IN THE MATTER OF APPLICATION FOR TRANSFER
OF WATER RIGHT NUMBERS 63-0306, 63-0359
AND 63-2420 IN THE NAME OF REYNOLDS
IRRIGATION DISTRICT

ORDER

WHEREAS, on February 21, 1984, Reynolds Irrigation District filed an Application for Transfer with the Department of Water Resources to add a point of injection into the Snake River and to add a point of rediversion from the Snake River to the above referenced water rights; and,

WHEREAS, the summation of the diversion rates of these three water rights, is 57.56 cubic feet per second; and,

WHEREAS, water diverted under the three water rights has, since their development, been carried across the Snake River by a common pipeline; and,

WHEREAS, the capacity of that pipeline was measured by the Department to be 31.28 cubic feet per second on August 3, 1982; and,

WHEREAS, the total actual development of these three water rights is limited to the capacity of the pipeline; and,

WHEREAS, the transfer will meet the requirements of Section 42-222, Idaho Code if the rediversion rate is limited to the pipeline capacity;

IT IS, THEREFORE, HEREBY ORDERED, that the application for transfer of water right numbers 63-0306, 63-0359 and 63-2420 is APPROVED subject to the following conditions:

1. The rate of rediversion shall not at any time exceed the rate of injection.
2. The rate of rediversion shall be limited to a maximum of 31.28 cubic feet per second.
3. Measuring devices of a type approved by the Department shall be installed and maintained at the points of diversion, injection and rediversion. These measuring devices

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information

- a. Amount of water to be diverted 57.56 c.f.s. &/or _____ acre feet

Description of diverting works:

Headgates and ditches will still divert and carry well, drain ditch and Warm Springs Creek water, but will dump this water into the Snake River on the Canyon County side. The District will then use it's Snake River pumping plant located on the Owyhee County side to divert a like amount of water into it's irrigation system.

Describe the reasons for the proposed changes:

By dumping water and pumping, the District will eliminate a pipeline across the Snake River and thus reduce maintenance costs. The pipeline has a capacity of approximately 34 cfs; the Snake River pumping plant will also pump only the 34 cfs that could be delivered by the pipeline.

2. Change in point of diversion

3. Change in place of use no change

- a. Are there liens, mortgages, or contracts on the lands from which you propose to transfer the water right which limit your authority to make the proposed change? Yes _____ No x. If yes, provide a statement agreeing to the proposed change from the holder of the lien, mortgage or contract.

- b. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer

D. REMARKS

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

Lots 5, 6 and 7, and the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 36;
All in Township 1 North, Range 3, W. B. M.

The point of diversion of said water is, as it has been for a long time heretofore, at a point located in Section 10, Twp. 1 S., R. 2, W. B. M., where an irrigation ditch belonging to plaintiffs and to said defendant Ellen T. Sproat has its heading in said drain.

IV.

- 63 0359 The defendant Reynolds Irrigation District is hereby decreed the right to the use of 1300 miners inches of the waters of the drains and wells involved in this suit, with priority dating from April 1, 1950. Said water is decreed for irrigation, livestock and domestic uses upon the lands embraced in the boundaries of said defendant Reynolds Irrigation District, in Owyhee County, Idaho, located and being in Sections 11, 12 and 13, Twp 1 South, Range 3, West Boise Meridian, and in Sections 6, 17, 18, 19, 20, 21, 28 and 29 in Twp. 1 South, Range 2 West Boise Meridian.

The point of diversion of said water is, as it for a long time heretofore has been, at a point in Section 10, Twp. 1 S., R. 2, W.3.N., where an irrigation ditch belonging to said defendant has its heading in said drain.

V.

All the said lands of each of the parties hereto upon which water for irrigation is herein allotted are arid lands requiring irrigation, and the amount of water herein allotted to each party for use upon such lands is required and necessary for the proper growing of crops thereon, in addition to any water used from any other source, including Snake River, Reynolds Creek in Owyhee County, Idaho, and Warm Springs Creek in Canyon County, Idaho.

VI.

A miners inch of water as that term is herein used shall be deemed equivalent to one-fiftieth of a cubic foot per second; and the water herein allotted shall be measured at, or as nearly as practicable at, the head of the ditch whereby it is diverted by the party to whom its use is allotted herein.

In and near the head of the main drain from which plaintiffs and the defendant Ellen T. Sprout divert their water, said last named parties shall maintain a suitable and accurate measuring device whereby the water diverted for their use may be measured. The plaintiffs shall bear two-thirds of the expense of maintaining such measuring device and the defendant Ellen T. Sprout one-third thereof.

At the place where the defendant Reynolds Irrigation District diverts its water from the drain, a headgate and, if desirable or necessary, an accurate and suitable measuring device shall be installed by said defendant district at its expense in the drain so as to permit a constant flow of water down the drain to the point where plaintiffs and the defendant Ellen T. Sprout divert their water. The purpose of the above provision is to avoid fluctuations in the water supply available to plaintiffs and to Ellen T. Sprout at the head of their ditch just above mentioned; the said device or devices to be so installed, and the operation

thereof, shall be as proscribed by the State Reclamation Engineer of the State of Idaho and satisfactory to him.

