RE: Notice of Error Reply 27-11971 & 27-10776

Dear John & Sharon:

Enclosed for your review is a new Preliminary Director's Report for water right 27-11971 along with a layout illustrating the place of use.

In response to your comments on the Notice of Error Reply a new shape was developed to illustrate the place of use and the acreage was changed to reflect 2 acres being irrigated. I believe the aerial photo in the original layout was not rectified correctly and consequently your property appeared to be in both the NESE and SESE of Section 11, T03S, R35E. The new layout shows your property is in just the SESE of Section 11. This change also applies to the location of your home for 27-10776. Since the initial Preliminary Director's Report for this right listed the SESE Section 11, T03S, R35E as the location of your home it was not necessary to change this report.

After reviewing the enclosed documents if you find there is still an error please complete the attached Notice of Error Reply and return it to this office.

Respectfully Submitted,

Ernest Carlsen
Water Rights Supervisor

CERTIFIED MAIL

Mr. John Hoge
Mrs. Sharon Hoge

Blackfoot, ID 83221

Re: Request to Show Cause, water right claim 27-10776.

Dear Mr. and Mrs. Hoge:

It has been brought to our attention that you own the property at the above referenced address and that you purchased said property from a Ms. Judy Broadhead circa 1991. Prior to your purchase, Ms. Broadhead filed for a water right in the Snake River Basin Adjudication (SRBA) for the irrigation of two (2) acres of areas surrounding the residence. Presently, the Idaho Department of Water Resources (IDWR) Adjudication Bureau is performing detailed reviews of claimed water rights in your area, known in the adjudication review as basin 27.

On May 6, 2003, IDWR Adjudication Agent Cindy Bird formally requested evidence of priority from the former owner, Ms. Broadhead. Ms. Broadhead personally visited Ms. Cindy Bird at her office in Soda Springs on June 24, 2003. During that conversation, Ms. Bird explained Idaho statute 42-111 concerning domestic water rights and explained to Ms. Broadhead that there was no legal basis to divert water from the domestic well to irrigated 2 acres of land around the house but that the law allowed to only irrigate up ½ acre of land and not in excess of 13, 000 gallons per day. For your convenience, I have included a copy to Statute 42-111.

Agent Cindy Bird further explained two options of which a legal water right might be obtained that might allow for the future legal irrigation of the lands in question. They are:

- File a claim for a portion of water right 27-7290, or
- File an application for permit for irrigation that occurred prior to November 19, 1987.

Following the June 24, 2003 meeting, Ms. Bird indicates that she did not get a response back from Ms. Judy Broadhead or the new owners (presumably you), therefore, she wrote another letter to the owners (again, presumed to be you) on August 25, 2003 reiterating the need for action on the owners part so that she may make an accurate recommendation to the adjudication court. Since this most recent letter, we have still received no response.

Since this time, I also have attempted to phone call you and have left messages to please return my call. As of this writing, I received no such response.

You are therefore requested to show cause on or before October 16, 2003 why a notice of violation of the laws of the state of Idaho should not be issued to you seeking civil penalties and cessation of the use of the domestic well to irrigate lands in excess of ½ acre or in excess of 13,000 gallons per day.

You are welcome to phone me at (208) 525-7161 during regular business hours or return a letter to the address on the letterhead.

Sincerely,

(a) The use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to one-half (1/2) acre of land, if the total use is not in excess of thirteen thousand (13,000) gallons per day, or

(b) Any other uses, if the total use does not exceed a diversion rate of four one-hundredths (0.04) cubic feet per second and a diversion volume of twenty-five hundred (2,500) gallons per day.

(2) For purposes of the sections listed in subsection (1) of this section, domestic purposes or domestic uses shall not include water for multiple ownership subdivisions, mobile home parks, or commercial or business establishments, unless the use meets the diversion rate and volume limitations set forth in subsection (1)(b) of this section.

(3) Multiple water rights for domestic uses or domestic purposes, as defined in this section, shall not be established or exercised in a manner to satisfy a single combined water use or purpose that would not itself come within the definition of a domestic use or purpose under this section. Subject: Illegal irrigation of 2 acres on a domestic well.

hi Ron,

I've been trying to work with these guys in the adjudication process but I haven't gotten a response from them. So I was wondering if you would issue either a Cease and Desist order or a NOV for the irrigation of their 2 acres from the domestic well?

History:

I wrote Judy Broadhead a letter on May 6, 2003 requesting evidence of priority for claim number 27-10776. On June 24, 2003 Judy came into the office for a meeting. She explained that in 1976 they purchased this property, tore down the old house and built a new home in 1977. At that time or shortly after the home was finished they converted 2 acres of sagebrush into lawn and started irrigating it with the domestic well. I explained to Judy that they couldn't irrigate the 2 acres from the domestic well.

