IN THE MATTER OF APPLICATION FOR TRANSFER
OF WATER RIGHT NUMBERS 63-0306, 63-0359
AND 63-2420 IN THE NAME OF REYNOLDS
IRRIGATION DISTRICT

ORDER

WHEREAS, on February 21, 1984, Reynolds Irrigation District filed an Application for Transfer with the Department of Water Resources to add a point of injection into the Snake River and to add a point of rediversion from the Snake River to the above referenced water rights; and,

WHEREAS, the summation of the diversion rates of these three water rights, is 57.56 cubic feet per second; and,

WHEREAS, water diverted under the three water rights has, since their development, been carried across the Snake River by a common pipeline; and,

WHEREAS, the capacity of that pipeline was measured by the Department to be 31.28 cubic feet per second on August 3, 1982; and,

WHEREAS, the total actual development of these three water rights is limited to the capacity of the pipeline; and,

WHEREAS, the transfer will meet the requirements of Section 42-222, Idaho Code if the rediversion rate is limited to the pipeline capacity;

IT IS, THEREFORE, HEREBY ORDERED, that the application for transfer of water right numbers 63-0306, 63-0359 and 63-2420 is APPROVED subject to the following conditions:

1. The rate of rediversion shall not at any time exceed the rate of injection.
2. The rate of rediversion shall be limited to a maximum of 31.28 cubic feet per second.
3. Measuring devices of a type approved by the Department shall be installed and maintained at the points of diversion, injection and rediversion. These measuring devices

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information

a. Amount of water to be diverted 57.56 c.f.s. &/or _____ acre feet

Description of diverting works:

Headgates and ditches will still divert and carry well, drain ditch and Warm Springs Creek water, but will dump this water into the Snake River on the Canyon County side. The District will then use it's Snake River pumping plant located on the Owyhee County side to divert a like amount of water into it's irrigation system.

Describe the reasons for the proposed changes:

By dumping water and pumping, the District will eliminate a pipeline across the Snake River and thus reduce maintenance costs. The pipeline has a capacity of approximately 34 cfs; the Snake River pumping plant will also pump only the 34 cfs that could be delivered by the pipeline.

2. Change in point of diversion

Point of diversion NW ¼ NW ¼, Section 10 Township 1S

Range 2W, B.M., Canyon County

Additional points SWSE, SESE Sec 3 and SWNE, NENE Sec 9 T1S R2W

These are the acres I have taken from The Reynolds Creek Green Book That are also irrigated by Reynolds Irrigation District.

I have trouble with section 1 153W right # 57-0006 as there are 2 SWNE of 17 and 28 acres which equal more than 40 acres. Also there are other overlapping descriptions for other rights in this same section. All These grounds are all irrigated by Reynolds Irrigation Dist.

The rest of the rights in the other sections are alright as far as I know.

When we first met in January, I said Reynolds Irrigation would pay the one dollar per acre for all irrigated grounds in its boundrys. But some of the individual members of the district with creek rights have paid and some haven't...

If you have any more questions please call, preferably before 8:00 in the mornings, or leave a message and I'll call you back.

Jan,
It looks good.
I didn't catch the suffix "B" on 02-2027. It should have been there. I will check and be sure we have it on the partial decree: 02-2027B.
Thanks,
Jerry

Hi Ted & Jerry,

Attached are copies of the above listed Reynolds Irrigation District rights that we spoke about. They reflect the changes to the quantity remarks showing the hashed through remark that was omitted and the underlined remark reworded. I also added the B suffix to the combined use condition concerning 2-2027. The current number for the Reynolds Irrigation District's portion is 2-2207B.

It is my understanding that these changes will be made to the recommendations prior to partial decree without resending the Standard Form 5 around again. If either of you see a problem with these recommendations, please feel free to contact me. Thank you for your discussions on these changes.

DECREES

#1 – Reynolds ID rights 63-359, 306 & 2420 – Question is that there is a condition that states: The rate of diversion shall not at anytime exceed the rate of injection. The rate of diversion shall be limited to a maximum of 31.28 cfs. The water rights add up to 57.56 cfs for non-Snake River rights, yet the rate of diversion out of the Snake River (these are injected into the Snake and then rediverted) cannot exceed 31.28 cfs. Ted is wondering why.

