REPORT OF ENGINEER

This proof is for Beneficial UseIn Water District No. 12-21. State name of applicant and number of permit: Donald S. Howell - Permit 150532. State source of water supply: Unnamed Stream, trib. to Indian Creek3. Location of point of diversion: NW 1/4 Sec. 15, T. 2 N., R. 1 W., S.M.

4. Describe works as they exist, giving dimensions and capacities of same: Fill 2 ft high top width 1 ft, 200 ft long. Litch 2 ft wide, 1/2 mile long, flume 2' wide 14 ft long, 1 ft deep across foot (Ramsey) Lateral with a 2 ft waste gate from flume into same

5. State whether or not water has been turned into works of diversion: yes

6. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): NE 1/4, NW 1/4 & SE 1/4 Sec. 15, T. 2 N., R. 1 W., S.M.

NE 1/4 SW 1/4 10 Acres
NW 1/4 " 33 "
SE 1/4 " 7 "
Total 50 acres.

7. Submit map on enclosed plat, showing location and details of above description.

8. How many parties conduct water in this system?

9. Give names and amount of each right:

10. What large stream would the water here appropriated finally reach?

11. Describe the various tributaries en route, from point of diversion to the principal drainage stream:

Remarks: This is sewage & surface water draining into a tule swamp from higher irrigated lands

Water License No. 15053
Water District No. 12-Q

Amount 1 sec. ft.
Priority 1-8-21

THIS IS TO CERTIFY that DONALD S. HOWELL
of Kuna, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 8, 1921; that Permit No. 15053
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
one second feet, was issued thereunder on May 11, 1921, showing that said works
were completed on the 10th day of May, 1921; and that on the 11th
day of June, 1921,

DONALD S. HOWELL
of Kuna, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of an unnamed
stream, a tributary of Indian Creek, for the purpose of irrigation
& domestic use under Use Permit No. 15053 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of
Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in
Volume 5 of Licenses, at page 2838, on the 22nd day of September, 1921;

The right hereby confirmed dates from January 8, 1921;

The Point of Diversion is located
in the NW 1/4 SE 1/4, Sec. 15, Tp. 2 N., R. 1 W. County of Ada

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not
exceed one cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
2 N.	1 W.	15	NE 1/4 SW 1/4	7	10
			SW 1/4 SW 1/4	33	33
			SE 1/4 SW 1/4	10	7

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of
use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
this 22nd day of September, 1921.

W. G. STEEDMAN.
Commissioner of Reclamation.

	)	
Case No. 39576	)	FINDINGS OF FACT AND
	)	CONCLUSIONS OF LAW
	)	
_____	)	FOR WATER RIGHT 63-02350A

A notice of claim was filed for the above-captioned water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

On April 21, 2006, the Boise-Kuna Irrigation District filed an objection to the *Director's Report*, seeking inclusion of a remark stating that the source of the water right is waste water. On March 25, 2008, the parties filed a *Standard Form 5 -- Stipulated Elements of a Water Right* which resolved the objection. The Idaho Department of Water Resources concurred with the stipulation.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water right 63-02350A be decreed with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*.

SUBCASE NO. 63-2350A

Case No. 39576

STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; and they have been served with sufficient process, according to the law; and that they have appeared, prosecuted and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by their signatures below and by initialing the attached pages.

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	) Subcase 63-02350A
	)
Case No. 39576	) ORDER TO SHOW CAUSE
	)
_____	) ORDER VACATING TRIAL

On September 19, 2007, a *Trial Scheduling Order* was issued in the above-captioned subcase, which included a pre-trial conference to be held on February 5, 2008. The *Trial Scheduling Order* was sent to Barbara Doan and David Doan (hereinafter "Claimants") via first class mail sent to their last known address. The Claimants failed to appear at the February 5, 2008, pretrial conference either in person or through counsel.

Due to the uncertainty of whether the Claimants intend to actively participate in defending their water right claim against the objection filed thereto by the Boise-Kuna Irrigation District, the trial in this matter previously scheduled to begin on February 20, 2008 at 1:30 PM is **vacated**.

