PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 63-291

NAME AND ADDRESS: ISLAND HIGHLINE DITCH CO
JEANNE HARROLD
27922 PET LN
PARMA ID 83660

SOURCE: BOISE RIVER

TRIBUTARY: SNAKE RIVER

QUANTITY: 3.000 CFS

Whenever it becomes necessary for the watermaster to deliver this right the following condition shall apply. This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and proceeding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and proceeding to the earliest, shall be reduced to 60 percent of their decreed quantities.

PRIORITY DATE: 04/01/1879

POINT OF DIVERSION:

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION	3/15 11/15	3.000 CFS

Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only when the natural flow in the Boise River below the Star Bridge in Township 04 North, Range 01 West, Section 18, NE¼ of the SE¼ of the SE¼, Boise Meridian (approximate river mile 33.9) is sufficient for water to be available for diversion at the point of diversion described above, provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.

PLACE OF USE:

813 ACRES TOTAL

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

This right when combined with Rights No. 63-292 and 63-293 can be used to irrigate up to 813 acres within the boundary of the Island Highline Ditch Company.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

This right is designated as No. 71-A in the Stewart Decree and the Boise Water Distribution Report.

Dear Ms. Harrold:

In reviewing your adjudication claims (63-291, 63-292 & 63-293) in the Snake River Basin Adjudication with the historic summer diversion from the Island Highline Canal, I notice there is routinely diverted more water than the total of your claims.

Claim No. 63-291	-	3.0 cfs
Claim No. 63-292	-	7.0 cfs
Claim No. 63-293	-	<u>10.0 cfs</u>
		20.0 cfs

The attached sheet depicting historic diversions from Island Highline Canal since 1968 shows diversions ranging greater than 70 cfs. Your organization may want to file a beneficial use claim for some portion of this additional water flow.