#2 – The condition limiting the water rights when combined show 02-2027, 306, 2420 & 359 – problem is that 02-2027 has been split for sometime into 02-2027KA & B – Ted wonders which one to sue. use.

#3 – There is a typo of acres in one of these rights.

#4 – United Water – Need to look at Carter's language in the City of Caldwell to see if we want to incorporate the same point of diversion language in these. Also, the one water right that is supposed to have 30+ points of diversion only lists 1 point. Need to fix and send in as an SF5.

#5 – The remark concerning the priority of the original point of diversion under those rights has the wrong legal description on it. 3 of them.

#6 cannot remember. Will try tomorrow.

Lexington Hills vs HOA – If the developers put in a meas. Device, then possibly the HOA will not object to their transfer when they go to sell the rights they retained. This is why they have asked for an extension of time to file a motion to alter or amend the trial's decision.

Craig Whitted – Will be doing a mediation meeting with a Judge in Boise to try and mediate out of the attorney fees where if Craig agrees to give an easement to Smith, then Smith will not collect the attorney fees ordered now. They have filed a motion to alter or amend.

AND 63-2420 IN THE NAME OF REYNOLDS)
IRRIGATION DISTRICT)

ORDER

WHEREAS, on February 21, 1984, Reynolds Irrigation District filed an Application for Transfer with the Department of Water Resources to add a point of injection into the Snake River and to add a point of rediversion from the Snake River to the above referenced water rights; and,

WHEREAS, the summation of the diversion rates of these three water rights, is 57.56 cubic feet per second; and,

WHEREAS, water diverted under the three water rights has, since their development, been carried across the Snake River by a common pipeline; and,

WHEREAS, the capacity of that pipeline was measured by the Department to be 31.28 cubic feet per second on August 3, 1982; and,

WHEREAS, the total actual development of these three water rights is limited to the capacity of the pipeline; and,

WHEREAS, the transfer will meet the requirements of Section 42-222, Idaho Code if the rediversion rate is limited to the pipeline capacity;

IT IS, THEREFORE, HEREBY ORDERED, that the application for transfer of water right numbers 63-0306, 63-0359 and 63-2420 is APPROVED subject to the following conditions:

1. The rate of rediversion shall not at any time exceed the rate of injection.

2. The rate of rediversion shall be limited to a maximum of 31.28 cubic feet per second.

3. Measuring devices of a type approved by the Department shall be installed and maintained at the points of diversion, injection and rediversion. These measuring devices

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information

- a. Amount of water to be diverted 57.56 c.f.s. &/or _____ acre feet

Description of diverting works:

Headgates and ditches will still divert and carry well, drain ditch and Warm Springs Creek water, but will dump this water into the Snake River on the Canyon County side. The District will then use it's Snake River pumping plant located on the Owyhee County side to divert a like amount of water into it's irrigation system.

Describe the reasons for the proposed changes:

By dumping water and pumping, the District will eliminate a pipeline across the Snake River and thus reduce maintenance costs. The pipeline has a capacity of approximately 34 cfs; the Snake River pumping plant will also pump only the 34 cfs that could be delivered by the pipeline.

2. Change in point of diversion

Re: Reynolds Irrigation District Claim Nos. 63-306, 63-359 and 63-2420

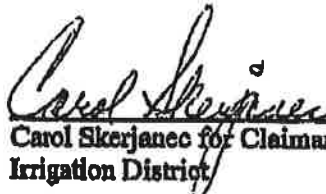

Dear Mr. Spencer and Special Master Booth:

The Claimant of the water rights identified by the numbers listed above, Reynolds Irrigation District, the Objectors, Boise-Kuna Irrigation District and participants, the Bureau of Reclamation, have agreed to the resolve the objections of BKID by the inclusion of the following remark in the partial decrees issued for water right nos. 63-306, 63-359 and 63-2420:

"The source of this right lies within the boundaries of the Boise-Kuna Irrigation District. To the extent any waste waters of the Boise-Kuna Irrigation District enter the irrigation system of the Reynolds Irrigation District, the continued provision of those waste waters may be discontinued at any time."

