INTRODUCTION

92020064

The above-entitled cause was initiated by the Plaintiffs' filing of a complaint seeking a private adjudication of water rights pursuant to Idaho Code § 42-1404 in the district court for the Sixth Judicial District in and for Bannock County. The complaint sought an adjudication of rights to an unnamed spring and to Papoose Creek, a stream to which said spring is tributary. IDWR sought and was granted an order changing venue in this action from the District Court in and for Bannock County to the District Court in and for Twin Falls County. Further, IDWR sought and was granted an order to consolidate this action with the Snake River Basin Adjudication (SRBA).

The Director's Report in Smith v. Scoffield was filed on January 21, 1992. Objections to seven of the report's recommendations were received by March 23, 1992, and the Director filed his responses to these objections on July 21, 1992. Based upon new evidence provided by the objectors, the Director prepared a revised list of recommended water rights. A stipulation incorporating the revised listing of water rights, resolving all objections, and signed by all parties in Smith v. Scoffield, was filed on October 8, 1992. The stipulation was approved by the court on October 16, 1992.

Based on the above stipulation, the water rights of the claimants in the matter of Smith v. Scoffield are as follows:

GENERAL PROVISIONS

1. The sources of water for the parties' claims are Papoose Creek and an unnamed spring tributary to Papoose Creek in IDWR's

10-3

92020064

Administrative Basin 29. Papoose Creek originates in Section 2, T. 8 S., R. 35 E., B.M. at an elevation of approximately 5,500 feet. Papoose Creek flows in a northerly and then westerly direction until it flows into the Portneuf River. The unnamed spring originates in the NW 1/4 NE 1/4 Section 26, T. 7 S., R. 35 E., B.M. and is tributary to Papoose Creek, but there is no evidence of overland flow of water from the spring to the stream.

2. Domestic use, as used in this decree, is the use of water in a home, and for other purposes in connection therewith, including up to one-half acre total of irrigation.

3. Stockwater use, as used in this report, is the use of water for care and watering of livestock.

4. For rights or portions of rights for domestic or stockwater use, the annual volume of diversion is the volume actually diverted and beneficially used, subject to a maximum of 13,000 gallons per day.

5. The maximum annual volume of diversion for irrigation of lands in the Papoose Creek area is 4 acre feet per calendar year (AFY) per acre.

6. The maximum annual volume of consumptive use required for irrigation of lands in the Papoose Creek area is 3 AFY per acre.

7. For a right or portion of a right not used for irrigation purposes, the consumptive use is so small that it is deemed de minimus. The consumptive use shown is the consumptive use for irrigation purposes.

8. When stockwater is not specifically included for a water right that includes irrigation, a portion of the quantity described

10-4
for irrigation use may be used for purposes of maintaining a reasonable flow for stockwatering use during the irrigation season.

9. The surface flows of the unnamed spring tributary to Papoose Creek do not provide a significant amount of water to the surface flows of Papoose Creek, and rights to the spring have historically been used independent of the rights from Papoose Creek. Therefore, the rights to the spring will be administered separately from the rights to Papoose Creek. Diversion pursuant to junior rights from the spring is not subject to closure to provide water to senior water rights from Papoose Creek.

10. When water is not being beneficially used for domestic or stockwater purposes pursuant to Rights No. 29-10011A and 29-10011B, water must be allowed to remain in the cistern which collects water from the unnamed spring tributary to Papoose Creek, for use pursuant to Right No. 29-10103.

11. This decree includes all rights of the named parties in this action to water from Papoose Creek and the unnamed spring tributary to Papoose Creek.

LIST OF WATER RIGHTS

The claims of the named parties to this action are decreed as described in the List of Water Rights, attached hereto and incorporated by reference herein.

ACCESS, MAINTENANCE, AND NOTICE

Pursuant to the October 16, 1992, stipulation, Virgil T. Germer, Laura Germer, Joseph Matthews, Tahna Matthews, Tracy R. Thompson, Thomas R. Thompson, Ronald J. Scoffield, Tara L. Scoffield, Theron J. Smith and Carma B. Smith are further bound as follows:

10-5

That all conveyance systems shall be maintained in good operating condition by the party or parties served by such system and that reasonable access be provided for the inspection and maintenance thereof by the owner of the land on which the conveyance system is located.

That reasonable notice be provided to the owner of the land on which the conveyance system is located prior to its inspection and maintenance by the party or parties served by such system.

INCLUSION IN THE SNAKE RIVER BASIN ADJUDICATION

The rights decreed in the instant matter will be included in the Director's report for Basin 29 [Reporting Area 9], and will be listed with a basis of decree. At the time the Director's Report for Basin 29 is filed, other parties to the SRBA will have an opportunity to file objections to the instant parties' rights pursuant to Idaho Code § 42-1412.

The parties in the instant matter will be subject to the Director's Report for Basin 29, and, at the time the Director's report for Basin 29 is filed, will have an opportunity to object to those matters in the Director's Report for Basin 29 that were not determined in this action.

THEREFORE, it is hereby adjudged and decreed that all rights of the parties in Smith v. Scoffield to the waters of Papoose Creek and the spring tributary to Papoose Creek are as set forth in the above provisions and in the attached list of water rights.

DATED this 4 day of November ~~October~~, 1992.

DANIEL C. HURLBUTTY JR.
District Judge

The above described property was reserved as Indian ground 05/01/1889.

Water from Papoose Creek was used by the Indians for beneficial use as it was the only water source available at that time.

I personally have used water from Papoose Creek on this property for irrigation also stockwater and beneficial use for 65 years 05/01/1926 to 10/01/1990

Change in Ownership

Dear Mr. & Mrs. Thompson:

Notice of the change in ownership of the above-referenced water right has been received. Before the Claim to Water Rights records of the Department can be changed to reflect such notice, however, we need to either have a copy of the Deed, including the legal description of the property, or have Ms. Palmer sign the enclosed Change of Ownership form.

Upon receipt of either of the above documents, a claim will be prepared from the Agency's computer and mailed to you for your review and records.

Please contact me should you have any questions or concerns.

Yours truly,

John D. Carlson
