NOTICE OF ERROR
REPLY

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: April 21, 2003

Water right number: 29-2538

WILLIAM JEAN TREASURE
2888 CHESTERFIELD RD
BANCROFT ID 83217
Telephone Number: (208) 648-7897

MARY ALENE TREASURE
2888 CHESTERFIELD RD
BANCROFT ID 83217
Telephone Number: (208) 648-7897

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

2. Describe the changes you wish to make in the proposed recommendation:

3. Give a brief explanation as to why you disagree with these portions:

☒ I AGREE with this proposed recommendation: no changes need to be made.

DATE: 3 14 03

SIGNATURE: William Jean Treasure

NOTICE OF UNAUTHORIZED WELL USE

Dear Mr. Killinger,

On June 24, 2002, the Idaho Department of Water Resources inspected a well located in $\frac{1}{4}$ NE, $\frac{1}{4}$ SW, Sec. 33, T.6S, R.39E that appears to be under your ownership and operation. A copy of our field inspection report and a map with the well identified as 29-Illegal-2 is enclosed for your review.

The results of our field inspection show the well is used for injection of agricultural canal water through open slots in the surface casing of the well. Injection of surface water into a well greater than 18 feet deep is prohibited without an injection well permit under Rules and Minimum Standards for Use and Construct of an Injection Well, IDAPA 37.03.03. Analytical results of water quality samples collected at the well head show the injected water contains total coliform and fecal coliform concentrations that exceed water quality standards at the point of inject under Rules and Minimum Standards for Use and Construct of an Injection Well, IDAPA 37.03.03. The well must be abandoned or constructed in a manor for production purposes that meets Well Construction Standards Rules, IDAPA 37.03.09.

Please contact me within 30 days by telephone at (208) 327-7885 or at the address listed above to discuss a resolution to this situation. At this time, we are seeking your cooperation in this matter before pursuing a Notice of Violation enforcement action.

Sincerely,

Chris Duncan, UIC Program

SCANNED

FEB 23 2006

7/12/02. 2pm. Meeting in Soda Springs with Jean Treasure.

I informed Jean that he had 30-45 days to move the pond away from the well and seal the well casing. I also let him know that Dennis would be out to check it.

Jean said the land in the HWHW is dry farmed. Only the part indicated on the map is irrigated.

Jean thought what they could do is take the 30 hp pump off the well and put a smaller pump on the well. ^{then} put the G.W. in the pond with a smaller pump and then pump the water from the pond with the 30 hp pump to the sprinkler lines.

I also explained to Jean that 7 acres his license 29-2538 in the HWSW of Sec 33 is owned by the cemetery and at some point when they need to put it into service they will need to split off from this license / decree 29-73C.

7/14/02 Ralph Killinger called and I explained to him that this well must be fixed. They have 30-45 days to make the necessary repairs.

Subject: RE: William Jean Treasure

Cindy,

I received lab results for William Treasure. They are 3580 colonies/100 ml Total Coliform Bacteria and 600 colonies/100 ml Fecal Bacteria. These levels should be zero for Drinking Water and are too high. Again, we will not issue a notice of violation if Mr. Treasure will correct the problem in a timely fashion. I agree with Dennis, Mr. Treasure should seal up the casing and stop injecting water as soon as possible, and problem should be permanently corrected within the next 30-days or so. This is for his own benefit, there is a risk that the injection well is contaminating his drinking water well.

Thanks for help in taking on with this matter. Call me this afternoon if you need more information (208) 327-7885.

Chris D.

Chris,

Mr. Treasure has an appointment this afternoon with me. Your phone was busy this morning so I called Dennis and he told me to have him seal the casing and move the pond away from the well. He said he would come out and check it in about a month. So, I will let Mr. Treasure know that today. If you have any other thoughts before my 2 pm meeting please let me know.

