Subject: Well log and information

87-10748

Hello Dawn, This is Lois Blair down in Potlatch. We met last Wednesday at the Moscow fairgrounds in regards to our well and water rights.

Our parcel # is 41N04W166146 A. House was built in 2005. The well was drilled in 1996. The well permit # was 87-96-N-22. Uhlencott well drilling of Grangeville, Id. placed the well. No well tag was soldered to the well head. The well is 100 ' deep, 60 gpm, and 20' static water.

Please change the idaho residential property record created on 6.11.19 to reflect the well date of 1996 in place of 2005. Please send me an email of this correction. Thanks for your help, Lois Blair
