HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

AFFIDAVIT

State of Idaho) CC.

County of Canyon)

J. M. Langford being first duly sworn, upon his oath deposes and says: That affiant is the duly elected, qualified and acting Secretary of the Canyon County Water Company, organized and existing under and by virtue of the laws of the State of Idaho, as a co-operative irrigation corporation, and affiant makes this affidavit for and on behalf of said corporation.

That the said corporation, Canyon County Water Company, is the owner of a decreed water right appurtenant to the following described lands, to-wit:

A strip of land lying between the East line of Canyon County and the Boise River at Caldwell, Idaho, on the North side along and bordering upon the said Boise River, and lying South of and under the canal system of said Canyon County Water Company, as evidenced by the decree dated the 18th day of January, in the cause entitled Farmer's Co-operative Ditch Co. vs. Riverside Irrigation District, Limited, and others, defendants, brought in the District Court of the then Third, now Seventh, Judicial District of the State of Idaho, in and for Canyon County.

That said corporation, Canyon County Water Company, intends to change the point of diversion, as described in said Decree to the following described point: A point on the North bank of said Boise River Six Hundred Ten feet East from the North end of what is commonly known as the Star Bridge, the said point being located ~~six hundred ten feet~~ approximately 900 feet South ~~from the~~ and 900 feet East from the North-west corner of the South-west quarter of the Section 17 in Township 4 North, of Range 1 West from the Boise Meridian, in Ada County, Idaho.

That such change will be made for the following reasons, to-wit:

For the purpose of securing a better heading on the River, where the water can be diverted with less danger and risk of both life and property.

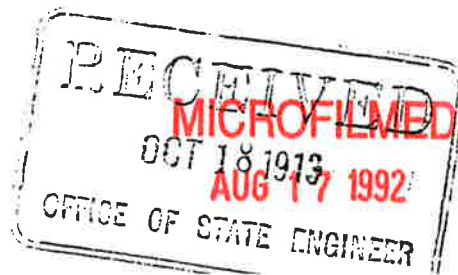

That no one will be injured by such change and that ~~the~~ the said corporation Canyon County Water Company, will make such change at its own risk and expense.

in the cause entitled Farmers' Co-Operative Ditch Co., Plaintiff,
vs. Riverside Irrigation District, Limited, et al.,, Defendant, brought
in the district court of theSeventh..... Judicial District of the State of Idaho, ~~xx~~ in and
for Canyon County.

That ~~it~~ ^{it} intends to change the point of diversion, as described in said decree or permit, to the following described point: The present point of diversion of the Middleton Mill Ditch Company in the Northeast quarter of the Northwest quarter (NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 17, Township 4 North, Range 1 West, B.M., Ada County, Idaho.

That such change will be made for the following reasons, to-wit: Certain lands, to-wit, 7½ acres on south side of SE¼SE¼ of Section 6, belonging to Alonzo Wiseman, about 30 acres in SW¼SW¼, Section 5, belonging to Mrs. S. S. Foote, and about 18 acres in N¼NE¼NE¼, of Section 7, all in Township 4 North, Range 2-West, E.M., cannot be satisfactorily irrigated from the canal of the Canyon County Water Co., Ltd., because of lack of proper fall between said canal and the place of use, which causes water to back up and form a pond in the canal of said company. That, therefore, arrangements have been made between this company and the Middleton Mill Ditch Company whereby this company transfers to the Middleton Mill Ditch Company ~~XXXXXX~~ 55½ inches of its said decreed water-right, and said Middleton Mill Ditch Company will divert said water at its said headgate and will issue its own stock to said water users.

That no one will be injured by such change and that deponent will make such change at his own risk.

Dr. Tressie Hollister & Pacific Hypotheekbank being first duly sworn, upon his oath deposes and says:

That he is the owner of a decreed water right appurtenant to the following described land to-wit:
The South twenty five (25) acres of the N.E. 1/4 of the N.W. 1/4 of Sec. 9, Twp. 4 N. of R. 2 W. B.M.

as evidenced by the decree dated 15th day of January 1905 in the cause entitled Farmers' Cooperative Ditch Company, Plaintiff, vs. Riverside Irrigation District, Ltd. et al., Defendant, brought in the district court of the 7th Judicial District of the State of Idaho, in Canyon County

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho No.

That he intends to change the point of diversion, as described in said decree or permit, to the following described point:

Canyon County Water Company's Headrig at both end of Star Bridge in S.W. 1/4 of SW 1/4 of Sec. 12 Twp. 4 N R. 1 W. B.M. in Ada County and at a point 2 1/2 rods east of the N.W. corner of the SW 1/4 of the SW 1/4 of said Sec. 17

That such change will be made for the following reasons, to-wit: this land can be irrigated
at much ^{greater} convenience and at much less cost, owing to ditch banks not having to be raised so high.
This land has already been irrigated by water from the Canyon County Water Company's canal during much of the time for several years and the Canyon County Water Company has
desired no compensation nor assessments for such accommodation and service. The
difficulty of irrigating this land at present from the Middle River Water Company
would amount to a hardship. The amount of decreed water which defendant desires
to transfer and take through the proposed new point of diversion as described above
is twenty five (25) inches.

