Subject: Using the new domestic well

Dear Gary,

I missed you today and I wanted to get back to you on your question about using your new domestic well for irrigation to bring the diversion rate up to your water right. Caribou County has a drought declaration in place so you can file an emergency transfer in Idaho Falls to add the well as a point of diversion. That would always allow you to use it this year only. If you want to make it a permanent point of diversion you will need to go to Idaho Falls and file a permanent transfer after the objection period on the basin 29 rights. Also, if the new wells are in different quarter-quarters you will need to also correct that with a transfer since it was done after 1987.

If you have any further questions, please feel free to call me at 547-3993.

Respectfully,

Cindy E. Bird

NOTICE OF UNAUTHORIZED WELL USE

Dear Mr. Hatch,

On June 24, 2002, the Idaho Department of Water Resources inspected a well located in $\frac{1}{4}$ SW, $\frac{1}{4}$ SE, Sec. 34, T.6S, R.39E that appears to be under your ownership and operation. A copy of our field inspection report and a map with the well identified as 29-Illegal-3 is enclosed for your review.

The results of our field inspection show the well is used for injection of agricultural runoff water through open slots in the surface casing of the well. Injection of surface water into a well greater than 18 feet deep is prohibited without an injection well permit under Rules and Minimum Standards for Use and Construct of an Injection Well, IDAPA 37.03.03. Analytical results from water quality samples collected at the pond show the water contains total coliform and e-coli bacteria concentrations that exceed water quality standards at the point of inject under Rules and Minimum Standards for Use and Construct of an Injection Well, IDAPA 37.03.03. The well must be abandoned or constructed in a manor for production purposes that meets Well Construction Standards Rules, IDAPA 37.03.09.

Please contact me within 30 days by telephone at (208) 327-7885 or at the address listed above to discuss a resolution to this situation. At this time, we are seeking your cooperation in this matter before pursuing a Notice of Violation enforcement action.

Sincerely,

Chris Duncan, UIC Program

Notes

12/3/02 on 11/22/02 Gary came into the office in Soda Springs and said they don't irrigate the land in SW 1/4 of section 33 because it's naturally swampy. They irrigate the land in L-2, section 3 and the land in the NW 1/4 of section 3.

Gary thought that had been done when he filed the claims. (Changing the acreage around.)

I explained to Gary that claim 29-10136 might not be necessary because if they changed the irrigated acres prior to 1987 and have been irrigating it. They probably would need the additional B.U. claim.
