RE: Snake River Basin Adjudication (SRBA)
Bannock County - #A29-02506

Dear Mr. & Mrs. Nielsen:

We are returning your Notice of Claim to a Water Right filed for your property in Bannock County. We have noted some problems with your claim which we would like you to correct.

At Item 10, the sum of the irrigated acres which you have individually identified is 221.47; however, you have listed the total number of acres irrigated as 215, and your application fee of \$265.00 covers only the irrigation of 215 acres. If you wish to claim only 215 acres of irrigation, please correct the acres in the specific quarter-quarter(s) where fewer acres should be claimed. If, however, you wish to claim 221.47 acres, you must change the total number of acres irrigated from 215 to 221.47 and pay an additional \$7.00.

Please return the documents to this office to my attention. If you will make these corrections before December 27, you will not be assessed a late filing fee. Do not hesitate to contact this office if you have any questions or concerns.

Sincerely,

John D. Carlson

RE: Notice of Claim in the Snake River Basin Adjudication
Bannock County

Dear Mr. and Mrs. Nielsen:

We are returning the Notice of Claim you filed in the Snake River Basin Adjudication because we have noted some inconsistencies that need clarification.

At Item 6, you have entered for "Barn (Dairy)" purposes; however, you did not indicate an amount of water for this purpose. Since you entered stockwater separately, it would appear that the dairy barn purpose is not for water the cows drink, but for water used in connection with the milking operation. If this is the case, an additional variable fee of \$100.00 per cfs claimed will be required.

At Item 7, a total quantity claimed in cubic feet per second (cfs) must be entered.

At Item 8, the amount you have listed for consumptive use for your water right may be inaccurate. Using the chart in the Instruction booklet (page 15), and based on your legal description, the Department suggests 2.5 acre feet per annum. You are claiming 215 acres of irrigated land; therefore your suggested consumptive use would be 537.5 acre feet per annum. If this does not agree with your actual usage, please explain at Item #14, "Remarks".

At Item 9, the acres entered in the quarter-quarter sections add up to 221.47 acres; however, you have entered 215 acres as the total number of acres irrigated. The sum of the acres claimed in each of the quarter-quarter sections should equal the total number of acres irrigated. Also, you have not indicated the place of use by the quarter-quarter section(s) for the stockwater and dairy barn uses.

You have attached copies of Water Right Licenses 29-2500 and 29-2506 with a reference to Item 13, other water rights used. You have indicated water right 29-2506 as the basis of the claim submitted. If you wish to have Water Right 29-2500 reported to the court, you will need to submit a Notice of Claim for that right with the appropriate filing fee.

If these documents are returned by July 6, 1990, late fees will not be assessed. If you have any questions, please contact this office.
