Subject: Water Right Claim 87-11110
Attachments: WilliamsWellReport.pdf; DraftClaimMap87-11110.pdf; DRAFTNoticeOfClaim87-11110.pdf

Hello, I am processing your water right claim for domestic use. I have attached several documents, including what I believe to be your well log showing the well as completed in 2001. I have also included a draft claim map.

In the DraftClaimMap87-11110.pdf document I highlighted changes we need to have addressed before we continue. The claim form submitted on June 11, 2019, did not include a priority date. According to the Latah County parcel data the year built for the house is 1951. Unless you can show earlier use this is an acceptable priority date.

The Claim you submitted showed the Total Quantity Claimed (question #7) as 13000 cfs. The typical rate for de minimis domestic use (\$25 Claim) is 0.04 cubic feet per second. In the attached document I changed the rate to 0.04 cfs.

If you agree with the change to 0.04 cfs, please include a priority date (question #2). You can sign the updated Claim form and return it to me. Please let me know if you have any questions.
