RE: EVIDENCE OF PRIORITY FOR A29-04007

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 29. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary evidence to support the priority date.**

On November 6, we toured the claimed place of use and point of diversion for the claim referenced above. At that time, we discussed the need for documentation supporting the claimed priority date of 08/22/1911.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

SCANNED

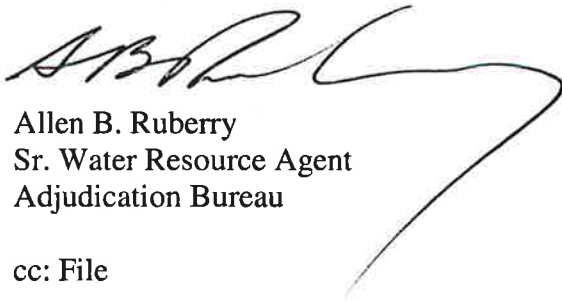

FEB 28 2006

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.

.....
The Department will not recommend the Notice of Claim be decreed by the court if evidence of a priority date is not submitted. The Notice of Claim will be disallowed.
.....

Please submit the documentation supporting the priority date within 30 days of the date of this letter, referencing all documents with the corresponding Claim number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact this office.

Respectfully submitted,

Allen B. Ruberry

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

giving dates and quantities. Water MAY eventually used for
domestic purposes pending the diversion and
construction of a gravity feed reservoir.
9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

This water has been used only by the
owner of this road ever since any of the
old timers in this area can remember. My
father-in-law Mr. Tena, bought this place in 1930 and
he has used the water every year since that
time for irrigation and stock watering. I plan to
divert this stream and pipe it to a point that
will give me gravity feed sprinkling on the
entire place - but would like to establish
permanent claim to the use before spending that
sum of money. For Doyne suggest I get
permanent easement before constructing here pipe
line etc.
