Re: Combined George limitation

Two needs appear for combined limitation

1) Present "sustaining" of Ben. use rights for additional & from licensed rights. Accomplish this by combined average limitations w/ each pair.

2) Present "enlargement" of earlier priority right 29-13143 in connection w/ accomplished right to outlipping of license 29-2419. Accomplish this by limiting even portion of Ben use right (29-13143 / 29-13144) to 25% share of original acres.

29-13143 = 2.95 acs claimed
29-13144 = 4.24 acs claimed

Average limit p 2 9/6/01

This appears to be an error; the original intent was to apportion the 1.82 ds of documented "beneficial use" capacity as needed to balance division rates. It looks like I forgot to adjust the division rates.

North Pole	233 acres
North Pole	233 acres
South Pole	365 acres
Total	598 acres

29-2292
29-2419

Ben. use	4.24 ds
	2.95 ds
	7.19 ds
	1.82 ds
	9.01 ds

$$\frac{9.01}{598} = 0.01507 \text{ ds/acre}$$

North Pole 233 acres $\times 0.01507 = 3.51$
 $3.51 - 2.95 = 0.56 \text{ ds for } 29-13143$

SCANNED

JAN 13 2006

for

$$\begin{aligned} & \text{29-2914} \div \text{29-13144} = 233 \\ & \text{29-2922} \div \text{29-13144} = 365 \\ & \text{29-2922, 29-13143, 29-13144} = \end{aligned}$$

Combined limits:

$$409 \text{ acc} - 126 = 283 \text{ acc limit for 29-13144}$$

$$409 \text{ acc} \times 0.56 = \frac{1.82}{126 \text{ acc limit for 29-13143}}$$

Original Ben. use was 100% overlap w/ 29-2922, 409 acc.

$$\text{South Acc } 1.82 \text{ ds} - 0.56 \text{ ds} = 1.26 \text{ ds}$$

Re: Amended claims, office visit, intent of recommendations

Today I visited in the office with Lavell Rupp, representative of Veda Rupp and the Harold L. Rupp Trust; and Gordon Jensen, representative of the Melville W. Jensen Trust and the Ora L. Jensen Estate.

Originally Veda and Harold Rupp had filed claims 29-2292 and 29-2419, based upon licenses. Historically the lands had belonged first to Veda Rupp's and Melville Jensen's father, then were jointly owned by Veda Rupp and her husband, and Melville Jensen and his wife. By some oversight, Rupp's omitted Melville Jensen as an owner on claim 29-2292, and both Jensens as owners on claim 29-2419.

Since that time, both Jensens, as well as Harold Rupp, have passed away. Terry Jensen as representative of the Jensen Trust and Jensen Estate filed competing claims 29-13143 and 29-13144. This was not an attempt to claim all of the original rights, but to make sure the Jensen heirs were represented as owners.

In my preliminary investigation I found evidence that there was additional original diversion rate documented in licensing exam 29-2292, but never licensed. I also found that the systems are interconnected, that the diversion rates per acre are not in balance, and that the capacities of the wells are not in balance with the original licenses.

Earlier, by telephone, Lavell Rupp and Gary Jensen had indicated an intent to eventually divide the property, and perhaps to file transfers to change place of use. Letters in the files give some of the history of these conversations.

Based on today's interview Lavell and Gordon, I have done the following:

1. Accepted amended claims on both licenses, to clarify POD and to show Veda Rupp, the Harold L Rupp Trust, the Ora L Jensen Estate, and the Melville W Jensen trust as owners.
2. Accepted amended claims on the two "competing" claims 29-13143 and 29-13144 to change them into beneficial use claims for the additional

SCANNED

JAN 13 2006

PROFILED

diversion rate documented in the licensing exam. These also were adjusted to show the same four owners as the two licenses.

My intent is to recommend these four claims basically as claimed, with appropriate combined use limitations. In doing this, I assert that the original development of 29-2292 was for the 6.06 cfs found, on the original POU. (this is still within 0.02/acre). When adjacent 29-2419 was developed and the mainlines were connected, there was an accomplished transfer to a PPU with the lands of 29-2419 of some of the additional diversion rate.

The beneficial use right did not involve any new acres and there has not been any enlargement of original licensed acres.