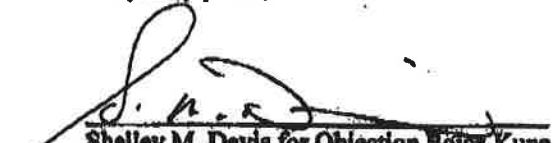

The Claimant, Objector and Participant request that the Department prepare a Standard Form 5 encompassing the agreement of the parties and circulate it among the parties for signature. The Claimant, Objector and Participant agree by their signatures in this letter, that the inclusion of the remark set forth above in the final partial decree will resolve this matter, and furthermore, request that the court vacate the status conference currently set for December 9, 2008. Thank you for your assistance in this matter.

Claim No(s)/Irrigation Company or District: Reynolds Irr. District

Contact: Jerry Hoagland

Details:

Jerry contacted me in response to the Basin 63 mailing. He has been working with Don Shaff on the district's 02 rights including 02-2027. He has completed maps with Don and those maps should also be used for the 63 rights. I will follow up with Don to obtain the current shapes. I told Jerry that we would contact him to make a Feb. appointment to discuss his 63 rights. Also, Jerry confirmed that PO Box 12 is the correct address for the Reynolds Irr. District.

Dear Sir or Madam:

The Idaho Department of Water Resources (IDWR) is in the process of reviewing the claims of water right from the Boise River in the Snake River Basin Adjudication (SRBA). Your organization currently has a claim with the source of the Boise River in the SRBA. Water rights are established and maintained by beneficial use of water for the uses designated on the claim form dating back to the priority date listed.

Recently, we have not received input from your organization regarding the company service area and acres irrigated. Without further input, IDWR will use the information provided in the claim and other sources of information to derive a service area and irrigated acres as proof of beneficial use to include in the Preliminary Director's Report. Your organization will have the opportunity to submit corrections to the Preliminary Director's Report during the Notice of Error period but IDWR would like to further extend to you the opportunity to make corrections at this time.

Your organization had the opportunity to obtain preliminary maps of the derived service area and irrigated acres on January 13, 2004 and July 20, 2005. Please call or write me at the address below if you need additional maps, if the map needs to be expanded to include areas not shown but served by your organization, or to schedule an appointment to review your maps and claims. Any additional information regarding your claims must be received as soon as possible to limit errors in the Preliminary Director's Report.

Please note that a Claim to a Water Right is not a determination of your water right. The claim(s) referred to in this letter have not been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified, and recommended to the SRBA Court for court decree sometime in the near future.

Thank you for your time.

Sincerely,

ORDER

WHEREAS, on February 21, 1984, Reynolds Irrigation District filed an Application for Transfer with the Department of Water Resources to add a point of injection into the Snake River and to add a point of rediversion from the Snake River to the above referenced water rights; and,

WHEREAS, the summation of the diversion rates of these three water rights, is 57.56 cubic feet per second; and,

WHEREAS, water diverted under the three water rights has, since their development, been carried across the Snake River by a common pipeline; and,

WHEREAS, the capacity of that pipeline was measured by the Department to be 31.28 cubic feet per second on August 3, 1982; and,

WHEREAS, the total actual development of these three water rights is limited to the capacity of the pipeline; and,

WHEREAS, the transfer will meet the requirements of Section 42-222, Idaho Code if the rediversion rate is limited to the pipeline capacity;

IT IS, THEREFORE, HEREBY ORDERED, that the application for transfer of water right numbers 63-0306, 63-0359 and 63-2420 is APPROVED subject to the following conditions:

1. The rate of rediversion shall not at any time exceed the rate of injection.

2. The rate of rediversion shall be limited to a maximum of 31.28 cubic feet per second.

3. Measuring devices of a type approved by the Department shall be installed and maintained at the points of diversion, injection and rediversion. These measuring devices

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information

a. Amount of water to be diverted 57.56 c.f.s. &/or _____ acre feet

Description of diverting works:

Headgates and ditches will still divert and carry well, drain ditch and Warm Springs Creek water, but will dump this water into the Snake River on the Canyon County side. The District will then use it's Snake River pumping plant located on the Owyhee County side to divert a like amount of water into it's irrigation system.

