COMMUNICATION DOCUMENTATION

Claim No. A63-03357 & A63-03318_

IDWR Employee/Agent Mel Schulte *MTS. 11-7-95*

Deanna Boehlke-Ratcliff called on 11/7/1995 in response to my letter dated 10/30/1995 and provided the following information:

A63-03357

She was surprised the 22 acres Southeast of the irrigation ditch was not part of the water right. She thinks it has been irrigated for as long as the fields on the North side of the ditch. We speculate that her first husband, Harold Boehlke, who is now deceased, just forgot to include the 22 acres in the original application. She wants to file the necessary forms to have a water right for this land.

I informed Mrs Boehlke I would prepare and mail her an expansion claim for her to sign and return. I informed her of the fee to file and also let her know that she could also file an application for permit. She wants to file only the SRBA claim at this time with the hope that she can obtain the earlier priority date possible through the claim filing.

A63-03318

I discussed with Mrs Boehlke the 27 acres licensed in the NWSE, S17 that are part of this claim. The 1987 ASCS aerial map indicates there are only 10 acres and the 10 acres may not be irrigated. She informed me that they have not irrigated this parcel since the Birds of Prey area was established. She said this is BLM ground that they used to lease. They included it in their original application because they were told they would be able to purchase it. However, when the Birds of Prey area was designated for special classification, the BLM would not sell any land within the designated area. I informed Mrs Boehlke that based on this information I would recommend the 27 acres be deleted from the water right. She indicated she understood why this was necessary but hoped the water would be available to use on the 22 acres Southeast of the irrigation ditch. ✓ *DM*

NOTES:

All map sources indicate the NWSE, S17 has not been irrigated. In a telephone conversation 11-7-95 with the claimant, she indicated this parcel has not been irrigated since the Birds of Prey area was classified by the BLM. This parcel is BLM ground previously leased by the claimant and her deceased husband. It was included in their permit application because they intended to obtain it from the BLM. In a call to the state BLM office, Boise I was informed the Birds of Prey area was classified as of 11-26-1980

RE: Notice of Change of Water Right Ownership Claim No. A63-03318, A63-03357,
63-16205 & A63-30290

Dear Property Owners:

This office has reviewed the Notice of Change of Water Right Ownership you have submitted (enclosed), however, we are unable to complete this ownership change due to the fact there is no record of the property being transferred from the original owners, Deanna Boehlke-Ratcliff and James Boehlke, to yourselves. The Deed submitted indicates the property being transferred from Transmutation Properties Inc to you.

If you could submit a copy of the Warranty Deed(s) for this property transfer, showing the **chain of title** from the original owners to yourselves, **or a tax notice in your name**, which includes a description of the property by ¼ ¼, Section, Township and Range, then we could complete the ownership change.

Thank you for your patience and cooperation, as we have had several ownership changes to process. Please feel free to contact this office if you have any questions concerning this letter.

Sincerely,

Re: Claim A63-03357

Dear Claimant:

I'm currently reviewing the water right claim referenced above that you filed in the Snake River Basin Adjudication. Part of that review involves comparing the acres claimed for the water right with several kinds of maps to see if there have been any changes since the water right was originally issued. During this part of the review I found approximately 22 acres on the South side of an irrigation ditch that do not appear to be covered by a water right.

Our records indicate the 22 acres mentioned above were probably being irrigated when the field examination was conducted for the water right in April 1968 but the paper work necessary to cover them with a water right were never filed. If this is true, the option is still available to you to file a claim in the Snake River Basin Adjudication that will correct this oversight. Enclosed is a copy of an ASCS aerial map that shows the place of use covered by water right 63-03357 and the 22 acres in question.

I would like to discuss this matter with you in more detail in person. Please call me at the number below so that we can schedule an appointment either in my office or at your place.

Sincerely,

Mel Schulte