To accommodate these accomplished transfers and still allow flexibility for dividing the place, I have amended 29-13144 as the portion of the beneficial use right that overlaps 29-2292 and I have amended 29-13143 as the portion that overlaps 29-2419. Because there are no "new" acres associated with the beneficial use, none of the rights will carry K06, but both pairs (29-2292 and 29-13144, 29-2419 and 29-12143) will carry appropriate combined acreage limitations.

Re: Phone conversation with Gary Jensen

Today I spoke with Gary Jensen, the representative of the Melville Jensen Trust, on the telephone. He confirmed what Mr. LaMar Rupp had told me regarding the four-way joint ownership of the farm and water rights, and the difficulty with the county records. He also suggested that the farm might soon be divided into an east and west portion, perhaps with the interstate as the dividing line. The intent would be to divide the distribution systems, with the west well handling the west parcel and the east well, the east parcel. He believes both wells have adequate capacity to handle that division.

Gary confirmed what I had assumed from the claim filing, that the systems are currently connected by a common mainline. He will review and consider the PPU concept, prior to the division of the land.

In a few weeks he will be in Idaho to meet with Rupps and the attorneys, and will make an appointment to come work with me on how these claims should best be structured.

Re: Adjudication claims 29-2292, 29-2419

Dear Water Users:

Enclosed is a copy of the letter I sent to LaMar Rupp regarding the possibility of filing a "beneficial use" claim to reflect the additional capacity of the 1950 well, and the possibility of recommending these rights on a "permissible place of use" basis to more appropriately balance the diversion rate per acre of the two rights.

In my phone conversation with Gary, we discussed the possibility of dividing the farm into an eastern and western portion. Currently the water rights are divided into a northern and southern portion, based upon the way the land was originally developed. An enclosed map shows the approximate layout of the rights as currently claimed, based upon the original licenses.

Water right 29-2292 is for 369 acres on the south, with a 1954 priority date and a diversion rate of 4.24 cubic feet per second (cfs). This works out to about 0.0115 cfs/acre, which is marginal at best. If you file the beneficial use claim for the additional water documented in the 1953 measurement, the overall rate would be 0.0164 cfs/acre.

Water right 29-2419 is for 233 acres on the north, with a 1959 priority date and a diversion rate of 2.95 cfs. This works out to 0.0126 cfs/acre, which is better than 0.0115 but still marginal.

The enclosed map shows that the current place of use matches these claims and original licenses very closely.

One option available to you is to amend the claims to re-align these rights into an eastern and western portion. This would preserve the 1950/1953 priority dates on part of the lands, and keep the 1959 priority date on the balance of the lands. For this to work, the lands would have to be divided in the same ratio (369 acres to 233 acres), and the difference in diversion rate per acre would not change.

PROFILED

SCANNED

JAN 13 2006

Another option is to amend the claims on a "permissible place of use" basis, which effectively would apply all three rights to all the lands. Then, when the property is divided, all three rights would be divided proportionately. If the lands were divided to two units, the result would be six water rights, three to the west parcel and three to the east parcel. Each parcel would enjoy part of the 1950 right, part of the 1953 right, and part of the 1959 right. All the lands would effectively enjoy a diversion rate of about 0.015 cfs/acre, which is adequate with good management.

Both LaMar Rupp and Gary have told me of the difficulty with correcting the ownership on the county records. I can adjust the water right ownership based on the deeds and/or trust documents that you have, if they show the correct ownership and the proper legal descriptions. This will allow at least the water right recommendations to proceed.

Please feel free to call me if you have questions. I look forward to meeting with you after you have had your meetings. My goal is to recommend these water rights correctly, and your input has been very helpful.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent

Re: Adjudication Claim 29-2292, 29-2419

Dear Mr. Rupp:

I have begun reviewing these adjudication claims. The well under 29-2292 was originally licensed for 4.24 cfs, which is probably not quite adequate for the 369 acres you appear to be irrigating. The capacity of the well was measured in 1953 at 6.06 cfs, which is much more appropriate for 369 acres.

If you wish, I can prepare a "beneficial use" claim for the additional diversion rate, with a priority of 1953. This would result in an additional 1.82 cfs, or about 817 gallons per minute. The fee would be \$100.

Another issue with these water rights is that the diversion rate per acre is not balanced between the two rights. It appears that the two systems are interconnected, and operated together. It would be appropriate to recommend these two rights (three, if you file the beneficial use claim) on a "permissible place of use" basis. The advantage to this is that you would be able distribute your available diversion rate across the entire farm, from either water right or well.

