Hi Jack,

In regard to your questions on the adjudication process and filing an objection to our recommendation of the priority date on Notice of Claim to a Water Right 95-14313; the claim where the priority date was recommended as 2005 but should be an earlier date of 1995.

What you will need to do is file an amended claim showing the correct priority date. I've attached a copy of your original claim filing for your usage. Under item 2, cross out the incorrect date and fill in the correct one. Initial and date each change that you make; then resign the claim under signature, item 15. I've included the well report and map. Please include this information with the claim when you submit it to the Court.

You will also need to complete the following forms required by the court – which I've attached. They're the SF-1, SF-3 and SF-7. Motion to File an Objection, Objection Instructions, Motion to File an Amended Notice of Claim, and the Motion to File a Late Objection. These forms are self-explanatory; however, when you fill out the Motion to File an Amended Notice of Claim you'll see that they're asking if you've read CSRBA Administrative Order 1, Rules of Procedure. This document can be found on the court's web site at www.csrba.idaho.gov/index.html.

I have sent a lot of information so please feel free to contact me if I can be of further assistance.

Linda