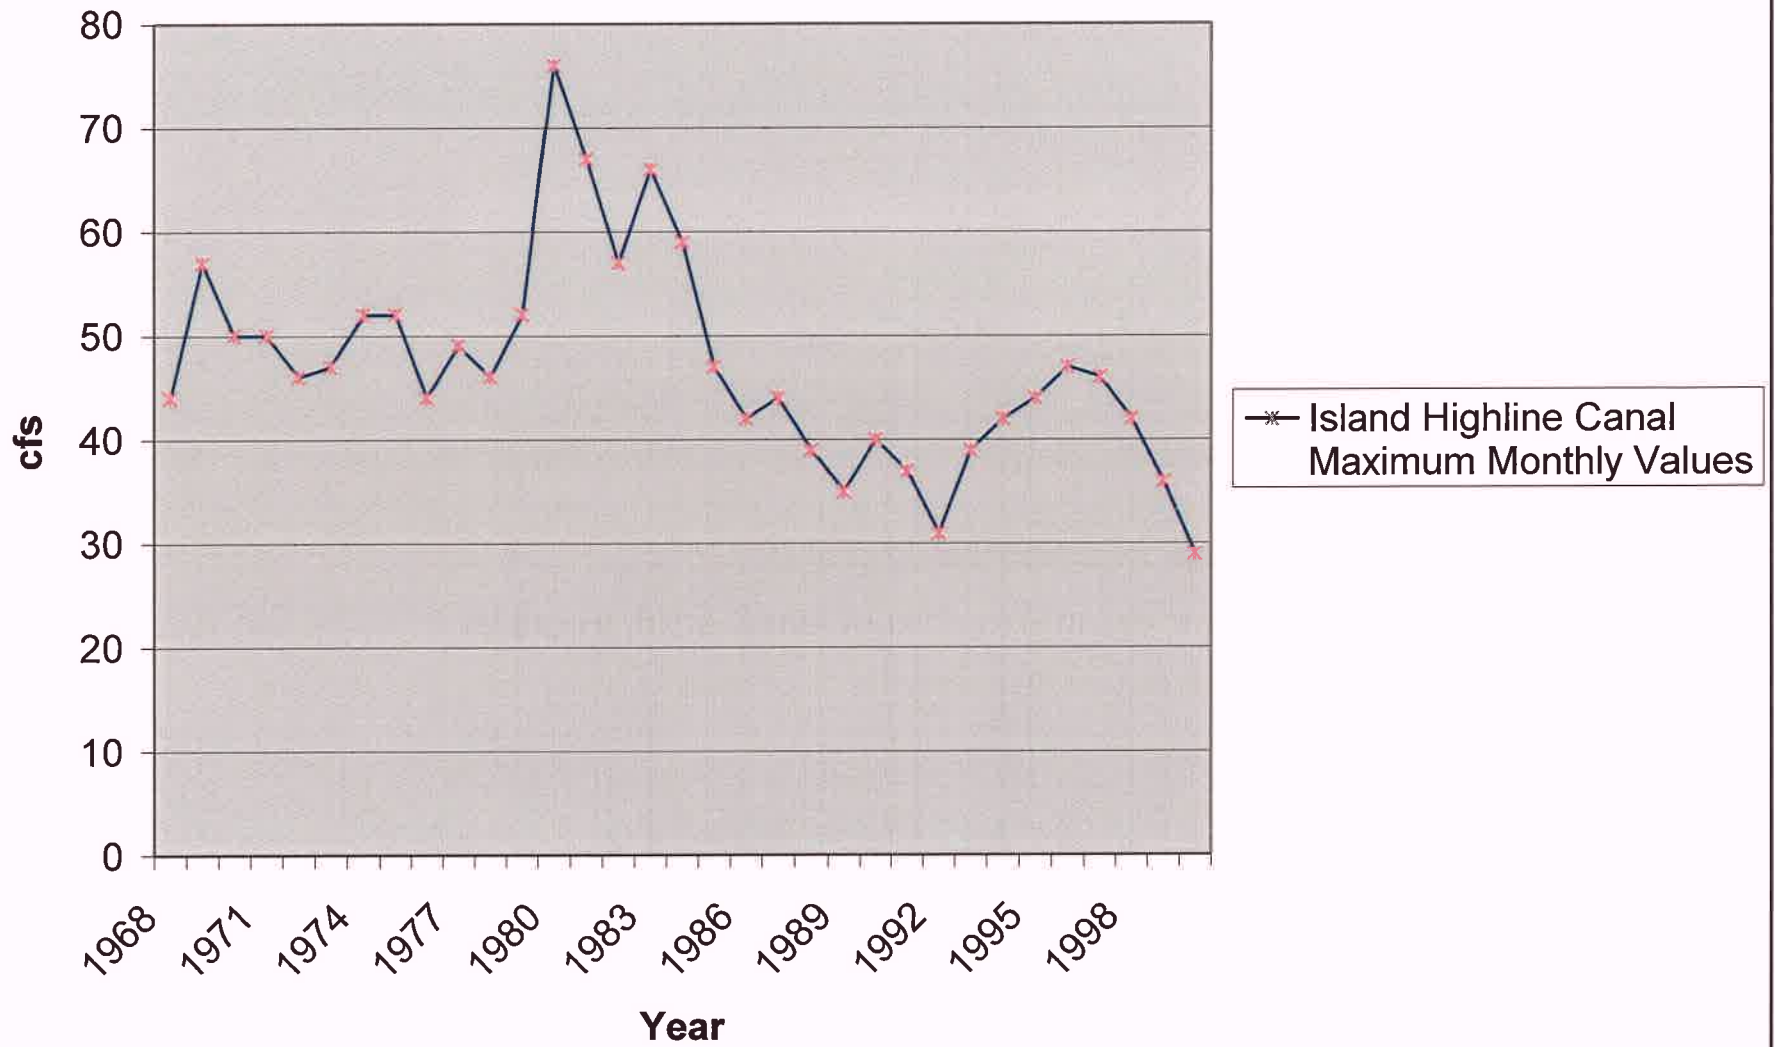

If you would like to discuss your water rights with me, you can contact me at (208) 287-4805 or email me at Dave.Tuthill@idwr.idaho.gov.

