REF: SRBA Rights 27-4058, 27-94, 27-11930 and 27-12080

Subject: Basin 27 Objections to Irrigation Use

Dear Claimants:

This letter concerns the objection filed by the Shoshone-Bannock Tribes and/or the Bureau of Indian Affairs (collectively referred to as "the Tribal Objectors") to your water right in the Snake River Basin Adjudication (SRBA) and the concurrence of the Idaho Department of Water Resources (IDWR) in a proposed settlement agreement to resolve the objection.

It is IDWR's understanding that you have agreed to settle the volume objection made by the Tribal Objectors to your water right by including a specific total annual volume limit on your irrigation water right. Recently, the Tribal Objectors requested that IDWR concur in the settlement agreement. IDWR is reluctant to concur in such settlements because of a lack of information regarding actual diverted volumes in Basin 27. If a volume limit is to be included in a water right, IDWR wants to make sure that the volume limit is as accurate as possible. To this end, IDWR is currently in the process of implementing a study intended to provide a basis for determining diverted volumes in Basin 27. Still, IDWR realizes that that some water users might have information that would provide actual diverted volumes for their water rights, thus eliminating the need to wait for completion of the study. As such, IDWR is requesting any information you have to support historical diversion amounts for your water right. If you have any such information, please send it to the address listed above.

AFFADVIT OF WATER USE UNDER 27-11930 BY DELWYNN ELLIS.

July 12, 2006

I Delwynn Ellis have observed the irrigation of the ground owned by Sid Thompson under 27-11930 for the irrigation season of July 2th to October 31st each and every year since 1972 from Lone Pine Creek. I have leased the farm to the north of Sid Thompson since that time and have witnessed his irrigation of the ground after July 1.

RE: Notice of Error Reply 27-94, 27-4058 & 27-11930

Dear Sid and Cheryl:

In response to the Notices of Error you submitted after the initial mailing of the Preliminary Director's Reports in May 2005, enclosed for your records are the revised Preliminary Director's Reports for the above listed water rights and maps of the place of use. These reports are based on information obtained subsequent to the initial mailings and replace the previous Preliminary Director's Reports.

The Department expects to submit to the Snake River Basin Adjudication Court all recommendations for the Blackfoot Drainage, Basin 27, in November 2005. At that time you will receive a Director's Report for each of your water rights, which should mirror each of the revised preliminary recommendations. The Director's Report mailing will not include a map.

Naturally if you have questions please call me at the above phone number.

Respectfully Submitted,

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

We disagree with the period of use as a reason for being disallowed because Lone Pine Creek is a perennial stream. It does not flow to the Blackfoot Reservoir on some years.

2. Describe the changes you wish to make in the proposed recommendation:

I have diverted water out of Lone Pine Creek since claim was made to irrigate after period of use on claim 29.94. Enclosed find evidence of use.

3. Give a brief explanation as to why you disagree with these portions:

It seems to me where I applied to use the water in claim 27-11930 and have been using it since that time & before and because of big water yrs everyone has plenty, but on low water years little call gives me the prior right. I should be allowed this claim.

I AGREE with this proposed recommendation: no changes need to be made.

Re: Evidence of Priority

Claim No.(s): A27-11930

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by July 10, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

Re: Extended Season of Use

Claim No.: 27-11930

I, Sidney G. Thompson, remember that my Dad had the county do some work on ditches to control the water on our place, in accordance with the survey work that was done by Willis A. Tingey, Civil Engineer.

Dad arranged for County Commissioner, Reynold Robinson to take care of the bill for him. Reynold's last year in office was in 1950.

I don't remember his exact time, but big rocks were used to bolster the dam or dikes. If there was too much water it was allowed to drain off, if water was short dams were used to hold the water back. We have always held the water as long as we needed it. Sometimes we left dams in all winter long and had them wash out in the spring.

Sincerely,

Sidney G. Thompson

WHEREAS, There has been deposited in the General Land Office of the United States
Certificate of the Register of the Land Office at Blackfoot, Idaho, whereby it appears
that, pursuant to the Act of Congress approved 20th May, 1862, "To Secure Homesteads to
Actual Settlers on the Public Domain", and the acts supplemental thereto, the claim of
Samuel L. Goodwin has been established and duly consummated, in conformity to law, for the
North East quarter of Section eighteen, the North West quarter of the
North West quarter of Section seventeen, and the South West quarter of the South West
quarter of Section eight in Township six South of Range forty three East of Boise
Meridian in Idaho, containing one hundred and sixty acres according to the Official Plat
of the Survey of the said Land, returned to the General Land Office by the Surveyor General:
I, KNOW YE, That there is, therefore, granted by the United States unto the said Samuel
Goodwin the tract of land above described: TO HAVE AND TO HOLD the said tract of Land,
with the appurtenances thereof, unto the said Samuel L. Goodwin and to his heirs and
assigns, forever; subject to any vested and accrued water rights for mining, agricultural,

manufacturing or other purposes, and rights to ditches and reservoirs used in connection
with such water rights, as may be recognized and acknowledged by the local customs, laws
and decisions of Courts, and also subject to the right of the proprietor of a vein or
lode, to extract and remove his ore therefrom, should the same be found to penetrate
or intersect the premises hereby granted, as provided by law.

IN TESTIMONY WHEREOF, I, Grover Cleveland, President of the United States, have
caused these letters to be made Patent, and the Seal of the General Land Office to be
hereunto affixed. Given under my hand, at the City of Washington, the nineteenth day
of December in the year of our Lord one thousand eight hundred and ninety three, and
