RE: ANNUAL VOLUME DATA
Snake River Basin Claim No(s): A63-2640

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference.

This claim is a license for commercial use of water in manufacturing ice. At the time the right was licensed, no annual volume component was required. However, to recommend this in the SRBA, IDWR must have additional information regarding how the water is used and the volume used. The annual volume is an important component of a right because it is a limitation on the use of ground water sources.

On March 6, 2006, I called Americold for this information and spoke with Doug (surname unknown). Doug told me that the facility no longer makes ice. I explained to him that the SRBA is seeking to defined water uses as they existed in 1987 and IDWR needed historical information regarding how the water was used. Doug stated that he would consult with the engineering group and call me back. I have not received a return call regarding this matter.

If no information is provided, I will have to use the minimum well design pumping rate of 2 hours and will have to make other assumptions as to the number of days a year the water was used to recommend the claim to the SRBA Court. Hence, the decree issued by the SRBA Court could result in an annual volume limitation that would constrain your or a future owners use of the water.

Please call me as soon as possible at (208) 334-2190 with the requested information by June 2, 2006.

Sincerely,

Vicky L. Music
Senior Water Resource Agent
Adjudication Bureau/Western Region
Idaho Department of Water Resources

Enclosures: Notice of claim report

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

RE: Snake River Basin Adjudication (SRBA)
Notices of Claim #A63-02789 & A63-02640

Dear Mr. Brandt:

Your December 10, 1998, letter to Karl Dreher was forwarded to my section for response.

The reason you have not received a listing on the two water rights referenced above is because they both have uses in addition to domestic:

#A63-02789 has uses of domestic, irrigation and fire protection.

#A63-02640 has uses of domestic and irrigation.

Irrigation and other rights will be reported at a future date. At this point in time, our goal is to report them in May, 2002.

Please be sure to notify us if your address changes, and call me if you have any further questions.

Sincerely,

Sally Sherman

Karl,

We have received numerous listings on our domestic water rights but failed to receive them on 2 farms.

We would appreciate your checking on them.

They are as follows, in the name of:

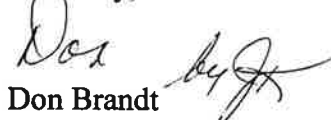

John H. Brandt (Home Place) Sec.10-T.3N.,R2W. NE NE

Don, Joan & Marilyn Brandt (Tipton property)

Sec. 1-T.3N.,R2W. SW NW

Thank you for you help.

RE: A63-02640

Dear Mr. Goodwin:

Please find attached three copies of the water rights license for AMERICOLD's plant. Please review the information, and if all appears to be in order, file the two copies I indicated for that purpose, on the other copy, you or a legal representative of the company should specify on the map the specific location of the property and wells, sign and notarize Page 3, as indicated, and then submit the claim with fees of \$850.00 to this office. If on the other hand the claim does not appear to be in order you should call and make an appointment at either the State or Western Regional offices in Boise.

If you have any questions or concerns, please do not hesitate to contact me through this office.

Regards,

Bruce A. Schuld

I received a call today from Clint Mouton in response to my letter request for annual volume information. The company is now called Americold Logistics. They no longer make ice. It is a freezer or cold storage facility. Clint started at the company in 1987 and he said the company quit making ice before that. He will check and let me know when the purpose of use changed. The water is discharged to Indian Creek.

Clint said that the water is used for defrosting or washing the frost from the refrigeration condensers. The water is used 24 hours a day, 365 days a week. He stated that 1,000,000 gpd are used. I asked him how the company arrived at that figure and he stated that the engineering group gave him the figure as the system capacity of the 3 wells.

I explained that we have the system capacity in the licensing file but that we use real numbers, not design numbers, to calculate annual volume. I told him that we had a figure of 3,000 gpm as the quantity used and he stated that is what I should use to calculate volume because there are no metering devices on the well. They really do not know how much they are currently using. The 3000 gpm = 4,320,000 gpd. Working backwards, this is 6.6 cfs. The licensed diversion rate = 8 cfs.

$$\frac{3000 \text{ gpm} \times 60 \text{ min/hr} \times 24 \text{ hrs/day} \times 7 \text{ days/week} \times 52 \text{ weeks/year}}{325850 \text{ gallons / af}} = 4825.78 \text{ afa}$$

$$\frac{1,000,000 \text{ gpd} \times 7 \times 52}{325,850} = 1117.08 \text{ afa}$$

PHONE MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NO. 63-2640
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN
REGION
SUBJECT: BASIS FOR RECOMMENDATION
DATE: 6/2/2006
CC:

I received a call today from Clint Mouton [phone # 466-3551] in response to my letter request for annual volume information. The company is now called Americold Logistics. They no longer make ice. It is a freezer or cold storage facility. Clint started at the company in 1987 and he said the company quit making ice before that. He checked a diary entry and found that the company quit making ice 11-11-1980. The water is discharged to Indian Creek.

