5. P29 This right is a combination of old Right Nos. 63-2586 and 63-2587.

Remarks:Comments:

1. Igraves 8/9/2006 History

Comment: Rights 63-2586 and 63-2587 were each licensed on separate systems from the same unnamed drain with a common priority date. The licenses were combined in the SRBA and then split to separate owners. Right 63-2587A uses the system and p/d originally licensed to 63-2586 and 63-2587B uses the system and p/d originally licensed to 63-2587.

2. Igraves 8/9/2006 Source

Comment: Source was licensed as unnamed stream, described as a constructed drain ditch in the licensing exam and claimed as drain ditch. The source has been clarified to unnamed drain per topo map.

3. Igraves 8/9/2006 P/U

Comment: Acres recommended are based on the claim map and 1987 aerial photo. Some irrigation shifting has occurred since the licensing exams for 63-2586 and 63-2587.

4. Igraves 8/9/2006 Parcel No.

Comment: Irrigation is within Parcel No. R3948800000.

5. Igraves 10/26/2006 P/D

Comment: P/d in the NENW S25 from the same source was added based on an office visit with Rod Nielsen 10/26/06. Rod stated that the additional p/d has been used on the acres in the NENW since 1948 according to his mother, Shirle Nielsen. The additional p/d was developed for right 63-5281, listing a 1928 priority date. Capacity for the NENW S25 p/d was estimated at 5.08 cfs based on a theoretical calculation for right 63-5281, which was recommended for 29 separate acres. Referencing the SRBA field exam diagram, it appears that water from the NENW S25 p/d can physically irrigate acres in the NENW S25 listed on this right via concrete ditch. Please note that acres in the NENW S25 listed on right 63-5281 are separate from the NENW S25 acres listed on this right.
