HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Irrigation purposes from 3/15 to 11/15 amount .44 or .87

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) .44 (cfs) and/or (b) .87 (acre feet)

8. Total consumptive use claimed is ~~.87~~ 4.2 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) _____

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4

Last Name Thurman Mill Ditch Co Ident No. _____

Copies: White -State, Yellow-Claimant

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 63-193

NAME AND ADDRESS: THURMAN MILL DITCH CO LTD
10611 W TREELINE CT
BOISE ID 83713

SOURCE: BOISE RIVER

TRIBUTARY: SNAKE RIVER

QUANTITY: 0.440 CFS

This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and preceding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and preceding to the earliest, shall be reduced to 60 percent of their decreed quantities.

PRIORITY DATE: 06/01/1876

POINT OF DIVERSION:
T03N R02E S5 NESE Lot 11 Within ADA County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION	03/01 11/15	0.440 CFS
Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoir dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.		

PLACE OF USE:

1782 ACRES TOTAL

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

THIS RIGHT IS LIMITED TO THE IRRIGATION OF 1782 ACRES WITHIN THE BOUNDARY OF THE THURMAN MILL DITCH COMPANY

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

DESIGNATED AS NO 62 IN THE STEWART DECREE AND THE BOISE RIVER WATER MASTERS RECORDS

WATER IS DELIVERED THROUGH THE THURMAN MILL CANAL

THE FOLLOWING RIGHTS ARE ALSO DIVERTED THROUGH POINT OF DIVERSION DESCRIBED ABOVE: 63-176, 63-135, 63-210, 63-211, 63-221, 63-250, 63-31936, 63-30125, 63-30129, 63-30130, 63-30131, 63-192, 63-19425, 63-216C

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: June 24, 2005

Water Right Number: 63-193

THURMAN MILL DITCH CO LTD
10611 W TREELINE CT
BOISE, ID 83713
Telephone Number: (208)376-3769

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):
Place of use:
1373.6 ACRES TOTAL
2. Describe the changes you wish to make in the proposed recommendation:
Place of Use: 1782 ACRES TOTAL
3. Give a brief explanation as to why you disagree with these portions:
Based on an application of one inch to the acre, the total irrigated acres for any given season should be 1782.

_____ I AGREE with this proposed recommendation; no changes need to be made.

DATE: 6/22/05

Re: Thurman Mill Ditch Company, Ltd

Gentlemen:

I enclose eleven Notices of Claim to a Water Right based upon the Stewart Decree and a Notice of Claim to a Water Right based on the Hartson Decree.

After removing subdivided properties from the acreage within its original delivery system, the Thurman ascertained that there were 1,575 irrigable acres. Thus, I enclose the Thurmans check in the amount of \$1,625.00.

Very truly yours,

Elbert E. Gass

THURMAN MILL DITCH COMPANY

ADDITIONAL INFORMATION

DATE: JUNE 8, 2005

BY: Mel Schulte

The main contacts for Thurman Mill Ditch Company are Bart DeChambeau, President, and his wife Bonnie, Secretary (376-3769). They became officers mid-way through the claim review process. I met with them personally to explain the importance of the boundary/place of use map and requested they provide us with the number of shares in the company's records. I made several telephone requests for a boundary/place of use map that had been reviewed by the company and the shareholder information previously requested. The amended map was not provided until the notice of error period and we still have not received the shareholder information.

The place of use for Thurman Mill is made up mostly of land in the heart of Garden City that has experienced a great deal of change through the years from irrigated farms to residential, commercial and light industrial uses. A lot of the irrigated land is composed of small lawn and garden areas that are very difficult to estimate the acres irrigated. It was my intention to use the shareholder information and digitized information to cover the company's decreed rights but without cooperation from the company it is not possible to use this approach.

Another problem associated with Thurman Mill is the fact their ditch system carries not only their own water, but also the rights owned by Warm Springs Ditch Company and Drainage District No. 4. After the water is co-mingled it is impossible to know whose water is delivered to which entities users. It appears their delivery ditch is inadequate to carry all of the decreed and other water allocated to it in any one single diversion. Also, the volume of water diverted into the Thurman Mill canal has decreased through the years.

The Thurman Mill delivery system is made up of numerous smaller laterals and ditches in addition to the main canal. The main canal is approximately 9-10 miles long and the amount of water required as carry water in order to push water from the river diversion to the end could be substantial.

The acreage limitation of 1782 acres is based on one acre per inch of decreed water as we have used in other recommendations. The number of digitized acres for larger parcels within the boundary is 1271.1 acres but this number does not include all of the smaller uses and subdivisions.

There may be an overlap of boundaries between Thurman Mill and Fairview Acres Water Users west of Veterans Parkway. This determination cannot be made until Thurman Mill provides us with a boundary map.

63-19084 was disallowed in favor of Drainage District No 4's claim for the same right. Ringert & Clark represents both DD #4 and Thurman Mill and attorney Bryce Farris has discussed this matter with both organizations.

The diversion rate for 63-30131 was increased from 5.6 cfs to 6.0 cfs because 63-214B right was understated in the water master's records. It is described as having a rate of 2.60 cfs and should be 3.0 cfs. Copies of the water right records are in the file.

The recommendations for Thurman Mill are open for scrutiny.

[illegible]

This is a historical map of a rural area, likely in the United States, showing land parcels and a network of ditches. A large, irregularly shaped area is highlighted with green diagonal hatching, representing the 'Stewart Decree acres'. The map is divided into sections by a grid of lines, with some sections labeled with numbers (20, 29, 32) and others with township and range coordinates (T4N, R2E; T3N, R2E). The background of the map is a light yellowish-brown, with various shades of orange and brown indicating different land uses or topographical features. The hatched area starts in the upper left and extends towards the lower right, following a path that likely corresponds to the Thurman Mill Ditch.

Thurman Mill Ditch Co
Stewart Decree acres = 1810

This is a topographic map of a rural area, likely in the western United States, showing a network of ditches and a winding river. A large, irregularly shaped area is highlighted with yellow diagonal hatching, representing the Stewart Decree acres. The map includes a grid of section lines and various elevation contours. The text 'Thurman Mill Ditch Co' and 'Stewart Decree acres = 1810' is overlaid on the map. Section numbers 20, 29, and 32 are visible on the right side. Township and Range coordinates 'T4N, R2E' and 'T3N, R2E' are also indicated.
