RE: Well for Justin Williams located in Chesterfield

On October 30, 2002 Pumpco tested the well for Justin. This process incorporated the use of an orifice pipe to measure water flow, a choke valve to establish pressure, and a depth gauge to measure water level. This system was utilized to simulate a pressurized system.

Synopsis:

225 GPM @ 70 PSI with a pumping level of 120 ft.
250 GPM @ 60 PSI with a pumping level of 135 ft.

Thanks,

Matt Nielsen
Pumpco

Computer-generated Copies of Notices of Claim #29-72B, 29-225 and 29-2455

HERMESE H. CRUMP
29-72B, 29-225 and 29-2455
Narrative by Cindy Bird
June 21, 2002

Photo 1. Diversion on Joe Willey Creek.

Photo 2. Diversion on Twenty-four mile creek.

Monday June 17th I met with Nyles Crump, Hermese's son, to discuss her water rights. Nyles operated a portion of the property for 15 years. The property is currently on the market and is not being farmed.

The water rights decreed on the property from the Union Grain and Elevator Decree are from Twenty-four Mile creek and Joe Willey creek. Joe Willey Creek is tributary to Twenty-four Mile Creek. Over the years water has been exchanged from Joe Willey Creek to Twenty-four Mile Creek.

Photo 1 was taken looking in a southwesterly direction at Joe Willey creek and the Crump's diversion. The water would enter the ditch at this diversion and go north and flood the property or it can continue down the stream along the road and flow into Twenty-four mile creek. The Joe Willey exchange water would be diverted in the SENE of section 28.

Photo 2 was taken looking southwesterly at diversion graveyard for the Twenty-four mile diversion. They use to pump it out of the creek and irrigate the property east of the creek in section 28. No pump was in place at the time of my visit.

PROFILED

Photo 3. The ground water diversion.

Photo 3 was taken looking east at the old ground water system. The 50-horse pump is still setting on the concrete pad as shown in photo 3. Nyle's brother operated the property west of Twenty-four mile creek. According to Nyles they quit using the well in 1979 because the amount of water they got from the well wasn't being offset by the power costs. His brother moved out of the area in 1989

On June 14th I requested power records from Nyles on the well to determine when the well was last used but because the meter was removed no records are available. According to Nyles the ground water system hasn't been operated since 1979 it has been abandoned or forfeited and I'm recommending the claim be disallowed.

The point of diversion listed in the NWNW of section 22 washed out in 1980 and hasn't been since that time. The only point of diversion used out of Twenty-four mile since 1980 is the point of diversion in the SENE of section 28, township 6 south, range 39 east. This is also the same point of diversion used for the Joe Willey exchange water.

Claim 29-72B is decreed Twenty-four mile creek. It has been over claimed in the SRBA and will be adjusted to match the decree.

To: Bird, Cindy
Subject: RE: Hermese Crump rights

Cindy there is no remark for resumption of the right. However, your recommendation should be based on the extent of beneficial use. Unless there is a an irrigation system in place that uses the well there is no beneficial use. If the system is present and covers 240 acres then recommend 240 acres with the reduced rate.
Ernie

-----Original Message-----

Cc: McHugh, Candice
Subject: Hermese Crump rights

Ernie,

We have had several discussions about the Hermese Crump rights (now Justin Williams). The particular discussion was on the well under license 29-2455 that had not been used since the 70's. During our discussions you said if he could get the system working before the preliminary report we could make a favorable recommendation to the court. Well he did.

He finally got power to the well and the pump company tested the well. Justin sent me a copy of the results. If you average the two possible flows it would be 0.53 cfs. This is less than a 1/3 of the original license. The license describes 240 acres in the POU for 1.86 cfs (less than an inch per acre). They claimed the same 240 acres in the SRBA. Should I recommend the same 240 acres with the new flow or decrease it proportionally? Is there a particular Remark or Condition that needs to be added for him to resume this right?

Thanks,
Cindy

11/8/02 Resumed use of the well by Justin Williams.

Discharge rate:

$$225 \text{ gpm} * 0.00223 = 0.502 \text{ cfs}$$

$$250 \text{ gpm} * 0.00223 = 0.5575 \text{ cfs}$$

Average: 237.5 gpm

Discharge rate:

$$237.5 \text{ gpm} * 0.00223 = 0.5296$$

Irrigated acres: Based on Average discharge rate.

$$\frac{0.53}{0.02} = 26.5 \text{ acres}$$

During my discussions with Ernie Carlsen he said if Justin resumed use of this well before the preliminary directors report, we could make a favorable recommendation to the court.

SCANNED

6/14/02 - requested power records from Niles Crump.

6/17/02 - Niles Brother operated this area of the farm.

He moved out of the Valley in 1988/89. He abandoned
(or forfeited)
the well in 1979 because they didn't get enough
water from the well to offset the power bill.

According to Niles, they can't get power records because
the meter has been pulled because it hasn't been used
and their records don't go back that far.

I recommending this claim be disallowed under
P04 Forfeited/abandoned from 1979 to current.

LICENSE OF WATER RIGHT

License of Water Right No. 30219/29-2455 Priority Sept. 29, 1961 Amount 1.86 cfs
(late proof)

THIS IS TO CERTIFY, that Herman P. Hatch & Hermese Hatch Crump
of Bancroft, Idaho have, ~~xxx~~ complied with the terms and conditions of Permit
No. 30219/29-2455 issued pursuant to Application for Permit dated September 28, 1961,
and has submitted proof to the Department of Water Administration on October 7, 1966,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 1.86 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:

Amount 1.86 cfs for irrigation from April 1 to Nov. 1 (both dates inclusive)
Amount _____ for _____ from _____ to _____ (both dates inclusive)
Amount _____ for _____ from _____ to _____ (both dates inclusive)
Subject, however, to the condition that no more than 1.86 cfs of water be diverted at
any one time, said waters to be diverted within the _____

SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 28, Twp. 6 S, Rge. 39 E, B.M.

in the county of Caribou; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 720 acre feet per year or _____
3.0 acre feet per acre.

Description and location of place of use:

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of the State of Idaho

Application No. G- 38252
Permit No. G- 30219
District No.

1. Name of Applicant: Herman P. Hatch and Hermese Hatch Crump
Postoffice address: Bancroft County: Caribou State: Idaho
2. Quantity of water claimed: 4.8 c.f.s.
 - (a) Rate of withdrawal in cubic feet per second or Idaho
Miners' inches or gallons per minute
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 28
Twp. 6 S , Rge. 39 E , B.M., County of Caribou
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Pipeline and sprinkler system
8. Estimated cost of works: \$ 10,000.00
9. (a) Is reservoir to be used? no
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is five years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:
160 inches of water, with late priority date - such water, in recent years having in fact been unavailable to this land
 - (a) 4.8 cfs (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

s/ Herman P. Hatch
s/ Hermese Hatch Crump Applicant.

By Agent.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.
