Portneuf water is diverted below check dam in the river & flows through Crandall Farms and enters Archers property on the north property line. There is a marsh area between Crandall's and Archers property.

The Portneuf water flows into 24-mi Creek Chanell on Archer's property. The chanell conveys the water to Archer's pond.

Before the water flows into the pond Eighteen Mile Creek flows into 24-mi Crk. and then runs into the Portneuf River.

I found no evidence that Toponce water gets to the Archer's Property. Frank feels that he gets his Toponce water through the Portneuf River. Because Toponce water runs into Portneuf River above the check dam. I couldn't verify that.