It is **hereby ordered** that the Claimants shall appear before this Special Master on **February 20, 2008, at 1:30 P.M.** Mountain Time, at the Idaho Supreme Court Building, 451 West State Street, Boise, Idaho, or participate by telephone by dialing 1-225-383-1099 participation code 675342, to show cause regarding their failure to participate at the pre-trial conference. In the absence of a showing of good cause, and pursuant to I.R.C.P. 41(c), it will be the recommendation of this Special Master that the Claimants' water right be decreed by the SRBA Court with the elements of the right as set forth in the *Director's Report*, together with the following remark: **"The source of this water right is waste water. The wasting of water may be discontinued at anytime."**

Participation in the show cause hearing is **not mandatory** and failure to appear will not be considered contempt of court. **However, failure to appear will result in the Claimants being deemed to have consented to the inclusion of the above-quoted remark.** If the Claimants participate in the hearing and make a showing of good cause for their failure to appear at the pre-trial conference, a trial date will be reset.

Pursuant to I.R.C.P. 6(c)(2), the parties to this subcase are hereby notified that they may elect to produce testimony and evidence at the hearing, or to cross-examine the adverse party and/or the adverse party's affiants, by giving notice to the court and the adverse party at least twenty-four (24) hours before the hearing, such notice shall designate the person(s) sought to be cross-examined. In the event that such notice is given by any party, telephonic participation at the hearing will not be available, and the parties must appear in person.

A copy of this *Order to Show Cause* shall be served upon the Claimants not less than five (5) days prior to the date herein shown, upon which those parties are required to appear before this Special Master and show cause. Service of the *Order to Show Cause* shall be made in accordance with I.R.C.P. 5(b) and 6(c)(2).

IT IS SO ORDERED

Dated Feb. 8, 2008

Subject: FW: 63-2350A (Doan)

I checked the file on this one, and we have not received an ownership change. It appears that the last contact the department had was at the initial hearings and that it was a matter of agreeing on the waste water language.

Lori

Lori - would you make sure no change of ownership has come in on this one. It is one of Sandy's and would have required an NCAP. Thanks, Jan

Subject: 63-2350A (Doan)

He Jan. Have these folks (Barbara and David Doan) by any chance filed a change of ownership or otherwise contacted you regarding the waste water remark? They sent a letter to the court on October 31st explaining they were selling the property. Sm Booth responded with a letter the next day telling them to contact me and to file a change of ownership. Shelley Davis wants to know if they have followed up on that letter. They haven't contacted me, so I need to find out if they've contacted you either to talk about the waste water remark or to file a change of ownership. Thanks. NBS

RE: SRBA Subcase 63-2350A

Dear Mr. & Mrs. Doan:

The Court is in receipt of your correspondence file stamped October 31, 2007, a copy of which is attached here to. As you may be aware, the Objector (Boise-Kuna Irrigation District) and the Respondent (U.S. Bureau of Reclamation) are seeking the inclusion of a remark in the partial decree for the above-referenced water right which states: "The source of this water is waste water. The wasting of water may be discontinued at any time."

Regarding your statement that you "went before the judge and stated we understood the wastewater claims," my notes from the December 7, 2006, initial hearing indicate that you agreed in principle with the inclusion of a remark; however, at that time the objector, respondent, and IDWR were still struggling with the exact wording of the remark. If you are in agreement with the inclusion of the above-quoted language in the partial decree for this right, I suggest that you contact Deputy Attorney General Nick Spencer (IDWR) at 208-287-4813 to arrange the filing of settlement documents with the court. This subcase is currently set for trial and will proceed in that manner in the absence of the filing of settlement documents.

Regarding the sale of the property, you will need to file a change of ownership document with IDWR. Upon processing a change of ownership, IDWR will notify the court, and the new owner will be substituted as a party to the subcase. I have enclosed a change of ownership form. Until then, you will remain in the court's register of action as parties to the subcase.

Sincerely,

Theodore R. Booth
Special Master

TWIN FALLS CO., IDAHO
FILED

2007 SEP 19 PM 4 49

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA) Subcases 63-02350A and 63-26393
Case No. 39576)
) TRIAL SCHEDULING ORDER
)
) ORDER OF JOINT TRIAL

A Scheduling Conference was held on September 11, 2007. Pursuant to I.R.C.P. 42(a), and because there is a common question of fact regarding the origin of water in Indian Creek and/or an unnamed tributary thereto -- which is the source of water for both of the above-captioned water rights -- it is **ordered** that the trials in subcases 63-02350A and 63-26393 shall be held jointly. The following dates shall govern the conduct of these subcases through trial:

October 31, 2007	5:00 PM	Disclosure of Witnesses. Disclosure of all witnesses, except impeachment witnesses, shall be completed by this deadline. All non-disclosed witnesses, except impeachment witnesses, shall be excluded from testifying in the trial unless permitted by the Special Master in the interests of justice. I.R.C.P. 16(e)(6)(J).
December 14, 2007	5:00 PM	Discovery Served and Responses Completed. Deadline for completion of all discovery, meaning that all discovery is served and response is complete, including the taking of depositions of lay and expert witnesses, all interrogatories, request for production / inspections and admissions. Motions to compel should be filed accordingly so as to accommodate this deadline.
January 8, 2008	5:00 PM	Hearing on Motion for Summary Judgment. Motions for summary judgment shall be filed, notice for hearing, and actually heard by this deadline. The filing and service of the motion, affidavits, and briefing shall be conducted in compliance with

I.R.C.P. 56(c).

