Claimants of Decreed Right 29-00443 (split portions: B/G/I/K/L/M/N/P/Q/29-13136)

Re: Request for proof of water right ownership

Dear Claimant:

In reference to the above described water right there have been several claims to portions thereof. At this point the water right for use of Pocatello Creek water for irrigation purposes is over-claimed. To conduct an investigation and recommendation of the portions claimed, proof of water right ownership is required.

Please provide a copy of your deed or conveyance instrument to this office by November 8, 2001. **If such proof is not presented a disallowed recommendation could result.**

Thank you for your attention in this important matter. I look forward to your timely response. Please feel free to contact me at the above address/phone number.

Respectfully submitted,

Craig L. Saxton

Split History According to deeds for 29-00443

SCANLINE
NOV 09 2005

ROLLED

Memorandum

Date: December 3, 2001

From: Craig L. Saxton

Subject: Split history of 29-00443

Acreage Issue:

In the 60's and 70's the Anderson family started selling off property that was originally covered by an 1887 Tanny right. When the Andersons started selling off the property under the Tanny right they deeded ½ inch of water to 5-acre tracks they were selling. According to Dwain Anderson, the intention was to move the 1887 Tanny right and start using it on the Hopper ground to the West of the original POU.

Within the original Tanny POU, I estimated 49 irrigatable acres.

1972 aerial photography shows the Andersons irrigating a 14.6-acre field.

In 1988 Anderson sold a major portion of the irrigated land to Skoog. This note is important because 2 to 3 years before this sale, the Andersons stopped irrigating a field high on the bench and started irrigating down lower around the current POU. 1985 USGS Orthoquad maps indicated irrigation at that time.

Note: The property that was owned by Skoog was still irrigated from the old ditch with the gravity feed system until sold to Skoog and he put in his own pump. Original claim by Anderson included the property sold to Skoog.

1987 NAPP shows 12.7 acres of irrigation being recommended. This leaves 1.9 acres unaccounted for.

With this information, we can conclude that there was an accomplished change in POU and POD prior to 1987. Irrigated acres do not exceed acreage irrigated in 1972.

Entire Split Results:

Sum of split recommendation acres is 44 acres.

The result of this is that the sum of the acreage and diversion rate being recommended under the Tanny right 29-00443, is less than that decreed. Thus, no enlargement of the right.

Noel Anderson (29-13266):

SCANNED

NOV 09 2005

None of the following show signs of irrigation on the property now owned by Noel Anderson: 1987 NAPP, 1985 USGS Orthoquad, 1972 aerial photography, 1992 Terraserver aerial photos. Cannot recommend as irrigated POU.

The Department of Water Resources

Dear Sirs:

May I state that I, Royal Anderson acting as custodian of valuable papers for the Harry Anderson family, do state that a deed for ten inches of first water rights of the Pocatello Creek flow was purchased by my brother, Elwin Anderson from John Tanney for the price of one thousand dollars (\$1,000) in the 1950's. I have mislaid this deed but solemnly state that it did exist and that Elwin Anderson has been using the said water over the years without any complaint by any of the water users on the creek.

Yours truly,

Royal Anderson
