HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

Under order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

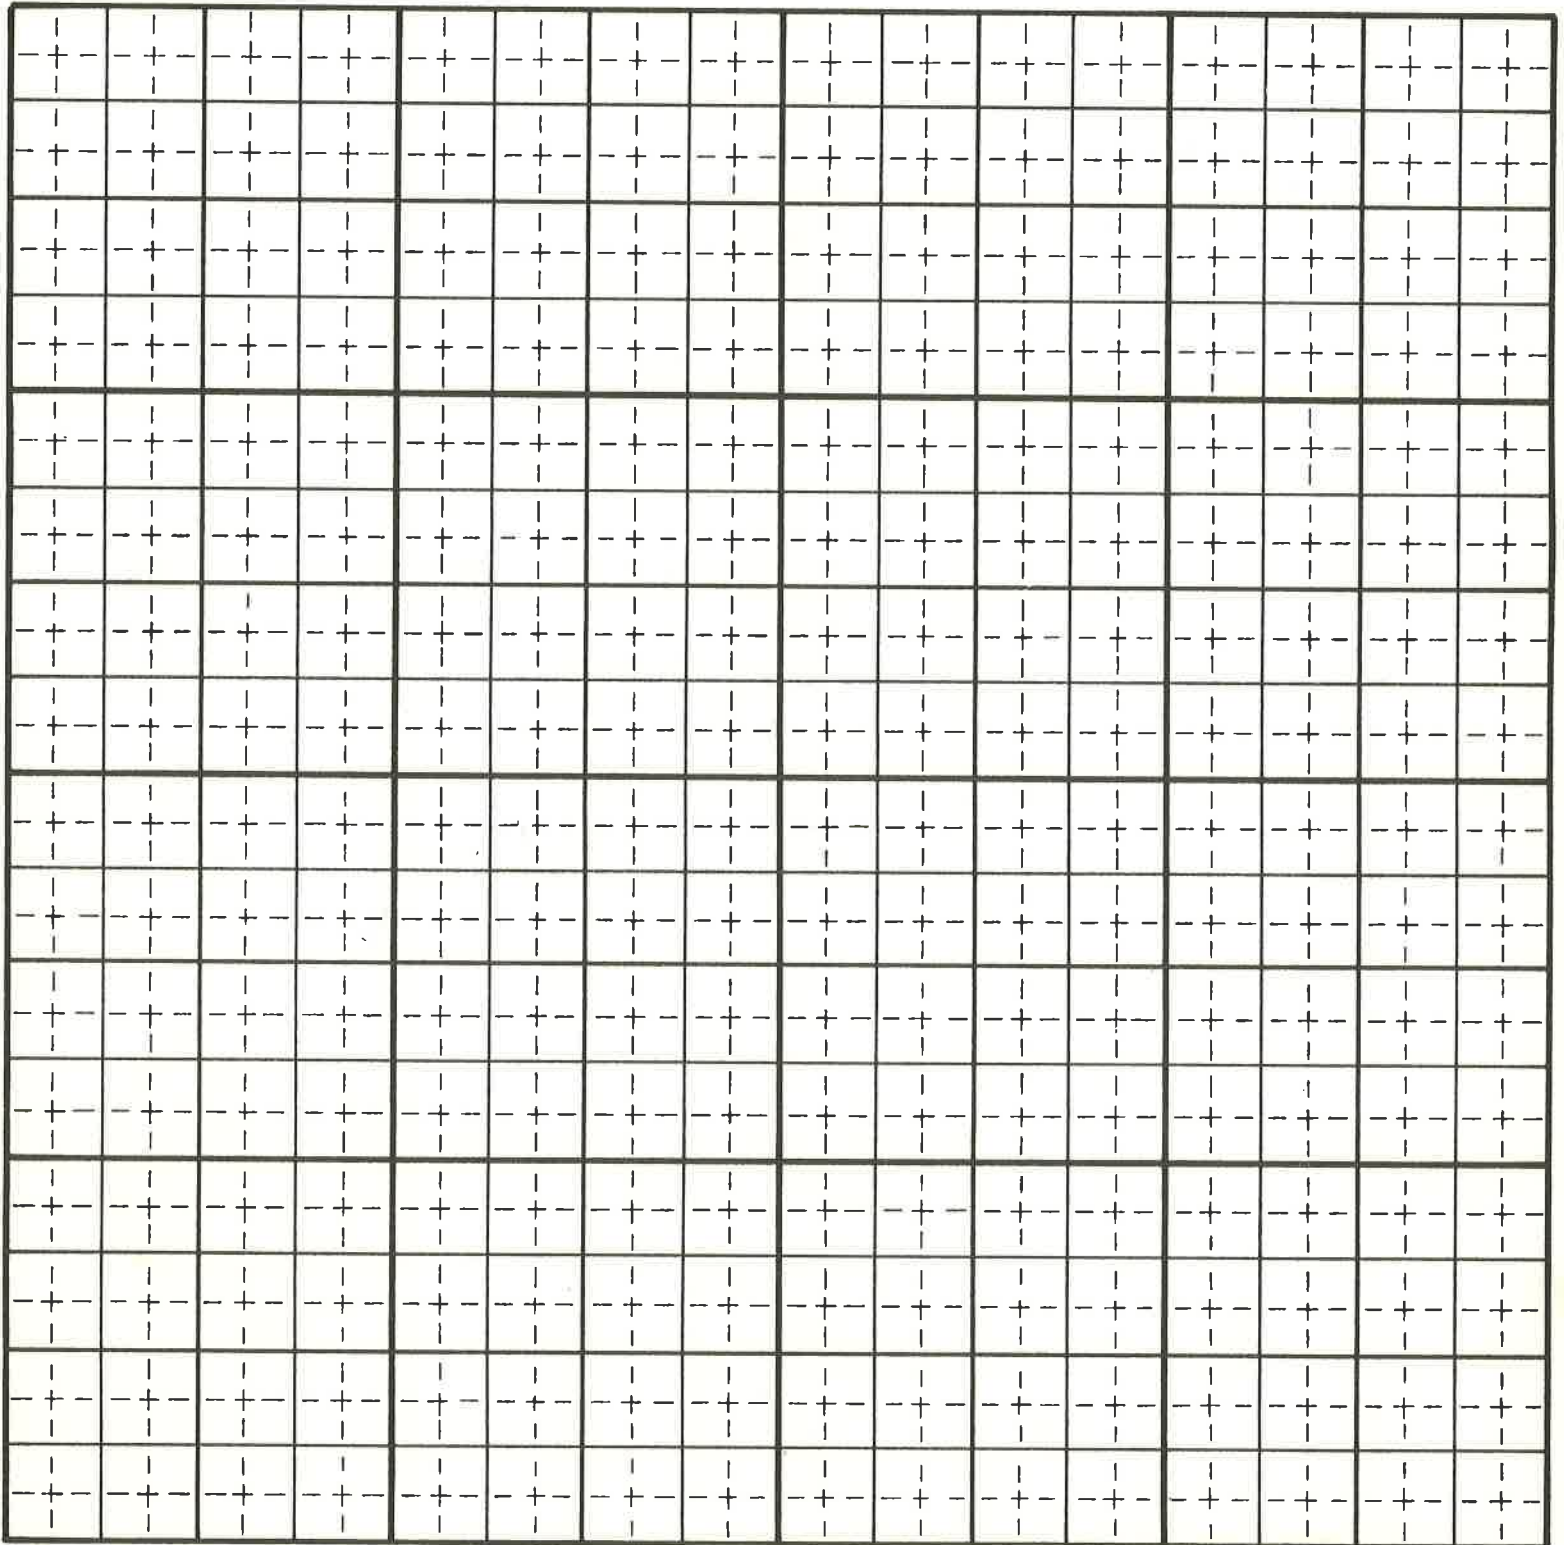

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

This is a detailed cadastral map of a section of the Boise River. The map is divided into sections 7, 8, 9, 16, 17, 18, 19, 20, 21, 28, 29, and 30. Each section contains numerical data, likely representing acreage or survey measurements. The river is shown flowing through the center of the map, with its course marked by a wavy line. The river is labeled "BOISE" in several places. Tributaries are also shown, including "EAGLE ISLAND" and "CARTER DRY". The map includes bearings and distances for various points, such as "N. 89° 43' E.", "S. 89° 54' W.", "N. 89° 54' E.", "S. 89° 49' W.", "N. 89° 51' E.", "S. 89° 43' W.", "N. 89° 56' W.", "S. 89° 57' W.", "N. 89° 55' E.", and "S. 89° 43' W.". The map also shows the "MEF" (Main Eastern Front) and "NORTH" directions. The river is shown flowing from the top left towards the bottom right. The map is a black and white line drawing with text and numbers.

Russell -

I spoke with Jan S today. Here are your options:

1 - Looks like the Ayarra lot **perhaps** should have been included in 63-287B. We were working with a Ron Streng who provided us a list of Clearvue water users in the Clearvue Estates Sub and the Ayarra lots were not in his information. To determine if the Ayarra lots should have been included, you will have to:

a - determine if the water used on the property comes from Settlers. Where is the old pump you referred to? The Settlers ditch crosses the Ayarra lot in the SE.

b - gather information from Streng, Karen Ayarra, neighbors re why Ayarra was not included [Ayarra may not have wanted to participate for whatever reason. Perhaps he was happy with the 1/2 acre of irrigation to which he was entitled as a domestic right. That is consistent with the information you received from the neighbors that only the area around the house was irrigated.]

c - if you want to be a part of this right, you need to call or fax the SRBA Court IMMEDIATELY to let them know that you intend to file a late objection and then file the notice for late objection and the late obj ASAP because the Court is currently issuing partial decrees for uncontested rights and it is very tough to get the Court is set aside a partial decree.