Clint said that the water is used for defrosting or washing the frost from the refrigeration condensers. The water is used 24 hours a day, 365 days a week. He stated that 1,000,000 gpd are used. I asked him how the company arrived at that figure and he stated that the engineering group gave him the figure as the system capacity of the 3 wells.

I explained that we have the system capacity in the licensing file but that we use real numbers, not design numbers, to calculate annual volume. I told him that we had a figure of 3,000 gpm as the quantity used and he stated that is what I should use to calculate volume because there are no metering devices on the well. They really do not know how much they are currently using. The 3000 gpm = 4,320,000 gpd. Working backwards, this is 6.6 cfs. The licensed diversion rate = 8 cfs.

1,000,000 gpd x 7 days/week x 52 weeks/ year = 1117.08 afa
325,850 gallons / af

Clint called me back and said that they usually use 1 to 2 of the wells at a time and they produce 1200 gpm. So, although I told him I am going to use the 3000 gpm to calculate annual volume, I will use the current information because that was the use in 1987.

VLM

3/6/06 Called claimant to get info to calculate annual volume. Talked to "Doug".
He will get w/ engineering group & call me back. They no longer make ice.

To Appropriate the Public Waters of the State of Idaho**

Application No. 27460
Permit No. 19906
District No.

1. Name of Applicant: TERMINAL ICE & COLD STORAGE COMPANY

Postoffice address: 320 Hoyt St., Portland (9) County: Multnomah State: Oregon

I. If applicant is a corporation, give:

- (a) Date and place of incorporation: Incorporated February 1931- State of Oregon
(b) Amount of capital stock: 5,000 shares no-par value authorized- 3,000 shares no-par value issued
(c) Amount paid in: \$300,000.00
(d) Names and addresses of directors: K. H. Stevens, Lowell E. Kern, P. L. Jackson, F. Boyce Fenton, and E. M. Burns, all of Portland, Oregon. Business address, 320 Hoyt St., Portland, 9, Oregon

II. The financial resources of the applicant are:

- (a) Cash on-hand: and government securities \$597,450.00
(b) Treasury stock: None (c) Bonds to be issued: None
(d) Other resources: Accounts receivable- \$79,500.00
Lands, buildings and equipment- \$1,452,500.00

2. Quantity of water claimed: Ten (10) cubic feet per second.

3. Source of water supply: Wells (3) which is a tributary of

4. Location of point of diversion: feet distant from the
corner of Section , T. , R. , B.M., and is in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ (2 wells), and SE $\frac{1}{4}$ NW $\frac{1}{4}$ (1 well)
of Section 22 , T. 3 N. , R. 2 W. , B.M., County of Canyon

5. Water is to be used for Manufacturing ice

6. If for mining, milling, power or manufacturing purposes, give:

- (a) Point of use of water: feet distant from corner of Section
T. , R. , B.M., in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 22 , T. 3 N. , R. 2 W. , B.M.
(b) Amount of power generated: H.P., under feet head.
Boise River
(c) Water is to be returned to Indian Creek, tributary to/at a point feet
distant from the corner of Section , T. , R. , B.M., in the
NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 22 , T. 3 N. , R. 2 W. , B.M.

7. Estimated cost of works: \$18,000 (Wells, pumps and pipes)

8. Kind of works: Pumps and pipe lines

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet;

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is Three (3) years.

13. The time required for the complete application of the water to the proposed use is Two (2) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

- 14-A. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

15. (a) Is reservoir to be used? If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

REPORT OF ENGINEER

Permit No. 19906

Use

This proof is for Completion of works and Beneficial / In Water District No.