RE: Invitation to Water Rights Meeting

Dear Boise River Basin 63 Part 3 Water Delivery Organization Representative:

As you are aware, the Idaho Department of Water Resources (IDWR) is presently investigating water right claims in the Boise River Basin in preparation for submittal of Director's Report recommendations to the Snake River Basin Adjudication (SRBA) Court. Many of the recipients of the distribution list enclosed herewith attended a Counting Acres Workshop held on January 13, 2004, where we distributed maps and discussed the process of preparing these recommendations.

Thus far we have had good success in receiving input regarding water rights from many of the water delivery organizations in the Boise River Basin. We plan to issue our preliminary recommendations for water rights for Basin 63 Part 3 water delivery organizations this fall. In preparation for these recommendations we seek input from your organization. As a step toward assisting you with providing needed input, we will be conducting a **meeting to discuss the water rights of your organization at the Caldwell Elks Lodge #1448, 1015 N. Kimball Ave., Caldwell, on Wednesday, July 20, from 10:00 am until no later than noon.** Our intent is to answer questions relative to the water rights of your organization, to ensure that they will be correctly reported to the SRBA Court. This is important because the SRBA decree will supercede earlier decrees, licenses and beneficial use rights.

Please plan to bring the maps that we distributed to your organization last year, and any questions that you might have concerning this process. Our experience is that this type of advance planning results in a much smoother and more efficient process when we prepare the SRBA recommendations for your specific basin. IDWR personnel from the Western Regional Office and the State Office look forward to meeting your organizational representatives in this important matter.

Sincerely,

David R. Tuthill, Jr.
Administrator, Water Management Division

Dear Claimant(s):

This office has received the Notice of Claim(s) to a Water Right for the use of water within the Snake River Drainage Basin. However, due to the items checked below, we cannot process this claim(s). We are returning the claim(s) to you to complete only the following item(s) showing a checkmark in the blank for that item(s). ~~Receipt No. _____ in the amount of \$ _____ for the filing fee previously submitted is also enclosed.~~

☒ Fee - No fee received or inadequate fee received, fee due is \$980⁰⁰.
See enclosed fee schedule for how this fee was computed.

☐ Late Notice of Claim - This claim was received on _____ which is after the deadline for filing claims in _____ County. The deadline for this County was _____, and the late fee now due is _____. The enclosed Late Fee Notice explains the late fee and how it is computed.

☐ Item No. 2 - Date of priority - month/day/year that water was first put to use, regardless of ownership. If month or day is unknown, the Dept. will recommend 12/31 of the year designated.

☐ Item No. 3 - Source of Water

☐ Item No. 4 - Point of Diversion - must be shown by quarter-quarter (40 acre tract), section, township and range, except for spring sources which should be shown by quarter-quarter-quarter (10 acre tract), section, township and range. Lot and block for a subdivision are not acceptable as the legal description for the point of diversion, however, please include this information in the remarks section of your claim. See page two of this letter for additional information.

☐ Item No. 6 - Uses of Water

☐ Item No. 9 - Non-Irrigation Uses

☐ Item No. 10 - Place of Use - must be listed by quarter-quarter (40 acre tract), section, township, and range. Lot and block for subdivision are not acceptable as the legal description for the place of use, however, please include this information in the remarks section of your claim. See page two of this letter for additional information.

☐ Item No. 12 - Ownership of place of use.

Item No. 15 - Basis of Claim - Please designate if your water right is based on beneficial use of the water - Beneficial Use, or if it is based upon a previously filed water right - Posted Notice, License, Permit or Decree.

Item No. 16 - Signature - this claim form does require your signature be affixed and notarized by a notary public. Note, the notary public signs below the signature blocks listed in this item.

MAP ENCLOSED: Please mark the location of the well(s) and the location of the place(s) of use on this map. Then return the map with your claim and the additional information requested, if any. We can then determine the quarter-quarter(1/41/4) legal description based on the locations marked on this map.

X Other: According to Remarks (Item 14), the place of use is the same
on all 3 claims as shown on AG 3-00291, on 930 acres. There is
apparently a typographical error in Item 14 on AG 3-00293 - states 630 acres.
If it is in error, please correct, and initial your change.