The disadvantage would be that if the land were divided, or a portion were sold off, each piece of land would get a proportionate share of each water right. If you wished to keep the older water right on one parcel, and the junior right(s) on another, the "permissible place of use" would interfere with your plans.

Please consider what you would like to do, and let me know. You may call me at home in the evenings at 208-663-4853, if you can't reach me during the day.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent

MEMORANDUM

To: 29-2292
 Fri Bryce Center
 Date: 6/16/2001

Re: Analysis of Diversion Rate

1) Diversion rate is 4.24 ds on 460 acres
 ≈ 0.0092 ds/acre

2) Permit was for 5.0 ds on 330 acres

3) Examiner found 8 lines x 33 joints
 with $1/64$ " & $5/32$ " negligible.
 (Other notation is $1/64 \times 3/32$ - possibly dual-nozzle heads)

4) Examiner notes include

"5 gal in 55 sec = .606
 " 170 " = .196
 .802
 212 inches "

5) Examiner notes include

"Spalling test shows 16.5 seconds for 100 ft
 or 303' (sprinkler hookup)."

6) Examiner notes include

"Demand on meter $2.45 \times 10 \dots$ Static H is 150,
 11 ft 183 "

JAN 13 2006

SCANNED

$$T.D.H = \text{lift} + \text{friction} + \text{psi} \times 2.31$$

$$183 + 15 (\text{assumed}) + 50 \times 2.31 (\text{assumed})$$

$$= 313.5 \text{ ft.}$$

$$\text{Water hp} = \text{Motor HP} \times \text{pump efficiency}$$

$$= 200 \times 0.70 = 140$$

$$\text{GPM} = \frac{\text{Water hp} \times 3960}{T.D.H}$$

9) Theoretical based on Motor horsepower

$$\frac{100 \text{ ft}^3}{16.5 \text{ s}} = 6.06 \text{ ft}^3/\text{s} = 303 \text{ inches}$$

8) Double-check Spacing Calculation

$$8 \text{ gpm} \times 8 \text{ lines} \times 33 \text{ nozzles} = 2112 \text{ gpm}$$

$$= 4.71 \text{ g/s}$$

$$\text{At } 8 \text{ gpm/nozzle}$$

$$6 \text{ gpm} \times 8 \text{ lines} \times 33 \text{ nozzles} = 1584 \text{ gpm}$$

$$= 3.53 \text{ g/s}$$

7) Sprinkler calculation, Assume 6 gpm/nozzle

Notes also show 200 hp US Motor.

Memo 6/16/01

Meve 6/16/01 p3

$$GPM = \frac{140 \times 3960}{313.5} = 1770 \approx 3.94 \text{ ds}$$

10) Theoretical based on demand KW

$$\text{Water hp} = KW \times 1.34 \times \text{water eff} \times \text{pump eff} = 245 \times 1.34 \times .92 \times .70 = 212 \text{ hp}$$

$$GPM = \frac{212 \times 3960}{313.5} = 2678 = 5.97 \text{ ds}$$

11) Examining notes 10 lines in place but "actually operates 8 lines"

$$10 \times 6 \text{ gpm} \times 33 \text{ nozzles} \approx 1980 \text{ gpm} \approx 4.41 \text{ ds}$$

$$10 \times 8 \text{ gpm} \times 33 \text{ nozzles} \approx 2640 \text{ gpm} \approx 5.88 \text{ ds}$$

12) Attempt to interpret notes about "5 gal in 55 sec" and "5 gal in 170 sec:"

I assume there are 2-nozzle impact loads and the figures report a bucket-and-spray calculation of water nozzles on one nozzle.

$$\frac{5 \text{ gal}}{55 \text{ sec}} \times \frac{60 \text{ sec}}{\text{min}} = 5.45 \text{ gal/min}$$

$$\frac{5 \text{ gal}}{170 \text{ sec}} \times \frac{60 \text{ sec}}{\text{min}} = 1.76 \text{ gal/min}$$

$$\text{Total} = 7.21 \text{ gpm}$$

Memo 6/14/01 p3

13) Use measured Q/nozzle:

$$8 \text{ lines} \times 33 \text{ nozzles} \times 7.21 \text{ gpm} = 1903 \text{ gpm} = 4.24 \text{ cfs}$$

$$10 \text{ lines} \times 33 \text{ nozzles} \times 7.21 \text{ gpm} = 2379 \text{ gpm} = 5.30 \text{ cfs}$$