1. Name of applicant. Terminal Ice & Cold Storage Co., Nampa, Idaho
2. Source of water supply: Subterranean (3 drilled wells)
3. Location of point of diversion: Is in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 22
T. 3 N., R. 2 W., County of Canyon
4. Describe works as they exist, giving dimensions and capacities of same:
Three identical units: Loryne Bowler Deep Well Pump, U.S. Motor, 220/440 volts,
3 phase, 1800 R.P.M., 74/37 amps, 30 H.P., Type CEU, Frame 912, Serial
No. 540344, Serial No. 510607, and Serial No. 510635.
5. Water is used for: Manufacture of ice and related purposes
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):
Place of use: Nampa City Acres Addition to City of Nampa, in NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 22,
Twp. 3 N., Range 2 W., B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Unknown
- Remarks: Well #1. 107' deep with 16" - 12" casing. Delivery 1200 - 1300 G.P.M.
Well #2 102' deep with 16" - 12" casing. Delivery 1800 G.P.M.
Well #3 108' deep with 16" - 12" casing. Delivery 1200 G.P.M.
Capacity of wells - 4200 G.P.M., present use 3000 G.P.M.
Ammonia compressors: 3 - 12" x 12" 4 cylinder, 1 - 15" x 10" 4 cylinder,
1 - 15" x 20" 2 cylinder, 1 - 10" x 10" 2 cylinder, 1 - 9" x 9" 2 cylinder.
(capacity of plant, 500 tons/day)