February 5, 2008 9:30 AM Final Pre-Trial Conference. Pursuant to I.R.C.P. 16, a final pre-trial conference will be held at the Snake River Basin Adjudication Courthouse, 253 3rd Avenue North, Twin Falls, Idaho. Parties may participate by telephone by dialing 225-383-1099 and when prompted entering the code 675342.

February 20, 2008 1:30 PM Trial. The trial be held at the Idaho Supreme Court Building, 451 West State Street, Boise, Idaho, in the lower-level conference room.

Dated September 19, 2007

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	)	Subcase No. 63-2350A
	)	
	)	
Case No. 39576	)	BOISE-KUNA IRRIGATION
	)	DISTRICT'S WITNESS
	)	DISCLOSURE
	)	
	)	

COMES NOW, the Boise-Kuna Irrigation District, by and through its counsel of record, Shelley M. Davis of the law firm Barker Rosholt & Simpson, LLP and hereby makes the following disclosure in conformance with this Court's order entered September 19, 2007.

The following individuals may testify at the trial of this matter:

- 1) Dan Sheirbon
Boise Project Board of Control
129 N. School Rd.
Kuna, ID 83634

Mr. Sheirbon is an employed as the Boise Project Board of Control Division 3 Watermaster. He is expected to testify to the location of the claimant's point of diversion and historical irrigation practice of the claimant.

- 2) Ben Gill
Boise Project Board of Control
129 N. School Rd.
Kuna, ID 83634

Mr. Gill is employed as the Boise Project Board of Control Division 3 Foreman. He is expected to testify to the maintenance obligations and practices on the canals owned and operated by the Boise Project Board of Control.

- 3) Terry M. Scanlan, P.E., P.G.
Jason Thompson, E.I.T.
SPF Water Engineering
600 E. River Park Lane, Ste. 105
Boise, ID 83706

Mr. Scanlan is a principal engineer with SPF Water Engineering. Mr. Thompson is an associate engineer with SPF Water Engineering. Mr. Scanlan and Mr. Thompson have made measurements in the unnamed stream prior to the expiration of the irrigation season, and have made additional measurements after irrigation water has stopped being delivered. Mr. Scanlan is expected to testify that after the irrigation season expired and water was no longer being delivered by the irrigation entities, no water flowed in the stream at the point of diversion identified by the claimant. The curriculum vitae of Mr. Scanlan and Mr. Thompson are attached.

- 4) Jerrold Gregg
Area Manager, Snake River Area Office
Bureau of Reclamation
230 Collins Road
Boise, ID 83702-4520

Mr. Gregg is expected to testify regarding the development and operations of the Boise Project, including the drainage systems.

Dated this 31st day of October, 2007

Certified Water Right Examiner
Idaho No. 05-129

Areas of Expertise

- Design, installation, and testing of high-capacity wells for irrigation, municipal, and industrial water supply
- Groundwater development studies
- Water rights

Experience Summary

Mr. Scanlan has more than 20 years of professional experience in water supply consulting as an engineer and hydrogeologist. He has particular expertise in water rights, well and pump design, public water systems, pressurized irrigation, and other water resource issues.

Mr. Scanlan's work experience has focused on well design and construction, surface water and ground water pump systems, aquifer and well testing, water development studies, and water rights. He also has experience in geothermal resource development, mining-related environmental studies, ground water drainage investigations, soils investigations, geologic mapping, and wastewater land application projects. He has served as Chairman of the Idaho Board of Registration for Professional Geologists. Mr. Scanlan is a Certified Water Right Examiner in Idaho.

SPF Water Engineering, LLC—2004 to present

Mr. Scanlan is currently a Principal Engineer with SPF Water Engineering, LLC. SPF Water Engineering, LLC, was formed from Scanlan Engineering in March 2004 to provide a wider range of water resource engineering services. Since joining SPF, Mr. Scanlan has continued his practice of water resource consulting and engineering, with additional emphasis on development of community water systems for subdivisions and planned communities in southwest Idaho.