That no one will be injured by such change and that deponent will make such change at his own risk.

Affiant's water ^{is} for the purpose of irrigating the following described land, situate, ~~lying~~ ^{and being in} Water Dist. No. 20, in the County of Canyon, and State of Idaho, to-wit: East 10 acres of that portion lying East of Idaho Northern Railroad and North of old Interurban right of way in the NE 1/4 of the NE 1/4 of Sec. 7 Twp. 4 N. of Range 2 W. B.M. East of Rail Road Station. That ~~she~~ ^{she} is the person (or representative of the corporation) to whom such right was issued, (or has become the owner thereof in the following manner: By purchase from J. S. Waters and Emma Waters, predecessors in interest R. H. Rutledge owner in 1906, date of Stewart Decree). That said waters are now diverted from said stream in the NE 1/4 NW 1/4 of Sec. 12, Twp. 4 N., Range 1 W., and conducted to the above described lands through the Middleton Mill ditch, as per map filed herewith and of this affidavit made a part;

That affiant desires to change the point of diversion of said water from the point above described to a point located in NE 1/4 of SW 1/4, Sec. 12, Twp. 4 N., Range 1 W., and thereafter conduct same to the above described land through the Canyon County Water Company ditch, or canal as per map above referred to: The aforesaid point of diversion is abt. 30 feet West of the North end of Boise River bridge, South of Star, and located in what is known as Dickson's Sub-Division.

That ~~her~~ ^{her} reasons for desiring to make such change are as follows: The proposed change offers a much more convenient and less expensive ditch leading to the point of application. One feature of the proposed change does away with the need of a private flume nearly one hundred feet in length on land adjoining her. That no one will be injured by such change and that such change will be made at affiant's own risk.

NOTE:—If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit. Affiant asks a transfer of only a part of her water right. She abandons no ditches in which her water has hitherto been carried jointly with other water users. The balance of her water will be carried in the same joint ditch or ditches as heretofore. Affiant asks a transfer of ten inches, an amount much too small to be definitely measured by the Boise River Watermaster. Therefore the proposed transfer cannot materially prejudice the interests of other water users in so far as the amount of water is concerned.

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION	03/01 11/15	0.410 CFS
Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoir dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.		

PLACE OF USE:

9404 ACRES TOTAL

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

THIS RIGHT IS LIMITED TO THE IRRIGATION OF 9404 ACRES WITHIN THE BOUNDARY OF THE MIDDLETON MILL DITCH COMPANY AND THE MIDDLETON IRRIGATION ASSOCIATION.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

Total acres authorized for irrigation under Rights 63-124N, 63-125G, 63-126E, 63-161X, 63-168B, 63-168D, 63-173, 63-198AC, 63-254, 63-255 and 63-370 are reduced by 16.0 acres per approval of Transfer 70947 to a total of 9404 acres based on the acres claimed under these rights in the Snake River Basin Adjudication.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 63-168D

NAME AND ADDRESS: MIDDLETON MILL DITCH CO
23107 HARTLEY LN
MIDDLETON ID 83644

SOURCE: BOISE RIVER

TRIBUTARY: SNAKE RIVER

QUANTITY: 0.410 CFS

This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and preceding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and preceding to the earliest, shall be reduced to 60 percent of their decreed quantities.

PRIORITY DATE: 06/01/1867

POINT OF DIVERSION:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION	03/01 11/15	0.410 CFS
Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoir dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.		

PLACE OF USE:

9420 ACRES TOTAL

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

THIS RIGHT IS LIMITED TO THE IRRIGATION OF 9420 ACRES WITHIN THE BOUNDARY OF THE MIDDLETON MILL DITCH COMPANY AND THE MIDDLETON IRRIGATION ASSOCIATION.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Re: Middleton Mill Ditch Company and Middleton
Irrigation Association/Snake River Basin
Adjudication

Dear Jan:

Pursuant to our conversation on March 12, 2003, this letter is to notify you that I am representing Middleton Mill Ditch Company and Middleton Irrigation Association in the Snake River Basin Adjudication. Please take whatever actions are necessary so the Department's records reflect this fact.

If you have any questions regarding this matter, please feel free to contact me.

Sincerely,

Jerry A. Kiser

Dear Mr. Rosti:

The soils information requested regarding water holding capacities of various soils within the Middleton Irrigation Association is as follows:

67.8% are silt loam soils and have a water holding capacity of approximately 2.1 inches per foot;

32.2% are sandy to gravelly loam soils, and have a water holding capacity of approximately 1.5 inches per foot.

Irrigation water allotment for typical silt loam soils is 1.0 inches per acre.

It would be a safe assumption that the sandy, gravelly soils within the Middleton irrigation Association lands would require more frequent irrigation because of the lower water holding capacity. It would further appear that the 1.0 inches per acre allotment for silt loam soils would be insufficient for the sandy, gravelly soils. The irrigation water deficit is approximately 28% on the sandy, gravelly soils which make up 32.2% of the lands in your irrigation project area.

If you need further information please give us a call.
