EXHIBIT 1
PURPOSE FOR TRANSFER

Mr. and Mrs. Dallas Harris have operated a ranch for years in Ada County, generally in T3N, R3E, Sections 19, 20, 28, 29 and 30. The property was irrigated primarily as a cattle ranching operation for feed and pasture for beef cattle. Water has been supplied to the ranch under various water rights which include a relatively intermittent supply from Warm Spring Creek (63-00365), a Boise River water right (63-00184) which is conveyed under special contract through the Penitentiary Canal and two (2) ground water rights (63-07103, 63-08627). Additional water has been provided by Boise-Kuna Irrigation District for a specific acreage on the ranch. The point of diversion and place of use for the Boise-Kuna Irrigation District water rights are unaffected by this transfer. Over the past few years the Harris' have been involved in the development of Harris Ranch, a planned unit development. Because of the significant changes in land use and water distribution requirements, the Harris' wish to combine their water rights into a permissible place of use, which will provide enhanced flexibility and efficiency in their operation. There will be no increase in water volume usage or rate of diversion nor will there be an expansion of water right onto additional irrigated lands. As described on Item 2, Page 1 of the application, no more than 581 acres will be irrigated with the water rights listed on the transfer.
