13. Remarks:

Priority date description: I selected this priority date because this is the date of the drillers report for the existing well. However, i do have written documentation of water use on this property from the early 1900's. This property was Homesteaded around the turn of the century and has been constantly used ever since, however I believe that the original water source was a spring. Our property still had access to that spring until approximately 2004 when a neighbor disrupted our irrigation line from that spring. The spring water was only supplemental therefore it was chosen to not repair as the current well provides sufficient water to our home. I would like to record that use was established much earlier than 1999 but i don't have documentation other than a book that a previous resident wrote about growing up on the property in the 1940's 1970's. The book is entitled The Viola Stump Ranch
