RE: Change in preliminary recommendation for Snake River Basin Adjudication claim
29-00446B

Dear Mr. and Ms. Foulkrod,

I spoke with Larry on February 28, 2003 about his concern regarding a remark on the preliminary recommendation for 29-00446E. The comment read as follows:

**RIGHT INCLUDES ACCOMPLISHED CHANGE IN POINT OF DIVERSION
PURSUANT TO SECTION 42-1425, IDAHO CODE.**

After reviewing I do not feel that the above remark should be on the recommendation. I have removed that remark from the recommendation (enclosed).

As we spoke about on the phone, there is a similar remark to the one above related to the Place of Use. I have to include that remark because part of the recommended place of use (irrigated ground) lies in a 40 acre tract that is not defined in the decree.

Please feel free to contact me with any questions. If everything looks satisfactory then no further action needs to be taken. You will be notified by the SRBA court at the time the directors report is issued.

Respectfully submitted,

RE: Transfer to Change Point of Diversion Needed for 29-00446B

Dear Mr. and Mrs. Foulkrod,

The Idaho Dept. of Water Resources has been in the process of reviewing the Snake River Basin Adjudication (SRBA) claims in your area. During my review of your water right I have determined that a transfer to change you point of diversion needs to be filed.

The SRBA court requires us to make our water right recommendations based on how the water right existed on November 19, 1987. My research indicates that your property was irrigated from a ditch that carried water along the south side of Pocatello creek. In 1988, Tom Skoog bought the property and changed the point of diversion to its current location on the SE corner of your property.

Since this change occurred after November 19, 1987, I must recommend the point of diversion for your right as being in the historical location (map enclosed).

In order to change your point of diversion from the historical location to it's current location, a transfer needs to be filed.

For your convenience, I am enclosing an application for Transfer of a Water Right. You might wish to wait until the recommendations for basin 29 are sent to Directors report so the other elements of the water right can be accurately described on the transfer.

Please feel free to contact this office if you have any questions.

Respectfully submitted,

Memorandum

Date: November 6, 2001

From: Craig L. Saxton

Subject: Meeting with Dwaine Anderson and discussion of historical water use.

Today I met with Dwaine, Todd, and Noel Anderson to discuss their claims. In the discussion I asked them how the property claimed under rights 29-00446B and 29-00446C were historically irrigated.

Dwaine stated that there were two ditches that irrigated the high points on the north and south side of Pocatello creek. In the 1950's only the ditch on the south side of the road was used. Water was diverted from what is now the Packers place and run along the south hills to a high field just South of the Anderson's current POU. Then the water was diverted and gravity feed into sprinkler lines that irrigated the POU claimed under 29-00446B and 29-00446C. A 1970 aerial photo was provided showing the ditch on the South side of the creek. The ditch on the North side of the creek has been destroyed by the Pocatello creek road.

In the late ~~1970~~¹⁹⁸⁰'s, pumps were put in place to irrigate the fields.