Scanlan Engineering—1994 to 2004

Mr. Scanlan formed Scanlan Engineering in 1994 to provide engineering and hydrogeologic consulting to public and private clients. Scanlan Engineering provided water resource consulting services to more than 200 separate clients, primarily in southwest Idaho. Local clients included the City of Boise (Public Works Department, Parks Department), Micron Technology, J.R. Simplot Company, Capitol Water Corporation, United Water Idaho, Inc., Meridian School District, City of Eagle, Sorrento Lactalis, City of Nampa, Boise State University, Ada County Highway District, and the Idaho Water Resources Research Institute. Mr. Scanlan has served as a subconsultant on water supply projects for numerous engineering firms in Idaho, most recently including Montgomery Watson Harza, Toothman-Orton Engineering Company, Entranco, Secesh Engineering, Materials Testing, Inc., and Civil Survey Consultants.

Montgomery Watson—1986 to 1993

Prior to forming Scanlan Engineering in 1994, Mr. Scanlan worked as a supervising hydrogeologist for Montgomery Watson in Boise, Idaho. He

managed and conducted investigations related to ground water development and ground water contamination at locations throughout the western United States.

U.S. Geological Survey--1984 to 1986

Mr. Scanlan was employed by the U.S. Geological Survey as a field assistant in the geologic division prior to joining Montgomery Watson in 1986. Responsibilities included geologic mapping, landslide hazard evaluation, and mineral potential studies. Mr. Scanlan worked on the Challis and Hailey 2° Quadrangle CUSMAP programs.

Relevant Water Supply Project Experience

- Ground water development projects at more than 100 sites in Idaho for public and private water utilities, subdivisions, schools, and industries, including production well and pump design, aquifer pumping tests, exploration drilling programs, and ground water development studies.
- Design, construction monitoring, and testing of four 1,000- to 1,200-foot, high-capacity, industrial water supply wells and pump systems for Micron Technology in Boise, Idaho.
- Lead consultant to Micron Technology for the Boise River water supply and aquifer recharge project. Mr. Scanlan provided consulting services involving water rights, a nominal 25,000-gpm pump station, 3 miles of 24-inch and 30-inch pipeline, an ultra-filtration membrane water treatment system, and a nominal 4-MGD injection well for recharge purposes.
- Irrigation well and pump system design, surface water pump system design, construction monitoring, and well testing at municipal parks in Boise, Idaho. These projects included work on approximately 80 well and pump systems, including design and construction of more than 20 well or surface water pumping systems.
- Design, permitting, and construction inspection of well pump systems and well houses for Capitol Water Corporation in Boise, Idaho. Mr. Scanlan also provided consulting services related to ASR and water rights.
- Design, construction, and testing of salt water production wells for large-scale aquarium projects in Guam and Taiwan.
- Evaluation of ground water potential for snowmaking supplies at Sun Valley and Bogus Basin ski areas and design and testing of the water supply well for the snowmaking system at Sun Valley.
- Evaluation and testing of infiltration galleries and Ranney Collectors at Sequim, Washington (horizontal gallery, Dungeness River), Irrigon, Oregon (four Ranney Collectors, Columbia River), and Boise, Idaho (three Ranney Collectors, Boise River).
- Ground water development studies, well construction, and aquifer testing for fish hatchery projects in the Columbia, Umatilla,

Walla Walla, Imnaha, and Grand Ronde river basins of Oregon for the Bonneville Power Administration. These projects included test well drilling and aquifer tests at ten locations, with well construction in alluvial and basalt aquifers.

- Production well design and testing at the Upper Pahsimeroi Fish Hatchery for Idaho Power Company.
- Design of the domestic supply, mine-pit dewatering, and industrial supply wells for the Beartrack mining project at Leesburg, Idaho.
- Resident geologist during drilling and completion of a 3,015-foot water supply well at Wright, Wyoming.
- Water master plan for the 3600-acre City of Boise Twentymile South Farm. The master plan included reconfiguration of water rights, development of additional irrigated lands, design of two large-capacity irrigation wells, and design of a 500-hp variable deep well turbine pump system.