VII.

The enforcement of this decree is hereby committed in the first instance, pending the creation, as provided by law, of a Water District comprising the sources of supply of the water rights herein decreed, to the State Reclamation Engineer of Idaho. He is hereby appointed to Commissioner of this Court, for that purpose, to serve without compensation during the remainder of the 1956 irrigation season, he having consented so to do. Said State Reclamation Engineer is hereby directed during such period to regulate and distribute the waters of said drain in accordance with the terms of this decree, and thereafter to supervise such distribution by the Water Master as provided by law.

VIII.

Each of the parties hereto and their respective servants, attorneys, employees, and successors in interest, are hereby enjoined and restrained from any and all use of the waters constituting the source of supply here involved, except to the extent and for the purposes herein provided.

IX.

Each of the parties herein shall bear his own costs.

- 63 0356 (a) 390 miners inches during the month of April of each irrigation season;
- 63 0357 (b) 420 miners inches of said waters during the months of May and June of each irrigation season;
- 63 0358 (c) 475 miners inches of water at all times after July 1st of each irrigation season.

The priority of all of said plaintiffs' rights dates from April 1, 1948.

Said water is decreed for irrigation, livestock, and domestic uses upon said plaintiffs' lands, to-wit:

It looks good.

I didn't catch the suffix "B" on 02-2027. It should have been there. I will check and be sure we have it on the partial decree: 02-2027B.

Hi Ted & Jerry,

Attached are copies of the above listed Reynolds Irrigation District rights that we spoke about. They reflect the changes to the quantity remarks showing the hashed through remark that was omitted and the underlined remark reworded. I also added the B suffix to the combined use condition concerning 2-2027. The current number for the Reynolds Irrigation District's portion is 2-2207B.

It is my understanding that these changes will be made to the recommendations prior to partial decree without resending the Standard Form 5 around again. If either of you see a problem with these recommendations, please feel free to contact me. Thank you for your discussions on these changes.

Conversation w/Ted Booth on 1-29-09

#1 – Reynolds ID rights 63-359, 306 & 2420 – Question is that there is a condition that states: The rate of diversion shall not at anytime exceed the rate of injection. The rate of diversion shall be limited to a maximum of 31.28 cfs. The water rights add up to 57.56 cfs for non-Snake River rights, yet the rate of diversion out of the Snake River (these are injected into the Snake and then rediverted) cannot exceed 31.28 cfs. Ted is wondering why.

#2 – The condition limiting the water rights when combined show 02-2027, 306, 2420 & 359 – problem is that 02-2027 has been split for sometime into 02-2027KA & B – Ted wonders which one to sue.

#3 – There is a typo of acres in one of these rights.

#4 – United Water – Need to look at Carter's language in the City of Caldwell to see if we want to incorporate the same point of diversion language in these. Also, the one water right that is supposed to have 30+ points of diversion only lists 1 point. Need to fix and send in as an SF5.

#5 – The remark concerning the priority of the original point of diversion under those rights has the wrong legal description on it. 3 of them.

#6 cannot remember. Will try tomorrow.

Lexington Hills vs HOA – If the developers put in a meas. Device, then possibly the HOA will not object to their transfer when they go to sell the rights they retained. This is why they have asked for an extension of time to file a motion to alter or amend the trial's decision.

Craig Whitted – Will be doing a mediation meeting with a Judge in Boise to try and mediate out of the attorney fees where if Craig agrees to give an easement to Smith, then Smith will not collect the attorney fees ordered now. They have filed a motion to alter or amend.

Re: Reynolds Irrigation District Claim Nos. 63-306, 63-359 and 63-2420

Dear Mr. Spencer and Special Master Booth:

The Claimant of the water rights identified by the numbers listed above, Reynolds Irrigation District, the Objectors, Boise-Kuna Irrigation District and participants, the Bureau of Reclamation, have agreed to resolve the objections of BKID by the inclusion of the following remark in the partial decrees issued for water right nos. 63-306, 63-359 and 63-2420:

"The source of this right lies within the boundaries of the Boise-Kuna Irrigation District. To the extent any waste waters of the Boise-Kuna Irrigation District enter the irrigation system of the Reynolds Irrigation District, the continued provision of those waste waters may be discontinued at any time."

The Claimant, Objector and Participant request that the Department prepare a Standard Form 5 encompassing the agreement of the parties and circulate it among the parties for signature. The Claimant, Objector and Participant agree by their signatures in this letter, that the inclusion of the remark set forth above in the final partial decree will resolve this matter, and furthermore, request that the court vacate the status conference currently set for December 9, 2008. Thank you for your assistance in this matter.
