*Aesthetic use is incidental to the irrigation and cannot be allowed without expansion of the right. Water that flows past the Meeves uses is used by South Boise Water, who claimed 1.06 cfs of the original 1.8 cfs decreed in 63-185. Meadows Water Users amended their original claim to allow SBWC the right to claim the 1.06 cfs. Meeves relies on SBWC for delivery of their water.

REMARKS

The 1906 decree for the Meeves right located its point of diversion from the Boise River within the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24, T. 3N, R. 2E. During the course of time, the diversion point for the Meeves Ditch was changed from that point to a waste ditch which collected seepage from the river along with irrigation wastewater. This change was not recorded with the Department. The waste ditch originated and flowed through the N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 24 and discharged into the river near the decreed point of diversion for the Meeves Ditch. The Meeves Ditch diverted from the waste ditch and then followed its original alignment across Apple St. and west down E. Pennsylvania St. to irrigate lands in the area. When water delivery was not needed, the Meeves Ditch was shut off at the headgate in the SE $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 24, where it then dumped into Loggers Creek. In 1968, a transfer was approved which authorized an alternate point of diversion for the Meeves right. Since that date the Meeves Ditch has been known as the Meeves No. 1 Ditch; the alternate point is associated with the Meeves No. 2 Ditch.

The change described in this application, which has already occurred, involves eliminating the Meeves No. 1 Ditch from where it diverts from the waste ditch through Sec. 24 to allow for new housing developments. The Meeves waterusers will now receive their water through the Loggers Creek diversion from the Boise River, then through the Rossi Mill ditch where a pump has been installed in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec 23, to redirect for irrigation at the point of use.

The Meeves No. 2 ditch, which uses an alternate point of diversion for the Meeves right approved in 1968 (transfer No. 305) uses the Loggers Creek diversion from the Boise River, with a re-diversion point out of Loggers Creek in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 24. The Meeves No. 2 ditch point of diversion from the river also changed when the Loggers Creek diversion was changed years ago. This also was not recorded with the Department. Since its present legal description is still in the same $\frac{1}{4}$, this change is not readily seen. The Meeves No. 2 ditch will not be changed by this application.

to
Application for Transfer of Water Right No. 63-0185

In 1968 the Department approved Transfer No. 305, which authorized the diversion of the Meeves right at an alternative point located on the north bank of Loggers Creek in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 24, T3N R2E, B.M. The ditch supplied at this alternate point is known as the Meeves No. 2 Ditch. A copy of the approved transfer is attached hereto as Attachment C-1. The present application does not affect the Meeves No. 2 Ditch, and it will be maintained as an alternate point of diversion for the Meeves right.

NOTE - This transfer was adding a re-diversion point for the Meeves No. 2 from Loggers Creek.

The lands irrigated by the Meeves right will not be changed as a result of this application. The point at which the water will be pumped from the Ridenbaugh-Rossi Mill Ditch is on lands owned by Barbara Little, the representative of the Meeves Water Users Association who is executing this Application.

ATTACHMENT A
to
Application for Transfer of Water Right No. 63-0185

The reasons for the proposed change are to eliminate approximately 5,600 feet of the Meeves No. 1 Ditch (the "upper portion") from its decreed point of diversion to the point where it begins delivering water to users at a junction box located immediately west of Parkcenter Boulevard in the NE $\frac{1}{4}$ of Section 23, T3N, R2E, B.M., and to relocate the Meeves No. 1 point of diversion to the point of diversion for the Ridenbaugh-Rossi Mill Ditch on the south bank of the Boise River, NE $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 24, T3N, R2E, B.M. The purposes for this transfer are: 1) to accommodate land development proposed to occur on the lands through which the upper portion of the Meeves No. 1 Ditch passes; 2) to provide a more efficient means of supplying water under the Meeves right; and 3) to avoid potential conflicts with present and future landowners in the area where the upper portion of the Meeves No. 1 Ditch is located.

I marked up the infrared map. Also included a couple other maps with the same information that we drew up on a CAD system.

If you are interested in the CAD file, if it would save you some time, we can send an electronic copy of the map to your department. Please let me know if you would like the CAD file and who to email it to (or we can drop off a disk).

MEEVES WATER USERS ASSOCIATION

ADDITIONAL INFORMATION

DATE: AUGUST 16, 2004

BY: MEL SCHULTE

The main contact for Meeves Water Users is Gary Chadwick, president, (385-0943 = H 368-2211 = W).

There are no issues associated with Meeves Water Users claims. They have seven users, five of which are currently active.

Approved transfer 3375 established the place of use of 36.8 acres in Southeast Boise. Water is delivered through the South Boise Water Company system and any water not used by Meeves users have historically been used by South Boise Water's shareholders. South Boise Water has claimed the remainder of the right under an agreement with Meeves Water Users.

The POD's for Meeves was established in the review process for South Boise Water by use of GPS.
