Re: Claim A29-4063

Dear Water User:

Last spring I wrote you requesting additional information or documentation of the use of this water right. I need this information to make an accurate recommendation to the court in the Snake River Basin Adjudication. Because this right has never been confirmed by a court decree or a department investigation, I need documentation that the water uses were developed prior to March 25, 1963 (ground water source) or May 20, 1971 (surface water source).

Please refer to the letter and pamphlet sent last spring, and provide documentation. Remember that affidavits must clearly identify "first person" knowledge (I did..., I saw...) and clearly state when the use of water was first seen by the person.

Feel free to contact me or my supervisor Ernest Carlsen if you have questions.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent

Re: Adjudication Claim 29-4063

Dear Water Users:

Attached is a copy of an Adjudication Claim for a water right near Pocatello, Idaho. This claim is based upon an older "statutory claim." This means that the underlying water right was perfected by the original user simply applying the water to beneficial use. This was completely legal and appropriate at the time it occurred, but it did not result in a paper record of the water right with the department. In the 1970's and 1980's, owners of these rights were invited to submit "statutory claims." These claims were never investigated by the department, but simply advertised and filed. A copy of the original statutory claim is also attached. Because this claim was never investigated, I am required to base my recommendation on other documentation besides the original statutory claims.

In order to recommend this right, I need you to supply "evidence of priority" and "evidence of beneficial use." The enclosed pamphlet describes some typical sources that may be used. If an affidavit is used, it must clearly show that the person making the affidavit personally observed the water use. The more detail the affidavit gives, indicating dates, circumstances, amounts and details of water use, the better. As I review the documentation provided, my standard will be:

The documentation should tend to indicate that diversion works were in place and had adequate capacity for the claimed use. The documentation should also tend to indicate that water was applied to the claimed beneficial use on the claimed place of use.

Please review these documents, and provide documentation of the historical use of this right. Feel free to call me if you have questions. You should be able to reach me Thursday or Friday mornings.

Sincerely,

A handwritten signature in cursive script that reads 'Bryce A. Contor'.