14) Per-acre analysis

$$\begin{array}{l} \text{licensed rate } 4.24/460 = 0.0092 \text{ cfs/acre} \\ \text{claimed } 4.24/369 = 0.0114 \text{ cfs/acre} \end{array}$$

$$\begin{array}{l} \text{sparking/ licensed } 6.06/460 = 0.0132 \text{ cfs/acre} \\ \text{sparking/ claimed } 6.06/369 = 0.0164 \text{ cfs/acre} \end{array}$$

$$\begin{array}{l} \text{motor theor/ licensed } 3.94/460 = 0.0086 \text{ cfs/acre} \\ \text{motor theor/ claimed } 3.94/369 = 0.0106 \text{ cfs/acre} \end{array}$$

$$\begin{array}{l} \text{demand theor/ licensed } 5.97/460 = 0.013 \text{ cfs/acre} \\ \text{demand theor/ claimed } 5.97/369 = 0.016 \text{ cfs/acre} \end{array}$$

Conclusion

There is close agreement between the Sparking Meter result (6.06 cfs), the demand-based theoretical (5.97) and an assumed 8 gal/min/nozzle rate on 10 lines (5.88 cfs). Any of these values

SCANNED
JAN 13 2006

Memo 6/16/01 p 5

gives a reasonable rate/acre less than the std 0.02 cfs/acre.

I plan to invite claimant to file a beneficial use claim for additional Q based upon the field exam, with date of priority 6/9/1953.

The discrepancy with the nozzle-and-stopwatch method can be explained by the fact that sprinkler nozzles can have considerable variability depending on length of line, distance from pump, and elevation. This is somewhat rolling land, with the pump on the uphill side. If the measured nozzle were near the pump, it may have been one of the lower-flowing nozzles, particularly if it were near the end of its line.

The spauling Q is the most reliable of these methods and consistent with other calculations.

Re: Adjudication claims 29-2292, 29-2419

Dear Water Users:

These two adjudication claims are based upon licensed ground water rights for irrigation. License 29-2292 was originally issued to Henry Jensen, but was shown in the names of Harold and Veda Rupp and Melville and Ora Jensen in a 1965 transfer. License 29-2419 was issued in 1969 to the same four parties.

Based upon these two licenses, there have been four adjudication claims filed. Claim 29-2292 is filed in the names of Harold or Veda Rupp, or Ora Jensen. Claim 29-2419 is filed in the names of Harold or Veda Rupp. Claim 29-13143 and claim 29-13144 are filed by the Melville W. Jensen Trust and the Ora L. Jensen Estate, asserting partial ownership of rights 29-2292 and 29-2419.

We are now investigating adjudication claims in Basin 29, to prepare recommendations to present to the court. My charge is to accurately report the water rights, including the ownership of the rights.

If the lands are still jointly owned, I must recommend the water rights to all the owners of the lands. If the lands have been divided, the water rights must be divided accordingly. Unless the conveyance documents or deeds explicitly state otherwise, water is divided proportionately to the division of the irrigated lands.

Please contact me to help me sort out what is the correct ownership status of these water rights. If you have copies of deeds or conveyance documents, these would be most helpful. You may leave a message for me at 525-7161. I am hard to catch up to, but I will return your calls within a week.

Thank you,

A handwritten signature in cursive script that reads 'Bryce A. Contor'.

Subject: competing claims

Claims 29-13143 and 29-13144 were filed by the Ora L. Jensen Estate and the Melvin W. Jensen Trust, alleging co-ownership of claims 29-2292 and 29-2419. 29-2292 is filed by Harold or Veda Rupp or Ora L. Jensen, 29-2419 is filed only by Rupps.

Unless you have a better plan (I hope you do) my idea was to invite both sets of claimants to document their ownership of the right, then sort it out and make a recommendation. I haven't looked at the claims to know if they will otherwise be recommendable.

MEMORANDUM

Date: 1/31/01

From: Craig Saxton

Subject: 29-13143 and 29-13144

Back ground:

Two families have owned and operated the land covered under water right licenses 29-02292 and 29-02419. The Rupp's family and the Jensen Family. Adjudication claims were filed on these water rights by the Rupp's.

The Jensen family has part ownership of the land and now wants their names on the adjudication claims. The only way to add the Jensen's names to the claims filed by the Rupp's would be to have the Rupp's sent a letter to add the Jensen's names.

The Jensen's told me that there is some sort of tension and the Rupp's would not allow the Jensen's name to be added.

