When I was small I can remember going with my Dad To get supplies for Building the stock pond. This has 1 springs that feeds it and has water year around in it. When I was young I can remember the watering Troughs and the water running Thru a pipe that was in the pond. It had a shut off when not in use. This had to be established sometime between 1948 To 1952 or 1953 To the best of my Knowledge