Relevant Water Rights Experience

- Preparation of hundreds of water right applications (transfers, amendments, permits, claims) for public and private clients in Idaho. Since 2004, Mr. Scanlan and SPF staff have been involved in more than 150 projects involving water rights for more than 100 different clients.
- Evaluation of surface water and ground water interactions, well interference, irrigation development, and consumptive water use related to water right transfers in the Boise Valley, Wood River Valley, Mud Lake, Magic Valley, Big Lost River, and Little Lost River areas of Idaho.
- Evaluation and measurement of flow from springs involved in water right disputes along the Snake River near Twin Falls, Idaho.
- Investigations related to Snake River Basin Adjudication claims, including calculation of irrigation requirements and seepage losses, measurement of irrigation diversion rates, and determination of historically irrigated areas.
- Expert witness testimony regarding water use, well interference, and the interaction of surface water and ground water for numerous clients in southern and central Idaho.
- Evaluation of irrigation diversions, natural flow, return flow, and storage accounting on the Payette River system for the Payette Water Users Association.
- Evaluation of Federal and Tribal in-stream flow and spring claims in the Snake and Salmon River Basins.
- Preparation of mitigation plans to allow ground water diversions for irrigation and industrial use in moratorium areas or ground water management areas in the Boise and Snake River Basins.

Relevant Geothermal Resource Development Experience

- Construction monitoring for drilling and hydraulic fracturing of a 2,300-foot geothermal injection well for the Veterans Administration Medical Center in Boise, Idaho.
- Project manager for detailed study of the Boise Front Geothermal Aquifer for the city of Boise and Boise Warm Springs Water District. The study included computer modeling of hydraulic and thermal impacts of increased geothermal fluid production and spent fluid injection. Mr. Scanlan served as project manager for design, construction, and testing of a 3,200-foot geothermal injection well for the city.
- Aquifer testing and high-capacity variable-speed pump system design for deep geothermal space-heating wells at the College of Southern Idaho.
- Geothermal aquifer investigations, well testing, production well and pump design, and water level monitoring for J.R. Simplot Company at aquaculture facilities in Caldwell and Grand View, Idaho.

- Oversight of pump and well testing

Experience Summary

Mr. Thompson is a Water Resources/Environmental Engineer with over 6 years of educational and professional experience relating to water resource engineering. Currently, Mr. Thompson is employed as an associate engineer (EIT) for SPF Water Engineering, LLC. His duties include investigating water rights, assisting in water supply assessments, preparing reports related to well engineering and construction, and various field work. Mr. Thompson is also a trained geographic information system (GIS) and CAD technician. Prior to working at SPF Water Engineering, Mr. Thompson worked as a consulting engineer specializing in NEPA studies related to water resources, water rights evaluations, surface hydrologic modeling, storm water detention pond design, mine tailings repository design, and natural channel design. He also has two years of experience performing field studies related to aquatic and riparian habitat assessment, botanical surveys, stream classification, hydrology, and surveying. His educational background is in environmental engineering with an emphasis in water/wastewater treatment, surface water quality, and natural systems engineering. He has also taken classes in groundwater, hydrology, hydrologic/hydraulic modeling, and watershed restoration. His undergraduate education focused on biology, with an emphasis in botany and microbiology.

SPF Water Engineering, LLC—Oct 2005 to present

Mr. Thompson is currently an associate engineer (EIT) for SPF Water Engineering, LLC. His duties include investigating existing water rights, facilitating water rights transfers, assisting in water supply assessments for proposed water systems, and preparing well site evaluations and well completion reports. Mr. Thompson also performs field work, including ground water quality sampling, ground water level monitoring, surface flow measurements, and the oversight of pump and well testing. Mr. Thompson also applies GIS technology to produce maps for various projects.

Science Applications International Corporation – Feb 2004 to Oct 2005

At SAIC, Mr. Thompson wrote the water resources section in a NEPA study for a large highway project in Washington. He also performed several water rights evaluations for the state of Washington, identifying source waters for proposed ground water withdrawals. Mr. Thompson also conducted surface hydrologic modeling for several projects, including the design of two storm water detention ponds. As part of two large mine tailings removal projects, Mr. Thompson assisted in the design of on-site mine tailings repositories and a natural channel restoration design. As part of a water quality and storm water assessment at an abandoned industrial site, Mr. Thompson was responsible for assimilating and analyzing collected chemical sampling data. The data was incorporated into an

Access database for data retrieval and analysis, and a GIS framework was developed to visually display sampling locations and selected attributes.