Describe the reasons for the proposed changes:

By dumping water and pumping, the District will eliminate a pipeline across the Snake River and thus reduce maintenance costs. The pipeline has a capacity of approximately 34 cfs; the Snake River pumping plant will also pump only the 34 cfs that could be delivered by the pipeline.

2. Change in point of diversion

Point of diversion NW 1/4 NW 1/4, Section 10 Township 1S

Range 2W, B.M., Canyon County

Additional points SWSE, SESE Sec 3 and SWNE, NENE Sec 9 T1S R2W

Snake River Diversion Lot 5 (NENW) Sec 17 T1S R2W

3. Change in place of use no change

a. Are there liens, mortgages, or contracts on the lands from which you propose to transfer the water right which limit your authority to make the proposed change? Yes _____ No x _____. If yes, provide a statement agreeing to the proposed change from the holder of the lien, mortgage or contract.

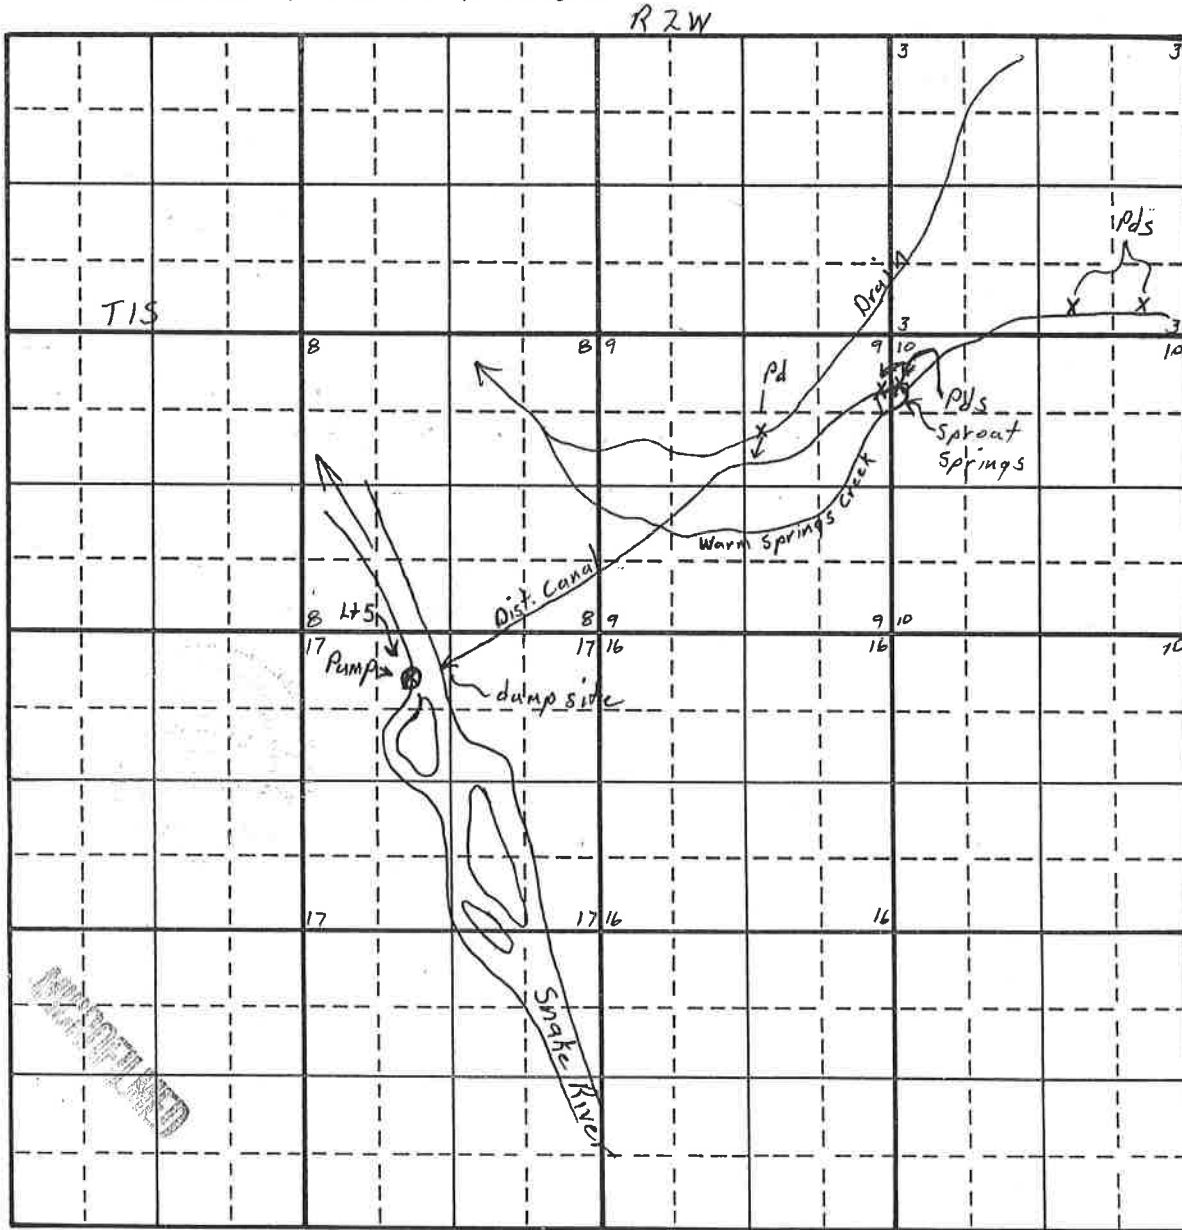

b. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer

c. Describe the land and place of use to which the right will be transferred:

Total number of acres to be irrigated _____

4. Describe any other water rights used for the same purpose as described above. 02-2027B,
02-0054
5. Draw a map indicating the new point(s) of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township and range number.

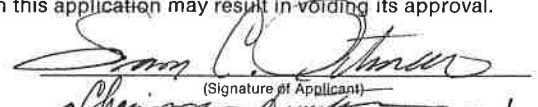

SCALE: 2 inches equal 1 mile. Draw plan in ink.

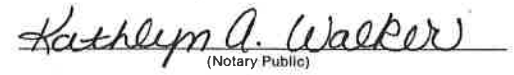

D. REMARKS

Thereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

STANDARD FORM 5

**STIPULATED ELEMENTS OF A
WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

The use of water for irrigation under this right may begin as early as March 1 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before April 1 and after November 1 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

