Comments:

1. csaxton 11/5/2002 PPU
Comment: Recommended as PPU with 29-02363A with claimants knowledge. Two points of diversion recommended - inter connected system since 1981 per Paul Gillette.
2. csaxton 11/5/2002 Non-Claimant Land
Comment: Approximately 3.7 acres are irrigated in T7S, R35E, S21, SWNW by the LDS Church according to aerial photography. However this is on Shoshone Bannock Tribal land and therefore was not claimed or recommended.

WATER RESOURCES
WESTERN REGION

In response to your June 6th e-mail, Paul Gillette and I have done the following things to satisfy your questions.

Water Right 29-07166

The "Point of Diversion" for the ball park water right is in the SW1/4, SE1/4 of Section 17th, located in the southwest corner of the ball park.

Water Right 29-04176

The priority date of May 1, 1953 needed to be verified. We have sent a copy of the chain of title for the property having the two wells, Section 17, T7S, R35E. It shows that Edwin Bullock bought the property on Feb 14, 1953 and 75 days later the water right was filed. Mr. Bullock told Taft Miller that he bought the land with a well already on the farm. He drilled the bigger well and used the two wells along with Mink Creek surface right until the stream source became less reliable. Mr. Miller's statement is included. Mr. Bullock has passed away and his widow has not responded to any request to talk about the water rights. We hope this information is sufficient for setting the priority date.

The amended water right claim has been signed and notarized accepting the 79 acres and our office is not interested in paying a fee for monthly docket sheets.

Water Right 29-02363A

We thank you for making a "Permissible Place of Use" between 29-02363A and 29-04176. The system between the two main irrigation wells is interconnected so either well can be used on the property.

We believe this answers all the questions. Please call Paul Gillette at 801-240-5785 or send an e-mail to him at TCD-REDM5@ldschurch.org, if you have questions or require additional information.

Attention Paul Gillette:

Re: wells on the welfare farm in the Portneuf Gap.

I managed this property for the Church from 1984 till my retirement in the spring of 2001. All but the last two years, Ed Bullock watched over the farm as he lived on a hill overlooking the farm and I was some miles away.

During those years of our association he told me of the farming operation when he owned the property.

After he purchased the property he put in the "large" well, the north well of the two well now located on the farm. This well was used to irrigate this entire farm. At first it was pumped out and the crops were flood-irrigated. He did have the use of "High Water" from the Mink Creek in the spring of the year. This he said was not always available and only in the spring and early summer.

The ditches that brought water from the Mink Creek were finally abandoned because it was an unreliable source of water and all the property was watered with the well in question.

The "smaller" well to the south was on that piece of land when Mr. Bullock purchased that piece of land.

Saxton, Craig

To: Glade Pincock (E-mail)
Subject: Basin 29 SRBA claims

Hello Glade,

I just put together some of the information I have and the questions associated with them.

29-07166:

29-07166.RTF

This is an irrigation claim for 3 acres. I beleive it is applicible to the Base Ball diamond located between the grain fields and the old Bannock Highway

29-07166.jpg

My only question with this one is where is the Point of Diversion. If the location were described to me I could find it on my own, or I could meet with a representative.

29-04176:

29-04176.RTF

This is a Beneficial use claim that hasn't been proven up on by IDWR. What this means is IDWR needs to do a full field exam on this right. Now I have been out in the field and located the Point of Diversion for this right and confirmed that water has been put to beneficial use. However there are a couple of things that still need to be addressed.

Priority date claimed is May 1, 1953. I need evidence of priority that will support that the ground water has been put to beneficial use since May 1, 1953. Or as far back as you can provide.

The original claim was for 73 irrigated acres. My preliminary review found 79 irrigated acres. In addition, my GPS data shows that the POD is actually located in a different Quarter Quarter than what was claimed. Attached is an amended claim. Please look over the claim and initial any changes you wish to make. When satisfied, sign the claim in front of a notary and return it to this office as soon as possible. I cannot add the additional acres without a signed amended claim.

\\MENDE CLAIM.do

29-02363A:

The original right 29-02363 was split into portions A and B by approved Transfer 5773 in October of 2000. This right will be recommended as defined by the Transfer. However, I am thinking since your field is now two pivots, that I would make a Permissible Place of use between right 29-02363A and 29-04176. My question is this, is the system bewteen the two main irrigation wells interconnected so water from either well can reach all of the property?

Re: Adjudication Claims 29-4058, 29-4176

Dear Brother Nelson:

Attached are copies of two LDS irrigation claims for a farm near Pocatello, Idaho. These claims are based upon older "statutory claims." This means that the underlying water rights were perfected by the original user simply applying the water to beneficial use. This was completely legal and appropriate at the time it occurred, but it did not result in a paper record of the water right with the department. In the 1970's and 1980's, owners of these rights were invited to submit "statutory claims." These claims were never investigated by the department, but simply advertised and filed. Copies of the original statutory claims are also attached. Because these claims were never investigated, I am required to base my recommendations on other documentation besides the original statutory claims.

In order to recommend these irrigation rights, I need you to supply "evidence of priority" and "evidence of beneficial use." The enclosed pamphlet describes some typical sources that may be used. If an affidavit is used, it must clearly show that the person making the affidavit personally observed the water use. The more detail the affidavit gives, indicating dates, circumstances, amounts and details of water use, the better. As I review the documentation provided, my standard will be:

The documentation should tend to indicate that diversion works were in place and had adequate capacity for the claimed use. The documentation should also tend to indicate that water was applied to the claimed beneficial use on the claimed place of use.

Please review these documents, and contact your people in Pocatello to see what documentation you may be able to provide. Feel free to call me if you have questions. I'm working on a college degree part-time, so you will have better luck reaching me Thursday or Friday mornings.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that POCATELLO LDS STAKE FARM
