Jan,
It looks good.
I didn't catch the suffix "B" on 02-2027. It should have been there. I will check and be sure we have it on the partial decree: 02-2027B.
Thanks,
Jerry

Hi Ted & Jerry,

Attached are copies of the above listed Reynolds Irrigation District rights that we spoke about. They reflect the changes to the quantity remarks showing the hashed through remark that was omitted and the underlined remark reworded. I also added the B suffix to the combined use condition concerning 2-2027. The current number for the Reynolds Irrigation District's portion is 2-2207B.

It is my understanding that these changes will be made to the recommendations prior to partial decree without resending the Standard Form 5 around again. If either of you see a problem with these recommendations, please feel free to contact me. Thank you for your discussions on these changes.

Conversation w/Ted Booth on 1-29-09

#1 – Reynolds ID rights 63-359, 306 & 2420 – Question is that there is a condition that states: The rate of diversion shall not at anytime exceed the rate of injection. The rate of diversion shall be limited to a maximum of 31.28 cfs. The water rights add up to 57.56 cfs for non-Snake River rights, yet the rate of diversion out of the Snake River (these are injected into the Snake and then rediverted) cannot exceed 31.28 cfs. Ted is wondering why.

#2 – The condition limiting the water rights when combined show 02-2027, 306, 2420 & 359 – problem is that 02-2027 has been split for sometime into 02-2027KA & B – Ted wonders which one to sue.

#3 – There is a typo of acres in one of these rights.

#4 – United Water – Need to look at Carter's language in the City of Caldwell to see if we want to incorporate the same point of diversion language in these. Also, the one water right that is supposed to have 30+ points of diversion only lists 1 point. Need to fix and send in as an SF5.

#5 – The remark concerning the priority of the original point of diversion under those rights has the wrong legal description on it. 3 of them.

#6 cannot remember. Will try tomorrow.

Lexington Hills vs HOA – If the developers put in a meas. Device, then possibly the HOA will not object to their transfer when they go to sell the rights they retained. This is why they have asked for an extension of time to file a motion to alter or amend the trial's decision.

Craig Whitted – Will be doing a mediation meeting with a Judge in Boise to try and mediate out of the attorney fees where if Craig agrees to give an easement to Smith, then Smith will not collect the attorney fees ordered now. They have filed a motion to alter or amend.

Re: Reynolds Irrigation District Claim Nos. 63-306, 63-359 and 63-2420

Dear Mr. Spencer and Special Master Booth:

The Claimant of the water rights identified by the numbers listed above, Reynolds Irrigation District, the Objectors, Boise-Kuna Irrigation District and participants, the Bureau of Reclamation, have agreed to resolve the objections of BKID by the inclusion of the following remark in the partial decrees issued for water right nos. 63-306, 63-359 and 63-2420:

"The source of this right lies within the boundaries of the Boise-Kuna Irrigation District. To the extent any waste waters of the Boise-Kuna Irrigation District enter the irrigation system of the Reynolds Irrigation District, the continued provision of those waste waters may be discontinued at any time."

The Claimant, Objector and Participant request that the Department prepare a Standard Form 5 encompassing the agreement of the parties and circulate it among the parties for signature. The Claimant, Objector and Participant agree by their signatures in this letter, that the inclusion of the remark set forth above in the final partial decree will resolve this matter, and furthermore, request that the court vacate the status conference currently set for December 9, 2008. Thank you for your assistance in this matter.

OF WATER RIGHT NUMBERS 63-0306, 63-0359)
AND 63-2420 IN THE NAME OF REYNOLDS)
IRRIGATION DISTRICT)

ORDER

WHEREAS, on February 21, 1984, Reynolds Irrigation District filed an Application for Transfer with the Department of Water Resources to add a point of injection into the Snake River and to add a point of redirection from the Snake River to the above referenced water rights; and,

WHEREAS, the summation of the diversion rates of these three water rights, is 57.56 cubic feet per second; and,

WHEREAS, water diverted under the three water rights has, since their development, been carried across the Snake River by a common pipeline; and,

WHEREAS, the capacity of that pipeline was measured by the Department to be 31.28 cubic feet per second on August 3, 1982; and,

WHEREAS, the total actual development of these three water rights is limited to the capacity of the pipeline; and,

WHEREAS, the transfer will meet the requirements of Section 42-222, Idaho Code if the redirection rate is limited to the pipeline capacity;

IT IS, THEREFORE, HEREBY ORDERED, that the application for transfer of water right numbers 63-0306, 63-0359 and 63-2420 is APPROVED subject to the following conditions:

1. The rate of redirection shall not at any time exceed the rate of injection.

2. The rate of redirection shall be limited to a maximum of 31.28 cubic feet per second.

3. Measuring devices of a type approved by the Department shall be installed and maintained at the points of diversion, injection and redirection. These measuring devices

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information

- a. Amount of water to be diverted 57.56 c.f.s. &/or _____ acre feet

Description of diverting works:

Headgates and ditches will still divert and carry well, drain ditch and Warm Springs Creek water, but will dump this water into the Snake River on the Canyon County side. The District will then use it's Snake River pumping plant located on the Owyhee County side to divert a like amount of water into it's irrigation system.

Describe the reasons for the proposed changes:

By dumping water and pumping, the District will eliminate a pipeline across the Snake River and thus reduce maintenance costs. The pipeline has a capacity of approximately 34 cfs; the Snake River pumping plant will also pump only the 34 cfs that could be delivered by the pipeline.

2. Change in point of diversion

Point of diversion NW ¼ NW ¼, Section 10 Township 1S
Range 2W, B.M., Canyon County

Additional points SWSE, SESE Sec 3 and SWNE, NENE Sec 9 T1S R2W
Snake River Diversion Lot 5 (NENW) Sec 17 T1S R2W

3. Change in place of use no change

- a. Are there liens, mortgages, or contracts on the lands from which you propose to transfer the water right which limit your authority to make the proposed change? Yes _____ No x _____. If yes, provide a statement agreeing to the proposed change from the holder of the lien, mortgage or contract.
- b. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer

c. Describe the land and place of use to which the right will be transferred:

[illegible]

Total number of acres to be irrigated _____

4. Describe any other water rights used for the same purpose as described above. 02-2027B,
02-0054
5. Draw a map indicating the new point(s) of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township and range number.

SCALE: 2 inches equal 1 mile. Draw plan in ink.

D. REMARKS

_____ hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

ORDER

WHEREAS, on February 21, 1984, Reynolds Irrigation District filed an Application for Transfer with the Department of Water Resources to add a point of injection into the Snake River and to add a point of rediversion from the Snake River to the above referenced water rights; and,

WHEREAS, the summation of the diversion rates of these three water rights, is 57.56 cubic feet per second; and,

WHEREAS, water diverted under the three water rights has, since their development, been carried across the Snake River by a common pipeline; and,

WHEREAS, the capacity of that pipeline was measured by the Department to be 31.28 cubic feet per second on August 3, 1982; and,

WHEREAS, the total actual development of these three water rights is limited to the capacity of the pipeline; and,

WHEREAS, the transfer will meet the requirements of Section 42-222, Idaho Code if the rediversion rate is limited to the pipeline capacity;

IT IS, THEREFORE, HEREBY ORDERED, that the application for transfer of water right numbers 63-0306, 63-0359 and 63-2420 is APPROVED subject to the following conditions:

1. The rate of rediversion shall not at any time exceed the rate of injection.
2. The rate of rediversion shall be limited to a maximum of 31.28 cubic feet per second.
3. Measuring devices of a type approved by the Department shall be installed and maintained at the points of diversion, injection and rediversion. These measuring devices
