information indicates that your water right claim is based on a water right decreed in *Stevens v. Eastern Idaho Water Co.*, Judgment Book 1, pp. 106-117 (Bingham County, Idaho August 1, 1891), to James Welch. This water right was decreed for 400 inches (8.0 cfs) with a March 20, 1886, priority date. This water right was numbered sometime after the decree by IDWR as water right no. 27-37.

The Department has received multiple claims to this water right totaling more than 8.0 cfs. In order to make a complete and accurate recommendation of your water right, each element of the water right must be proven. The Department needs information that shows you are a successor to the original James Welch water right. This could be established through deeds or other conveyance documents that show you own a portion of the original water right.

Please provide this information by March 26, 2004, to Cindy Bird at the Soda Springs Office for the Idaho Department of Water Resources. You can contact her at 208-547-3993. If you have any further questions regarding this matter, you can contact Cindy or you can contact me directly at 208-327-5404.

Very Truly Yours,

Re: Snake River Basin Adjudication (SRBA)
Claim 27-10358

Subject: CHANGE OF OWNERSHIP & EVIDENCE OF PRIORITY DATE

Response Date: 16 January 2004

Dear Claimant(s):

The Idaho Department of Water Resources has begun its SRBA claims review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the SRBA.

We have been advised you are the current owners of the property and water right referenced above. Before we can modify our records to reflect your ownership of the property and water right, we need Form 42-248/42-1409(6) completed and returned. I have enclosed this form for your use. I have also enclosed a copy of this water right claim.

This claim is not a decreed right based on Welch Irrigation. In the Stevens' 1891 decree the Welch water was decreed as mining, not irrigation and cannot be converted to irrigation. The mining purpose is non-consumptive while, irrigation is consumptive. Therefore, it can only be recommended to the Court as a beneficial use claim. However, before we can prepare the recommendation, we need evidence to support when the water was put to beneficial use for irrigation. As the current owners, you are responsible for supplying the necessary documentation.

It is important that each element of the Notice be substantiated. For claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some examples of Documents Which May Be Evidence of the Priority Date**".

If we do not hear from you by the above referenced response date we will recommend to the Court that this claim be disallowed.

If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

Dear Claimant in the Snake River Basin Adjudication (SRBA):

About 13 years ago you or your predecessor filed with the Idaho Department of Water Resources a claim to water right in the Snake River Basin. The investigation phase of this process is now focused on your area, Basin 27.

You are invited to attend a **public meeting to be held on March 11 at 7:00 p.m. in the Eastern Idaho State Fairgrounds, Needle Craft Building, at the corner of Park and Maple streets.** The purpose of this meeting is for (1) the Department to update you on how the adjudication process works, and (2) for you, the claimant, to express concerns or discuss problems relating to water delivery in your area. This will help us to understand from an historical perspective the use and delivery of your water right.

Throughout this summer our adjudication staff, primarily from our Eastern Regional Office but also at times from Boise, will be contacting various water users in Basin 27. We ask for your cooperation in this process – the better we understand your water rights the better chance of you receiving an accurate decree from the SRBA Court that fully describes your water rights.

This investigation effort is being conducted by an experienced and successful staff. During recent years, this staff has accurately investigated and reported water rights in neighboring basins including the Big Lost River, the Little Lost River, Birch Creek, Camas Creek and the Portneuf River.

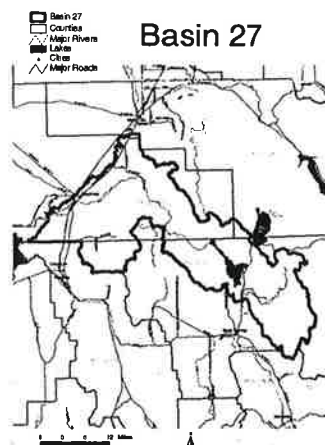

Please contact the Idaho Falls Office with any questions.

