Photo 1. 100 hp pump

June 4, 2002 I met with Mike Holsten, Roxie's husband, to determine actual points of diversion on her SRBA claims. The points of diversions were listed in the incorrect sections from the original license.

Photo 1 was taken at 2:56 pm looking west at the pump. Site tag A0012006 was applied to the power pole. The serial number of the motor is PM9480. The manufacture tag on the pump was unreadable.

Photo 2. 60 hp pump

Photo 2 was taken at 3:11 pm looking west at the second point of diversion under this license. USGA applied a site tag A0012799 on the exit pipe. This well borders Elizabeth Call's property. The property in the background belongs to Elizabeth Call and is operated by David Modersitzki.

The pump is a 60 hp Fairbanks-Moore pump. The manufactures tag was unreadable for a serial number or model number. The serial number of the Fairbanks-Moore motor is PM3496.

No change has occurred in the place of use. Buried mainline and riser run east and west in the center of the property.

I'll leave it in the licensed QQ.

60hp pump comes out on the QQ Lines between SESE Sec 26,

leave it in the licensed QQ of NENE Sec. 35.

SUBJECT: POD CHANGE
FIELD VERIFICATION REQUIRED

Dear Roxie,

I visited with your husband yesterday on your adjudication claim 29-2311A and determined that field verification is required this spring when the weather clears to determine the correct points of diversion under this license. We discussed that their probably wasn't a change in points of diversion only an incorrectly legal description but I feel this can be resolved this spring when I come out to verify the locations.

I wanted to also touch base with you on your adjudication claim 29-130 from Pebble Creek. This claim also appears to have a change in one of the points of diversion from the original decree. I will also need to determine if there was a change in the point of diversion or if it's an incorrect legal description. Once again if the point of diversion has change we will need to determine if it occurred prior to November of 1987. I think this can also be cleared up this spring. If you have any questions please feel free to contact me in Soda at 547-3993.

Sincerely,

REF: Snake River Basin Adjudication (SRBA)
Claim 29-2311A

Subject: Change in Point(s) of Diversion

Dear Lee,

IDWR's initial investigation of the Notice of Claim listed above indicates that there has been a change in point of diversion as described below:

Purpose of Use: Irrigation

New point(s) of diversion: SESE of section 26 AND NWNE of section 35
both within township 7 south, range 38 east.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without obtaining IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the change not result in injury to other water rights.

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and submit some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987. An information sheet is enclosed that describes the types of evidence that can be submitted for showing the date of the change. Acceptable evidence is listed in the "Evidence of Priority" brochure enclosed with this letter.

This office must receive your response by **April 4th, 2002**. If no response is received, then your claim to water for the new points of diversion will not be recommended to be decreed.
