STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in-mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, **the seller should be able to provide you with the water right or adjudication claim number(s)**. Please enter the number(s) at **Item 1**. Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. **Do not** obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at **Item 3**.
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

3. Water right claims were filed in the Snake River Basin Adjudication for the water rights involved in the transfer. Water right no. 27-1 was claimed by Casey W. Reid (part A) and Paul Reid (part B). Water right no. 27-2 was claimed by Casey W. Reid (part A) and Paul Reid (Part B). Water right no. 27-3A was claimed by Casey W. Reid (part D) and Paul Reid (part E). Water right no. 27-4J was claimed by Casey W. Reid (part Y), Paul Reid (part Z), Fred and Alma Reid (27-10388) and Wallace R. and Marlene Reid (27-10390). Water right no. 27-5 was claimed by Casey W. Reid (part A) and Paul Reid (part B).

CONCLUSIONS OF LAW

1. The condition of approval on the transfer approval contains a clerical error regarding the combined limit of annual volume of water allowed for irrigation under the water rights. The total annual volume of water allowed under the water rights when used in combination should be 2279.0 acre-feet per annum (afa) instead of 227.90 afa.
2. The transfer approval should accurately describe the established water rights as changed by the transfer pursuant to Section 42-222, *Idaho Code*.

3. The Department should correct the condition of approval on the transfer approval to show a total combined limit of 2279.0 afa of water allowed for irrigation under the water rights.