Result:

The Jensen's filed separate adjudication claims on the land in question. The Jensen's claims were filed exactly like the claims filed by the Rupp's. The intention of filing the claims is not to claim sole ownership of the water rights, but rather to ensure that their names are included as owners when the department makes it's recommendation to the court.

Fees:

Acreage fees paid by AJ claims 29-02292 and 29-02419. A notice of extension of time to avoid late fees was filed based on the fact that the Jensen's thought that their name was included on the original filing.

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

CERTIFICATE OF WATER RIGHT
TRANSFERRED RIGHT NO. 1041

THIS IS TO CERTIFY, That Harold L. Rupp, Veda J. Rupp, Melville W. Jensen and Ora L. Jensen, of Route #2, North Pocatello, Idaho, are the owners of and using a certain water right of 4.24 cubic feet per second of the waters of subterranean source, said water being obtained by virtue of License No. Q-21771, issued by the State of Idaho, Department of Reclamation, bearing priority date of October 14, 1950, for the purpose of irrigating the following described lands situate, lying and being in the County of Bannock, State of Idaho, to-wit:

S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$, Section 35;
W $\frac{1}{2}$ SW $\frac{1}{4}$, Section 36; Township 5
South, Range 34 E.B.M.,
NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 1; N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$,
Section 2, Township 6 South,
Range 34 E. B. M.,

That said license has been entered in the records of the Department of Reclamation of the State of Idaho, in Volume No. 8 of Licenses, at Page 5122 thereof;

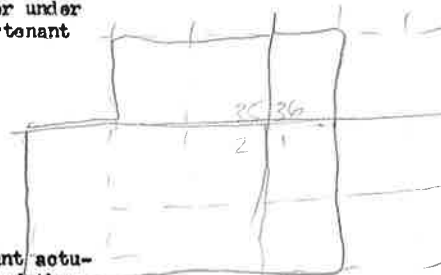

And that Harold L. Rupp, Veda J. Rupp, Melville W. Jensen and Ora L. Jensen, have become the owners of said right by purchase;

And that now, upon the application of Harold L. Rupp, Veda J. Rupp, Melville W. Jensen and Ora L. Jensen, for the transfer of 4.24 cubic feet per second, made before the State Reclamation Engineer of the State of Idaho, and said application having been granted, the right to the use of 4.24 cubic feet per second of the waters of subterranean source by well upon the above described lands is hereby abandoned, and the place of use of said water under such right is HEREBY CONFIRMED, shall by this certificate become apourtenant for irrigation purposes, is described as follows, to-wit:

NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$; Section 2; W $\frac{1}{2}$ NW $\frac{1}{4}$,
Section 1, Township 6 South,
Range 34 E. B. M.,
S $\frac{1}{2}$ SE $\frac{1}{4}$, Section 35; SW $\frac{1}{2}$ SW $\frac{1}{4}$,
Section 36, Township 5 South,
Range 34 E. B. M.,

That said water is to be limited at any given time to an amount actually needed and beneficially used for such purposes and shall not exceed the following amount, to-wit:

4.24 cubic feet per second of the
waters of subterranean source with
priority of October 14, 1950;

T-1041
27-3575

And that the water right hereby transferred has heretofore been conducted from subterranean source with point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 35, Township 5 South, Range 34 E. B. M.,

That the water right hereby transferred will hereafter be conducted to the last above described lands from subterranean source by well with no change in point of diversion;

That the right to the use of the water aforesaid, hereby described, is restricted to the lands or place of use last above described as provided by the laws of the State of Idaho;

IN WITNESS WHEREOF, I have hereunto set my hand and caused the official seal of the Department of Reclamation of the State of Idaho to be hereunto affixed at Boise, Idaho, this 5th day of March, 1965.

In the Matter of the Application of

Harold L. Rupp, Veda J. Rupp,
Melville W. Jensen and Ora L. Jensen,
of Route #2, North Pocatello, Idaho,

For a Transfer of Water Right in the
County of Bannock, State of Idaho;

ORDER GRANTING TRANSFER

NO. 1041

WHEREAS, On the 4th day of March, 1965, at the Department of Reclamation of the State of Idaho, at Boise, Idaho, this matter of the application of Harold L. Rupp, Veda J. Rupp, Melville W. Jensen and Ora L. Jensen, of Route #2, North Pocatello, Idaho, for a transfer of water right came on regularly for hearing, pursuant to the published notice in due and statutory form, and;

WHEREAS, No protest has been filed against the application, and the evidence filed by the applicant with the application shows that the water will be put to a higher and more efficient beneficial use and no one will be injured thereby;

NOW, THEREFORE, IT IS ORDERED, That the said application be, and the same is, HEREBY GRANTED, and that a Certificate of Transfer be issued to the applicant herein as provided by the laws of the State of Idaho.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the official seal of the Department of Reclamation of the State of Idaho to be hereunto affixed at Boise, Idaho, this 5th day of March, 1965.