2 - If the Ayaras and predecessors pumped directly from the Boise R, then you can file for a claim separately for 63-287. You will have to:

- a - gather information that the property has been historically and continuously irrigated from the Boise River.
- b - file a motion for late claim and notice of late claim with the Court.

3 - re purchasing an existing groundwater right :

a - all of Nampa is in basin 63, the boundaries of which should be on the IDWR website in the mapping area. If the right to which you are referring has a Nampa address then it is Basin 63

b - file a transfer to change the water right you have purchases to the Ayarra property. forms are on the website.

Attached is a list of consultants that can help you with all of the above.

Vicky,

I've been unable to locate a map of the Basin 63 boundaries. Do you know if the water rights I'm considering purchasing are within the Basin 63 boundaries (i.e. South side of Lewis Lane, between Pump Road and Sky Ranch Road in Nampa). If they aren't, then I'll continue looking for some that are located in Basin 63 to increase my chances of a successful transfer.

Thanks,

Russell

Yes, Russell, the location could be an issue. However, I cannot answer questions like that definitively because a transfer application requires an analysis of just those things by our allocations staff.

I do not yet have an answer to you question re if your lot can be added to the 63-287B right. I have scheduled an appointment to talk to Jan Shurte, my supervisor and the agent who reviewed and recommended the right. Will let you know.

Vicky,

RE: Water right for 200 E. Clear Creek, Meridian.

I spoke with a gentleman this afternoon who owns a 360 acre field south of Nampa who would sell me 4 acres of groundwater water rights with an early 70's priority date. The property is located on the south side of Lewis Lane, between Pump Road and Sky Ranch Road. Is this within the boundary of Basin 63? If not, would it still be possible to transfer the water right?

Also, one attorney I spoke with mentioned it may be difficult to transfer a groundwater right to my property since it's located next to the Boise River. He said that unless my well is very deep, it might be looked upon as drawing water from the river. The well is 127' deep. Do you think this would be an issue?

Thanks,

Russell Ruff

Because IDWR has already recommended Basin 63 claims to the SRBA Court, you would have to file a motion for late claim with the Court with the Notice of Claim and fee attached. The Court will decide whether the reasons that the claim were not filed timely is sufficient for the Court to allow the claim. If they grant the motion to file late claim, the Court will forward the claim and fee with IDWR for our claim investigation and recommendation. During that investigation, we would weigh the evidence that the irrigation was a lawful appropriation, whether it was forfeited and any affidavits submitted. The affidavits need to be detailed in the description of the water use, source, hp of pipe, etc.

I will tell you that an mandatory licensing statute was enacted in the 1970s stating that surface water appropriations made after 5/20/1971 could only be made through the application and licensing

procedure. So, the 1987 aerial is not sufficient evidence of a lawful appropriation. I have attached a 1964 aerial that shows the lot but only about 1.7 acres is irrigated. A 2003 aerial shows about 1 acre irrigated.

Motion to file late claim and the instructions are available on the SRBA webpage
www.SRBA.Idaho.gov

The Notice of Claim form and instructions are available on the IDWR webpage
www.IDWR.Idaho.gov

Subject: RE: ayarra property

Vicky,

It appears this lot was being irrigated prior to 1987. The house was built in 1978 which is probably when the original owner (Daniel Ayarra who died in 1991) began watering the lot. I noticed an old water pump on a trailer on the lot that was probably used to pull water from the ditch or from the river to irrigate, and the 1987 aerial photo you referred to showed the lot was, at one time, well taken care of and appeared to be just as green as the neighboring lots.

If one of the neighbors remembers the property being irrigated prior to 1987 and is willing to sign an affidavit to that effect, can I file for a surface source water right for irrigation "in arrears"?

Thanks,

Russell Ruff

Russell -

Sorry for the confusion but I have now figured out what went on. The reason I could not find Ayarra in our database was because I was looking for claims or rights in the Eagle Island area which is Basin 63. All of his claims and applications are in Basin 2, the source of which is the Snake River. Ayarra never claimed a water right of any kind for the 4.5 acre parcels you inquired about in the T4N R1E section 19 NWNW. The 15 acres you referred to is in T6S R8E section 6, a totally different area and his claim 2-97 as well as the license 2-7400 he has for the 15 acres is for Snake R water.

Attached is the consultants' list.

It seems odd, even improper, that these forms were mailed on 11/21/2005 to arrive on 11/23 Thanksgiving Eve and due back on the next business day 11/28 following a four-day holiday weekend. That's only my impression, what about the ~~fourteen~~^{six} parties listed who no longer own the identified property and won't have time to forward the mail prior to the deadline? The listing of water users seems to be several years out-of-date.
