REMARKS: The land described above is located within the Black Canyon Irrigation District and the construction contemplated hereunder is covered by contract between said Irrigation District and the Secretary of the Interior dated January 2, 1918.

The applicant claims that a large part of the water supply filed on under this application is water from Deer Flat Reservoir which seeps under the upper embankment of said reservoir and is recovered in the drains constructed for that purpose by the United States below said embankment and is claimed by the United States as stored water from said reservoir, and a part is water developed in the drainage system constructed by the United States. The United States does not abandon or relinquish any rights which it now has to said waters, but expressly declares its intention to retain and assert said rights and use said waters.

Renea and Nick:

We have reached an agreement between Black Canyon, NMID and BOR concerning the above-referenced right. The agreement is to add the following remark to the right:

"This water right shall not alter or abrogate any provision of contract executed by the United States or State law regarding Black Canyon Irrigation District's or Nampa & Meridian Irrigation District's rights and responsibilities to use and make available water developed in drains within their boundaries."

This remark will resolve NMID's objection to the right. If all other objections have been resolved, then please prepare the SF5 and begin circulating it for signatures. As always, please contact me should you have any questions.

Hi Everyone,

The only person that I heard back from in response to my e-mail below was Dave Gehlert who stated that he was out of the office on June 9th. As such, I have spoken with the Court and they have agreed to reschedule the date to July 28 and Diana stated that a trial date will be set at that time. The Court is issuing an order to reset the hearing and asked me to let you know that the June 9th time has been vacated. Thanks!