PLACE OF USE:

1388 ACRES TOTAL

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

This right when combined with Right Nos. 02-2027, 63-359, and 63-2420 can be used to irrigate up to 1388 acres within the boundary of the Reynolds Irrigation District.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

Measuring devices of a type approved by the dept. shall be installed & maintained at the pts. of div., rediversion & injection. These measuring devices shall be accessible & subject to control by the dept., watermaster of Water Dist. 63T & watermaster of Water District 02 at such time as such District may be formed.

A handwritten signature in black ink, consisting of a large, stylized capital 'J' followed by a smaller, cursive flourish.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Mark :

Here is The revised map of Reynolds Irrigation District. The Black line indicates current Boundrys according To The District Roll Book. I believe Those lands That are outside The District were Reported To IDWR by memory + not fact.

There are no lands in sec 1 153W. Only lots 7, 11, + 8 in sec 6 152W are in District. Only SE SW Lot # ? in sec 17 is included in District. And in sec 20 152W Lot # ? (NW NE) and Lot # ? (SW NE) are still in District, but water Transferred to other lands within District. I can't find a legal for That parcel North of Highway 78 in NW NE sec 29 152W. Some of Those Parcels were excluded from District in 1940's. Then ~~they~~ some were petitioned in again in 1970's. We have tried to get Patrons To petition lands irrigated by RID outside District into District. Maybe a threat of loss of water will encourage Them.