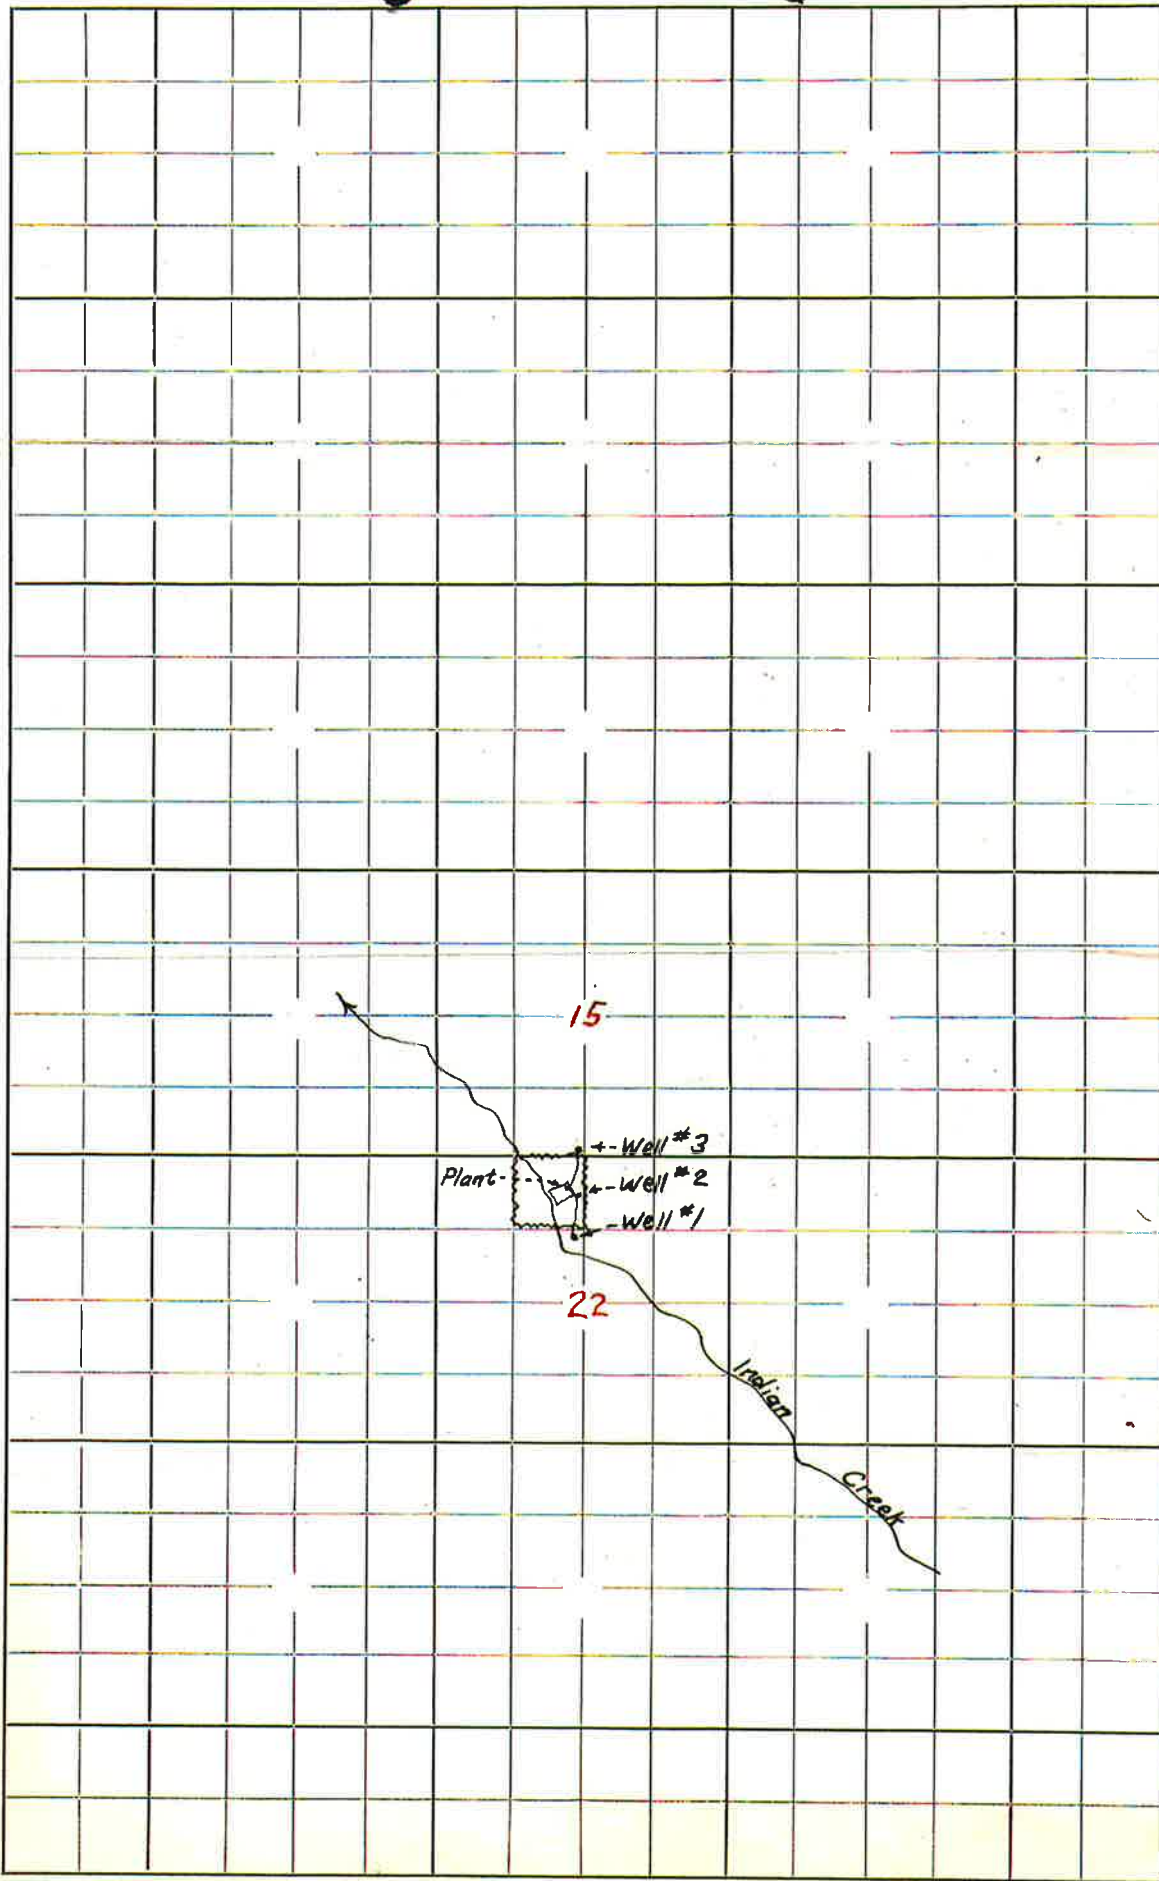

This examination was made on the 21 st day of October, 1942