APPLICATION No. 29485
 PERMIT No. 21771
 DISTRICT No.

M. W. Jensen
 R.F.D. 2, Pocatello, Idaho

1. Name of Applicant: HENRY JENSEN

Postoffice address: Pocatello

County: Bannock

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources:

2. Quantity of water claimed: Five (5) cubic feet per second.

3. Source of water supply: Subterranean flow (well) which is a tributary of

4. Location of point of diversion: 1750 feet distant from the Southeast
 corner of Section 35, T. 5 S., R. 34 E., B.M., and is in the NW 1/4 SE 1/4
 of Section 35, T. 5 S., R. 34 E., B.M., County of Bannock

5. Water is to be used for Irrigation and domestic purposes.

6. If for mining, milling, power or manufacturing purposes, give:

- (a) Point of use of water: feet distant from corner of Section
 T. , R. , B.M., in the of Section , T. , R. , B.M.
- (b) Amount of power generated: H.P., under feet head.
- (c) Water is to be returned to at a point feet
 distant from the corner of Section , T. , R. , B.M., in the
 of Section , T. , R. , B.M.

7. Estimated cost of works: \$

8. Kind of works: Well and pump

9. Height of dam feet; length of dam at top feet; length of dam at bottom
 feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
 dimensions of flume:

Diameter of pipe inches; length of conduit miles.
 Average grade per mile feet.

12. The time required for the completion of such work is - years.

13. The time required for the complete application of the water to the proposed use is - additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? ☒ No ☐ Yes If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 21771

Comes now Henry Jensen, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 21771, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows: SE $\frac{1}{4}$ of NW $\frac{1}{4}$, SW $\frac{1}{4}$ of NE $\frac{1}{4}$, SE $\frac{1}{4}$ of NE $\frac{1}{4}$, NW $\frac{1}{4}$ of SE $\frac{1}{4}$, NE $\frac{1}{4}$ of SE $\frac{1}{4}$, SW $\frac{1}{4}$ of SE $\frac{1}{4}$, all in Sect. 35, Twp. 5, R. 34 E.B.M., NW $\frac{1}{4}$ of SW $\frac{1}{4}$, SW $\frac{1}{4}$ of SW $\frac{1}{4}$, Sect. 36, Twp. 5 S., R. 34 E.B.M., NE $\frac{1}{4}$ of NE $\frac{1}{4}$, NW $\frac{1}{4}$ of NE $\frac{1}{4}$, NE $\frac{1}{4}$ of NW $\frac{1}{4}$ all in Sect. 2, Twp. 6, R. 34 E.B.M., NW $\frac{1}{4}$ of NW $\frac{1}{4}$ Sect. 1, Twp. 6 S., R. 34 E.B.M., making a total of 520 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Pocatello, Idaho, this 28 day of June, 1951.

HENRY JENSEN

Date of receipt at Office of Department of Reclamation June 29, 1951.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 21771. This approval constitutes a new permit and is issued as an amendment to the original Permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP
State Reclamation Engineer

Permit No. 21771
CERTIFICATE OF COMPLETION OF WORKS

To All Whom It May Concern:

This is to certify that HENRY JENSEN of Route 2, Pocatello, County of Bannock, and State of Idaho, the holder of Permit No. 21771, issued upon Application No. 29485 bearing date of priority of October 14, 1950, authorizing the diversion of Five (5) second feet of the waters of subterranean flow from a well, County of Bannock, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use Five (5) second feet of the waters of said well; that the point of diversion of said waters is in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 35, Township 5 South, Range 34 East, B.M. and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: SE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Section 35; W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 36; Twp. 5 S., Range 34 E., B.M., NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1; N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 2; Twp. 6 S., Range 34 E., B.M.

Witness my hand this 19th day of July, A. D. 1951.

MARK R. KULP
State Reclamation Engineer
