13. Remarks (Include an explanation of the priority date selected):

The Skattaboe's homesteaded this site in the late 1800s. Their house burned and a new house (ours) was constructed in 1914. We assume a well was built at that time. We have a photo, ca. 1924 showing a windmill in the general vicinity of the current well, south of the house.

The current well is in a concrete lined pit, 8 feet deep. TPM Water Systems of Lewiston has records showing an existing well in the 1980s and have since replaced a pump for us. Their records show a depth of 60 feet.

Sometime the farm changed hands and was owned by the Thompsons. Oral history tells us that the farmhouse was used as a rental for farm hands up until about 1980 when Thompsons sold the house and grounds.

In 1992 the site was platted as Indian Hills 4th addition, block 1 lot 4. We purchased the property in July 1993. At the time of purchase, the well was the only water supply. We connected the house to city water because of nitrates, the well remains for irrigation of 1.5 acres of lawn and gardens.