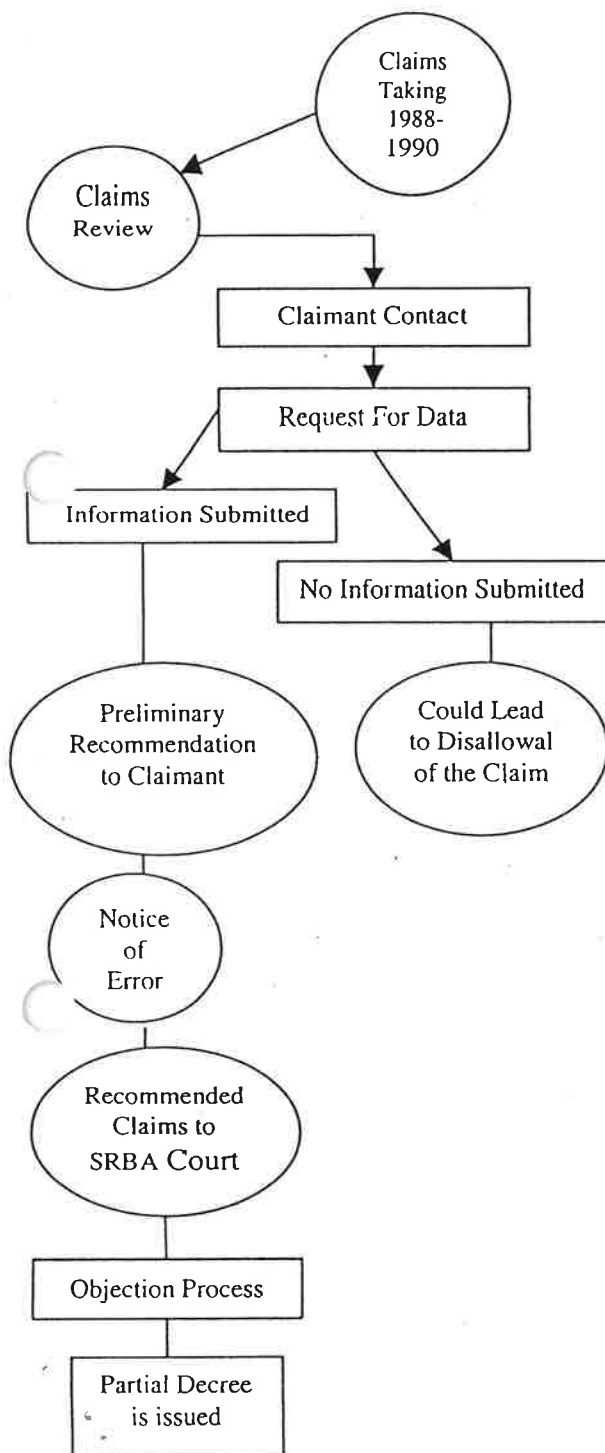

Sincerely,

A handwritten signature in cursive script that reads "Ernest Carlsen".

Ernest Carlsen
Adjudication Supervisor, Eastern Region

Questions and Answers:

Q: Why now? I adjudicated my water rights in 1989.

A. You filed your claims in 1989. Now we are investigating those claims to make accurate recommendations to the Fifth District Court.

Q: If I furnish more information will you take away my water right?

A. The State does not want your water right. We ask for additional information so that we may make accurate recommendations of Beneficial Uses of the water rights. Our schedule is very tight – we need the info ASAP.

Q: How much more money do you want?

A. You paid for your claim in 1989, or so. There might be additional fees only in extenuating circumstances, such as additional acres or new claims.

Q: How come you want me to file another claim?

A. If we suggest you file additional claims it means we have found

additional uses of water to which you may be entitled, or we have identified additional acres.

Q: What about my Domestic well and Stockwater?

A. There is no statutory requirement to file either; but IDWR accepts your Domestic and/or Stockwater claims.

The Tools We Use:

In the evaluation of water right claims and preparation of recommendations the adjudication staff utilize:

- State-of-the-art computer technology.
- High resolution 1987 NAPP photography to identify the place of use.
- Global Positioning System (GPS) used to pin-point points of diversion or detail significant features.
- Prior decrees, licenses and transfers.
- Water measurements for claims based on beneficial use.
- Watermaster records
- Historical records
- Claimant input and participation