Judy sold the property in 1991 to John and Sharon Hoge. I asked her if she represented the property as irrigated? She said she would need to check the contract. Then I asked her what type of irrigation system was installed? She said it is a buried sprinkler system, then you did represent it as irrigated land. I gave Judy a change of ownership form and explained that they would need to file a claim for a piece of the water under 27-7290 or a pre-87 permit so they can continue to irrigate. I've heard nothing from Judy or the new owners. So, I mailed another letter to the new owners August 25th explaining all of this again and I've gotten no response.

I wanted to find out if you would send them a notice of violation or a Cease and Desist order on the irrigation of the two acres under the domestic well (claim 27-10776). Maybe then they will get this taken care of. The legal description is T3S, R35E, section 11 SESE.

Please let me know what action you take.

Thanks,
Cindy

Response Date: September 25, 2003

Dear Claimant(s),

We have been advised that you are the current owner of the property and SRBA Claim referenced above. Before we can modify our records to reflect your ownership of the property, we need Form 42-248/42-1409(6) completed, signed and returned. I have enclosed this form for your convenience.

In the adjudication review process there is no filing fee for the SRBA Claim 27-10776. However, we will need a copy of the plat, survey map or aerial photo with the appropriate area marked and a copy of the warranty deed.

Please be advised that IDWR's recommendation to the Court for the SRBA Claim 27-10776 will be for domestic only. Since the irrigation portion was developed after March 25, 1963, there is no irrigation allowed under this right except for ½ acre.

I understand from Judy Broadhead that you own and irrigate 2 acres. To continue irrigating the additional land you need to file an additional claim under 27-7290. You can file the new claim in our Idaho Falls office at 900 North Skyline Drive. Their phone number is 525-7161. There will be a \$50 charge to file the new claim for irrigation. There will not be a charge for the acres because that was paid under the original claim.

Please submit the documentation by response date cited above referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by June 26, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

Memo to File: The following letter date November 6, 2002, was sent out to the claimants and no response was received back to Intrepid.

November 6, 2002

Dear Sir or Madam:

Intrepid Technology and Resources, Inc. (ITR) has been contracted by the Idaho Department of Water Resources (IDWR) to verify information in the State's records regarding the enclosed claim(s). This letter is being sent to the address of record for the enclosed claim(s).

In June or July of 2002, ITR employees visited the point(s) of diversion for the claim(s) in question. The purpose of this letter is to follow up on that visit, and ask for your input to verify the boundary of the area irrigated by each point of diversion. IDWR has supplied the enclosed maps and/or aerial photographs. The points of diversion (wellheads, dams, etc.) are indicated as circles. The irrigated areas are traced with bright yellow lines.

Please take the time to review the map, and correct any inaccuracies by marking changes on the map, and sending the map and claim file back to us in the enclosed postage-paid envelope.

If the claim is no longer in use, please note it on the claim file and return it to us in the enclosed envelope.

This applies only to the enclosed claim file. Water rights or claims not included with this package will be dealt with separately. Please DO NOT mark wells, diversions, or irrigated areas not specifically addressed in this package.

If you have any questions about the letter itself or how to respond, please call Doug Larsen or myself at 208-529-5337. We will be happy to discuss it with you.

Sincerely,

Shaun Dustin, PE

To Whom It may concern

In talking to William Price who had owned the property the well is on, he told me he had been out to property years before he ever bought it and knew of the Williams family and then next Joe Conway owning it. So we know the well was there before 1930, but don't know of anyone else at this time who is still alive to verify anything earlier, will keep trying.

To Whom It May Concern:

Re property S.E. of Blackfoot known as the Huskey place when we bought it about 1959 or 1960.

I have been acquainted with that property since the time Joe Conway had it. Mr. Conway lambbed sheep there and there was a well on that property at that time.

Before that, some people by the name of Williams lived there and lived in the "old farm house" on the hill. This house was located a long way from the river and any known water. They must have had a well but I don't remember any particulars.

EVIDENCE OF PRIORITY

Dear Claimant:

The Notice of Claim identified above and or below has been filed in the Snake River Basin Adjudication (SRBA). The notice indicates a water usage of irrigation, or other commercial application that is based on **BENEFICIAL USE**. Water rights of this type are established by the historical use of water, dating back to when the water was first used for the purpose claimed. This date is known as the **PRIORITY DATE**, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the PRIORITY DATE.**

For your reference, I have provided a printout of your Notice of claim and the pamphlet **EVIDENCE OF PRIORITY**. The pamphlet suggests which documents will fulfill this requirement.

The IDWR can not recommend the notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the documentation supporting the priority date by Feb. 1, 1995, referencing the information with the corresponding Water right number. If you have any questions, please contact this office.
