Subject: City of Bancroft Shape?

hi Mark,

Do you have a muninciple shape for City of Bancroft? I wrote them a letter in May and requested the information but I got no response. Have you heard from them? I'll be at eastern tomorrow if you want to give me a call.

Thanks,
Cindy

Claims 29-560, 561, 563 and 582

Subject: Service Area Map

RESPONSE DATE: May 17, 2002

Dear Claimant(s):

The claims listed above were adjudicated in the Bancroft-Lund Decree in the District Court of the Sixth Judicial District of the State of Idaho in and for the County of Caribou, civil case number 2919 on July 28, 1992.

IDWR's initial investigation of the Notice of Claim listed above indicates some changes from the Bancroft-Lund Decree. Changes noted in the SRBA from the Bancroft-Lund adjudication are: place of use.

The Bancroft Lund decree defined the place of use as the "City limits of Bancroft" and your SRBA claims for the municipal use for the City of Bancroft includes areas that are outside of the Bancroft City Limits but are within you "service area". To define the place of use in the SRBA I need a copy of a map or a legal description that defines your "service area".

This office must receive your response by the response date shown above. If you have any additional questions please feel free to contact me at 547-3993 in Soda Springs.

Sincerely,

Cindy E. Bird

I spoke with Brad Hammert from the City of Bancroft today regarding the likelihood of us recommending these RR rights as disallowed because they were not claimed in the prior adjudication. I suggested he contact Union Pacific to get answers to questions he may have or to contact Cindy. I told him there is not going to be an immediate problem since our recommendations won't go out until this fall but that we wanted to give the City a head's up since this could present a problem for them.

Cindy, I think it would be helpful for you to contact Brad, confirm that the City's backup well is in fact 29-4330 and just be a point of contact for him.

Hi Candice and Ernie,
SRBA claims A29-4329 (Squaw Creek Springs) and A29-4330 (ground water) are in the Bancroft-Lund Area however I don't find that they filed on them in Bancroft-Lund Adjudication. Are the claims valid or were they forfeited because they were not claimed in the B-L adjudication? The claimant is Union Pacific Railroad. They've leased these b/u claims to the City of Bancroft since 1957 for municipal use.

In the Spring of 1952 Union Pacific buried a pipeline through several landowners property and for the inconvenience they signed an agreement with property owners allowing them to tap into the pipeline with 1-1" pipe connection that allows them year round use of the water through the 1 " pipe. Do these guys need to file separate B/U claims?

Cindy,

We are moving that direction. If you can get a service area map for a city by all means do. Please send a copy to Mark. We will be doing municipalities just like irrigation company service areas. Remember that a municipality is a Large POU and needs to be 'coded' that way on the Place Of Use screen under the question 'Is a POU required?'. You'll want to answer this NO. Then all rights associated with this shape can be linked to just one shape and you AV stuff is through.

Give Carter a call on this. He can help walk you through it.

After reviewing I.C. 42-202B, 203A and 222 it seems that because a "service area" includes that area of a city that changes after the license or permit is issued and can include an area outside the city limits that perhaps the phrase "within the city limits" was not intended to be so narrow. Ernie, do you have any thoughts on why the right was limited to "within the city limits"?

Candice,
I have another question on the City of Bancroft SRBA claims. The Bancroft-Lund described the POU as "within the City Limits of Bancroft". The SRBA claims describes sections and QQ's that are outside of the City Limits of Bancroft. I checked out the city limits of Bancroft at the assessors office. Do they need to file an enlargement claim to cover the additional acreage? Claim numbers are 29-560-563.
Thanks

ONLY if they changed their "rate of flow" capacity does it matter. If their volume has increased we do not require an enlargement either.

Administrative Memo #18 states that a city's POU can change without any water right transactions so long as they do not increase the diversion rate capacity for the existing right. Although that memo limits who can hold a municipal water right, the statute changes that section. However, the other analysis remains, thus, I believe we can change the POU to City of Bancroft "service area" with our standard remark J03 (Ernie correct me if I'm wrong) without getting an enlargement claim unless they have exceeded their prior capacity.

At the time of the Bancroft Lund claims review the standard remark contained the phrase "within the city limits". I believe Jo Beeman, for one, who represented(s) City of Pocatello pushed the department in the direction of adding "service area". I expect if taken to court the more restrictive remark would not hold up. Municipalities seem to have maximum flexibility regarding their application of water rights.

I received your letter dated January 15, 2002. I am sorry I forgot to include the information you needed. Apparently the CRP ground that the city has is not irrigated. I have found out that the land was put into CRP in or about 1983, so I my guess is I sent you a copy of the renewal contract. I hope this answers your questions. REF: Snake River Basin Adjudication (SRBA)

SUBJECT: CRP Contract

Dear Claimant(s);

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown above in the "address" label has been filed in the Snake River Basin Adjudication (SRBA).

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. A field examination to verify items in the Notice will be conducted by Department personnel as soon as the weather permits. I was able to visit some of you this year before the snow arrived. While waiting for the weather to cooperate again I would like to collect some of the necessary documentation needed to recommend your claim to the SRBA court. The statute (42-104) requires the water be put to beneficial use to have a valid water right. One exception to the statute is if the land has been put into CRP. But evidence must be submitted to the Department of Water Resources to retain the water right otherwise the water right will not be recommended to the SRBA court.

If you have previously irrigated land that has been put into CRP, I would appreciate it if you could send me a copy of the contract when the land was put into CRP for my records, **by March 1, 2002. If you do not have any land in CRP please disregard this notice.** With no response from you, we will assume that you do not have any land in CRP. You may contact either the Farm Service Agency (FSA) or Natural Resource Conservation Service (NRCS) in Soda Springs at 547-4396 for a copy of the contract.

Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely,

DAVID B. SHAW