Thanks,
Cindy

Subject: RE: William Jean Treasure

Cindy,

I still have not received water results from the lab, but we are going to take action regardless of the lab results, under operating an illegal injection well and illegal well construction. We are only seeking to solve the problem and prefer not to issue a notice of violation. I'll be sending out a formal letter asking them to remedy the situation and will call the well owner's next week. I'll ask them to stop injecting water without a permit and repair their wells according to well construction standards. We will most likely give them 30-45 days to fix their problem and stop injecting water, if the water quality results are show low levels of contaminates and pose a low risk. If not, we need to take further action. If these well owner's decide to object to repairing their wells in a timely fashion, then we will issue a notice of violation for each well and cease an desist order if necessary.

If they want, we can set up a meeting with soil conservation, the owner's, and us to assist them in fixing the well problem.

Thanks,

Chris D.

Subject: RE: William Jean Treasure

hey Chris,

I just got a call from Justin Krajewski with the soil conservation office in Poky. Gary Hatch has applied for some 319-money from them to resolve his well problem. Justin wanted to know what action was going to be taken by the Department on the wells. I said it would depend on the test results. One option I said is a cease and desist order, 2-injection permit or 3-redo the system and not inject 24 mi into the gw. He would like any information we have about Gary's well to help the board decide on the project.

Cindy,

Remember that old production well in Bancroft area that needed to be abandoned, what the status of that well? I'm ready to start proceeding with resolving all the well construction and injection problems.

Thanks,

Chris D.

Subject: William Jean Treasure

hi Chris,

Here is a copy of a letter I sent to Jean Treasure of his property, I also sent a copy to Ralph Killinger. He is currently under contract with Jean to purchase the property. Ralph called me today and tried to tell me that it is a sump pump not a well. I told him no, it was licensed as a well and it needs to be brought into compliance and I suggested he contact Jean to find out who will bring it into compliance. This is a real mess because the county assessors office lists Ralph as the owner of the property but Jean insists he wants to retain the water rights until the property is paid for, another 5 years on the contract, so I figured I would notify them both of the problem.

Cindy

William Jean Treasure
Narrative by Cindy Bird
June 10, 2002

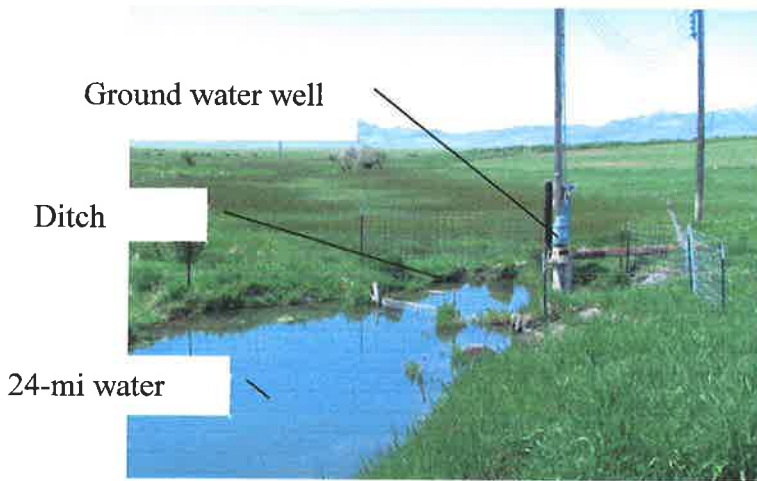

Photo 1. Looking west.

June 7, 2002 Steve Hebdon and I were out measuring some surface water rights on twenty-four mile creek when we visited William Jean Treasure's well.

In the fall of 2001 I made two different appointments with William Jean Treasure and Mr. Treasure canceled each one later. December 21, 2001 Mr. Treasure admitted to me that he cancelled the appointment because he was illegally injecting twenty-four mile water into the well because they don't get enough water from the well to irrigate with.

The power pole in the background of photo 1 is Craig Crandall's property. The water around the well is 24-mile water. It comes into this pond area and then can continue to Craig's property.

Photo 2 was taken looking in a westerly direction.

The licensing examination was done in August of 1974 and noted a 30 hp General Electric pump that appears to still be there. The manufactures plate is worn off that I couldn't verify that it is the same pump.

Photo 2. Looking west.

Photo 3 below shows the pond completely surrounding the pump casing. About 3 inches from the surface of the pond the pipe is perforated to allow the 24-mile creek to flow into the ground water. By adding the surface water to the well they can use the pump.