Please complete the above item(s) on your claim form(s), initial and date any changes or additions, and return the claim(s), with the requested fee(if one is required above), to our office within 30 days from the date of this letter. If the claim(s), or fee requested, is not received within this 30-day period, the claim(s) will be rejected and your fee, if one was paid previously, will be refunded. Please contact the agent listed in the address below, within the 30 day time period, either in writing or by phone, to let us know if there is a problem returning the claim(s), or fee, in order to keep this claim(s) valid. If the claim(s) is rejected and fee refunded, due to no response within the 30-days, the claim(s) can be resubmitted up until claims in this area are prepared for court decree. However, at that time the corrected claim(s) along with the regular filing fee that was refunded, and an additional late fee will be required. Please return your claim(s), any information needed, and the fee requested, if any to the Western Region Office, 2735 Airport Way, Boise, ID 83705, to the attention of
Helen.

Please feel free to contact this office if you have any questions concerning this letter. My phone number is 327-7935.

MEMO TO THE FILE

File Numbers: A63-00291, A63-00292, A63-00293
For: Island Highline Ditch Company
James Klahr, President
From: Linda Werner
Date: 2/26/1990

RE: Irrigated acreages

On 2/15/90 Mr. James Klahr came to the Mobile Unit to file the claims for the Island Highline Ditch Company. He had an appointment set up from 8:30 to 2:30. I took his claims.

The ditch company has three water rights which were adjudicated in the Stewart decree. These rights did not indicate the number of acres per quarter, quarter section.

Mr. Klahr came to this appointment with no information except legal descriptions of his property. I talked with the claimant for 2 hours explaining to him the different options available for filing a claim which would reflect accurate places of use and number of acres. As filing as president of the ditch company he represents approximately 15 individuals who are receiving water out of the ditch.

The suggestions I gave him were as follows:

1. Suggestion-Make another appointment with me in Boise and in the meantime have a meeting of the water users asking them to indicate on a map where they are irrigating and the number of acres.
Response-He indicated he did not have time to put this off to come to Boise as he had too many other commitments.
2. Suggestion-Have him make the filing as of 2/15/90 and I would assist him in determining the number of acres and locations.
Response-He was not sure where these people were located and how many acres they were irrigating.
3. Suggestion-Have each individual user file a separate Notice of Claim thereby yielding the responsibility for accuracy to each individual user. I explained to the claimant the difference in flat fees between three claims vs fifteen or more claims.
Response-He did not respond to this suggestion in a direct manner but opted to go for suggestion number five. He did tell me, however, that what was most important to the other users was that the claims be filed to reflect 930 irrigated acres.
4. He indicated that the secretary of the ditch company had a listing of the users and the number of acres they were

irrigating. I suggested that he get in touch with her that day, get the information, and then come back to the mobile unit with that information.

Response-He did not know where she was that day as she did work for other individuals. Also, the land description did not indicate locations only user names and number of acres.

5. Suggestion-The claim be filed showing a total of 930 irrigated acres although the irrigated acres per quarter, quarter would not be accurate. I indicated I would flag the claims for a field exam so the correct acreages could be determined.

Response-He opted to go with this method.

At this point I went over the map and put in acreages. He tried to assist me in doing this but had no idea what was where. He showed no interest whatsoever in where these acreages were located. He assisted me in the data entering process by reading off the locations and irrigated acres.

He also filed on two domestic wells. At this point he took a copy of the claims with him and told me he would have the secretary send us a check.

last years w/ Tommy, Wendell,
Al Williams.

As xylene is easier to obtain
in large quantities Jim Hedges
will order our xylene with
their ditch. Everyone was in
agreement.

Jack Huett referred to item
in last years minutes of paying
for acreage not irrigated.
Wendell reported he checked
w/ ASC office and the billing
amount was very close to watered acres.

Assessments - Wendell made
motion that Spring assessment
be 800/ per share w/ fall dropping
to 400/ per share. Tommy 2nd,
motion passed.

Jack Huett suggested Al
should keep ditch full w/
no fluctuation of ditch as he
has problems w/ washing check,
loosing sets, etc.