Utah State University, Graduate Researcher – Jan 2002 to June 2002

As a graduate student working on his Master's thesis, Mr. Thompson developed an aquatic and riparian habitat assessment methodology for identifying degraded sections of the Santa Clara River in southwest Utah. The field work component of this project required identification and evaluation of mesohabitat types, the riparian community, instream cover components, channel bed substrate, and bank stability. Data analysis involved the development of a streamflow impairment procedure relating measured existing flow conditions with a theoretical flow representative of natural flow conditions as well as a methodology for assessing the potential deleterious effects of water temperature on the native fish community. This habitat assessment also required spatial analyses of different land use classifications within the Santa Clara River floodplain using GIS as well as aerial photograph interpretation.

Utah State University, Field Crew Member – July 2000 to Nov 2000

Mr. Thompson worked as a field crew member performing hydrologic, bathymetric, and water quality studies on the Nooksack River in northwest Washington. This field work involved establishing and downloading thermographs for water temperature monitoring, measuring discharge, operating a motorized inflatable boat and associated sonar equipment, taking water quality measurements using field kits, collecting invertebrate samples using different accepted techniques, and performing surveys using both a Total Station and survey-grade GPS equipment. Experience was also obtained on salmonid identification and habitat evaluation.

USDA Agricultural Research Service – May 1998 to Aug 1998

Mr. Thompson conducted a comprehensive literature review regarding riparian and stream restoration techniques for incorporation into a BLM Riparian Knowledgebase to assist land managers in performing applicable restoration efforts. He obtained a comprehensive knowledge of existing restoration techniques, including determination of appropriate methods taking into account site-specific characteristics and effective monitoring procedures.

USDA Bureau of Land Management – May to Aug 1996, 1997

As a student intern for the Bureau of Land Management, Mr. Thompson conducted rare plant surveys in the Owyhee Desert of southwest Idaho. This work required plant identification, four-wheel drive vehicle operation, and a familiarity with the use of topographic maps. This internship also involved the classification of natural stream types using the Rosgen Classification utilizing the appropriate field techniques. This internship also provided Mr. Thompson with the opportunity to evaluate the functioning condition of riparian areas, taking into account vegetation structure, bank stability, and disturbance.

Name: Barbara A. and David Lee Doan
Address: 2535 Ardell Rd.
Kuna ID. 83634

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**

Should be: _____

2. ☒ **Source**

Should be: The source should be described as waste waters, and waste waters belong to the Boise-Kuna Irrigation District.

3. ☐ **Quantity**

Should be: _____

4. ☐ **Priority Date**

Should be: _____

5. ☐ **Point of Diversion**

Should be: _____

6. ☐ **Instream Flow Beginning and Ending Point**

Should be: _____

7. ☐ **Purpose(s) of Use**

Should be: _____

8. ☐ **Period of Year**

Should be: _____

9. ☐ **Place of Use**

Should be: _____

10 ☐ **I object because:**

☒ This water right Should not exist.

☐ This water right was not recommended, but Should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S): There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Boise-Kuna Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Boise-Kuna Irrigation District.

F. VERIFICATION (must be completed)

State of Idaho) ss.

County of Ada)

Shelley M. Davis, duly sworn, upon oath, deposes and says:
(Name of person filing objection)

That I am the party/claimant filing this objection, as defined by I.C. §§ 42-1401A(1) and(6) or that I am the attorney for the party/claimant objecting and that I have read this objection, know its contents and believe that the statements are true to the best of my knowledge.

(Signature of person filing objection)

(Attorney signing in representative capacity)

Subscribed and sworn to before me on: April 19, 2001

Notary Public for Lepanto
Residing at: Ada County, Idaho
My Commission Expires: 12/08

INSTRUCTIONS FOR MAILING

You must mail the objection, to the Clerk of the court. **FAX filings will not be accepted.** You must also send a copy to all the parties listed below in the Certificate of Mailing.

G. CERTIFICATE OF MAILING

I certify that on April 20, 2006 I mailed the original and copies of this objection, including all attachments, to the following persons:

1. Original to:

Clerk of the District court
Snake River Basin Adjudication
253 Third Avenue North
PO Box 2707
Twin Falls, ID 83303-2707

2. One copy to the claimant of the water right at the following address:

Name: Barbara A. and David Lee Doan
Address: 2535 Ardell Rd.
Kuna, ID 83634

3. Copies to:

IDWR Document Depository
PO Box 83720
Boise, ID 83720-0098

United States Department of Justice
Environment & Nat'l Resources Div
550 W Fort Street, MSC 033
Boise, ID 83724

Chief, Natural Resources Division
Office of Attorney General
PO Box 44449
Boise, ID 83711-4449

Signature of objector or attorney
mailing on Objector's behalf

NOTICE OF ERROR
REPLY

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: July 15, 2005