Bird, Cindy

From: Bird, Cindy
Sent: Friday, December 21, 2001 2:54 PM
To: Hamlin Nygard, Susan
Subject: ownership change-illegal injection

Hi Susan,

At our last meeting you suggested we contact you if we have any questions on the documentation for an ownership change. I have a parcel of land in my area that is being sold on contract. The new owner is listed at the county assessors office as the property owner. The new owner is also paying the taxes on the property. The old owner doesn't want the water right switched to the new owners until he gets all of his money. So who would be the owner?

The irrigation system on this property is illegally injecting surface water into the ground water. I've notified Dennis Dunn about this one and several others that are doing the same thing. And from the claimants comment this morning there are several more doing it out in this area. I explained to the claimant that if the Department levies a fine he would be responsible. Can we force the person that is purchasing the property to comply?

Cindy

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 33273/29-2538 Priority Oct. 5, 1966 Amount 1.0 cfs

THIS IS TO CERTIFY, that WILLIAM JEAN TREASURE
of Bancroft, Idaho, has complied with the terms and conditions of Permit
No. 33273/29-2538 issued pursuant to Application for Permit dated October 5, 1966,
and has submitted proof to the Department of Water Resources on June 23, 1971,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.45 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>Nov. 1</u>	at <u>1.0</u> cfs and	<u>300 acre feet or</u>
	from _____ to _____	at _____ cfs and	<u>3.0 af per acre</u>
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 1.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
300 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 33,
Twp. 6 S, Rge. 39 E, B. M. in the County of Caribou

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
6 S	39 E	33					10	39			14	37							100

Total number of acres irrigated 100

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 5 day of
February, 19 75.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 41467
Permit No. G- 33273
District No.

1. Name of Applicant: William Jean Treasure
Postoffice address: Bancroft County: Caribou State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second 1.0 Idaho
Miners' inches or gallons per minute
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 33
Twp. 6 S , Rge. 39 E , B.M., County of Caribou
5. Water is to be used for: irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: pump & sprinkler system
8. Estimated cost of works: \$ 7,000.00
9. (a) Is reservoir to be used? no
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is
years. 5
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 40 inches of water from 24 Mile
Creek (Used primarily on SE $\frac{1}{4}$ SW $\frac{1}{4}$, not to be irrigated from well).
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) 1.0 (cubic feet per second, ~~inches or gallons per minute~~) is for new lands.

Part of the land concerned is naturally sub-irrigated, so that less water is required than for other parts of the land. By rotating the use of the water on the different parcels, it is felt that desirable results can be obtained with the water available.

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

/s/ WILLIAM JEAN TREASURE *Applicant*

By *Agent*

Date of first receipt at Department of Reclamation: October 5, 1966 8:00 A.M.

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G— 33273

Recorded in Book 116 Page 33273 Approved October 19, 1966

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before

and to continue diligently and uninterruptedly to completion, unless

temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before April 19, 1969

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made and proofs offered on or before October 19, 1971

Witness my hand this 19th day of October, 1966.

/s/ R. KEITH HIGGINSON
STATE RECLAMATION ENGINEER.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLLIE, Governor of the State of Idaho, and LOUIS E. CLAPP, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 19th day of October, 1966.

MEASUREMENT CALCULATION:

31 nozzles - 1/4" D Model 30 Rainbird = 1 line 50 ft/s in this system

32 nozzles - 1/4" D Mod 30 " = 1 line

Q = 66 nozzles x 9.88 gal/min / nozzle = 652.08 = 1.45 CFS

V = (100)(3) = 300 < (1.0)(1.983)(184) = 365

SYSTEM DESCRIPTION:

30 HP E.C. Motor #DCJ412422 with Fairbanks-Morse Corona

pump #F2M1060 8" D. discharge west 80' to surface main

north and south

30' well depth

REMARKS:

System shown by permit holder: 70' Jean Treasure

Q calculation based on 7/32" diam heads which is as large as

largest table for Model 30's in Eastern District. Therefore actual discharge

is somewhat greater
