OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

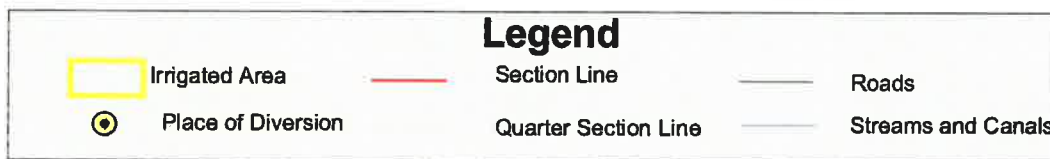

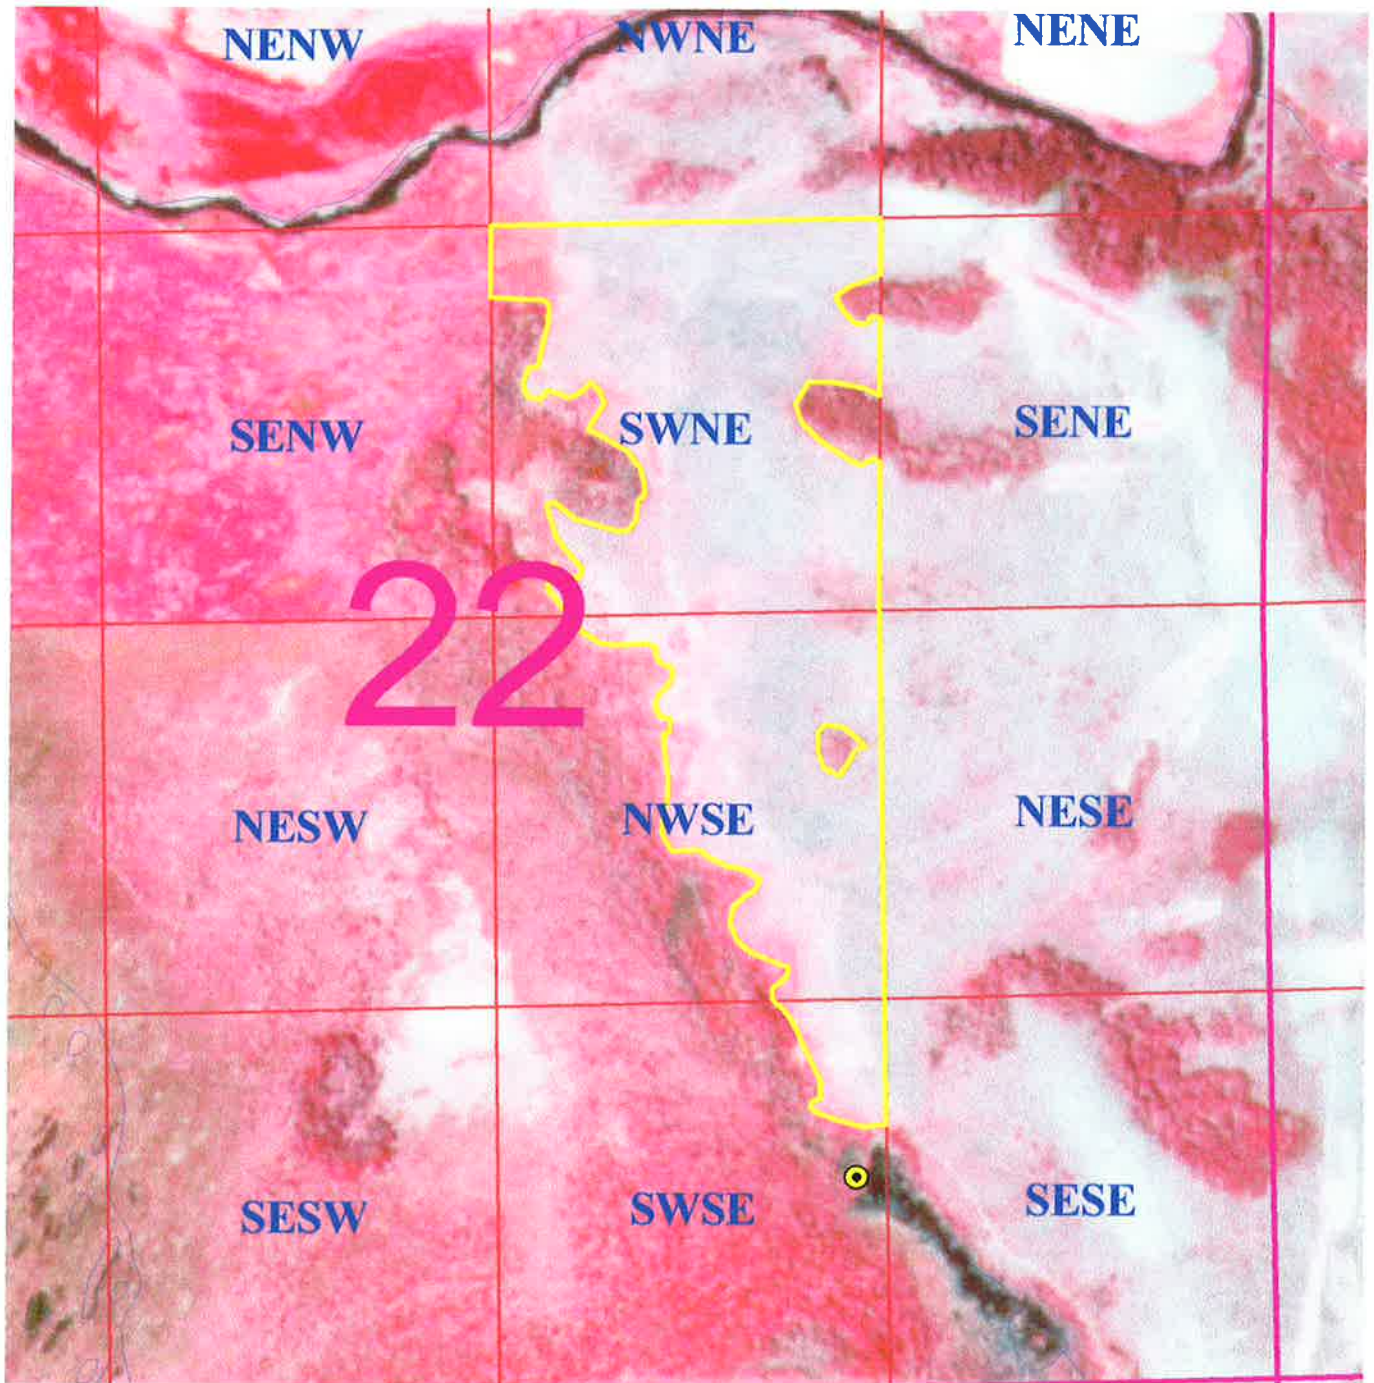

NO LAWFUL APPROPRIATION SHOWN: There are a number of circumstances in which a claim is proposed to be disallowed on this basis. This is most commonly included for a claim based on beneficial use or posted notice that is PROPOSED to be disallowed because the right claimed is not within an exception to the mandatory permit statute, and beneficial use of water prior to the mandatory permit statute was not confirmed. This is also included where a claim is PROPOSED to be disallowed because the claim is to water that is not public water subject to appropriation. This is also included where a right was determined not to exist in a prior adjudication.

NO LAWFUL APPROPRIATION SHOWN.

property and as long as John can remember (1940/1950) this water has never been diverted and used as irrigation. I suggested to John that Dan Kutch send in the ownership change and the claim should be amended to in-stream stock, with a point of beginning and a point of ending because the water is not diverted to a trough. The only irrigation is what naturally subs.

Recommend only the stock portion as a in-stream stock when evidence is provided. CB.

12/18/03 No evidence or response from Dan Kutch or John Stucki.

Disallow the claim. CB

Re: 27-11370

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 27 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding evidence to support a recommendation of the water right referenced above. In order to make a positive recommendation of this water right, each element of the water right must be proven. The Department plans to issue its Preliminary Recommendations on this water right in 2004. If the Department does not receive information for this claim, the Department will have no option but to recommend to the SRBA Court that your water right be disallowed, meaning that the water right will not be valid.

Idaho Code §§ 42-248 and 42-1409 state that notice of a change of ownership of a water right must be filed with the IDWR within 120 days of the change. If you do not own this water right, please complete the change of ownership form I have enclosed with this letter.

Please submit the change of ownership form as soon as possible. Regarding evidence to support your water right, contact Cindy Bird at the Soda Springs Office for the Idaho Department of Water Resources at 208-547-3993 or you can contact me directly at 208-327-5404.

Very truly yours,

Subject: Change in Ownership & Evidence of Priority
Response Date: July 25, 2003

Dear Claimant(s),

Caribou County records indicate that you are the current owner of the property and water right referenced above. Before we can modify our records to reflect your ownership of the property, we need form 42-248/42-1409(6) completed, signed and returned. I have enclosed the form for your convenience.

In the adjudication review process there is no filing fee. However, we will need a copy of the plat, survey map or aerial photo with the appropriate area marked and a copy of the warranty deed.

For your reference, I have enclosed the brochure entitled "Evidence of Priority". The brochure describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

Please submit the documentation by July 25, 2003 referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed brochure, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

Re: Evidence of Priority

Claim No.(s) A27-11370

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by June 26, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird
