RE: Snake River Basin Adjudication (SRBA) Claim 29-04288

Dear Cory,

After our conversation over the phone, I spoke with my supervisor about the possibilities of recommending your SRBA claim in the name of Grandview Irrigation.

In order to recommend claim 29-04288 as a Water Delivery Organization such as a canal company, you would need to file a Notice of Change In Water Right Ownership to change the name on the claim from your name, to the water delivery organization name. You would need to submit documents proving that the organization exists and the purpose of its existence is for water delivery. Enclosed is a copy of the form.

Whether the claim/water right is in your name, or a water delivery organization will not effect the total acreage that can be irrigated. However, if defined as a water delivery organization, you would have a certain flexibility to irrigate different lands within a predetermined boundary.

At this time I don't see any problem with just recommending the water right in your name and that is what I plan to do. I am enclosing a map that shows what I intend to recommend as the irrigated POU. Please look over this map and contact me if you have any questions.

Respectfully submitted,

Craig L. Saxton

Field notes for 29-04288 taken 7/11/01

- Portneuf water services irrigation water to the lawn and gardens for homes in the neighborhood. Service area includes property on South side of Clinton RD - north - to Lamb Road. Services homes on the E and West side of Grant Rd.

- See pictures for conveyance under road.

- See GIS for service area.

7/10/01

Called and talked to Teri about the name on the water rights. I told her that I need a letter from Cory to remove his fathers name from the claim and add Teri's name. She said she will send in the letter.

A generous estimate of irrigated acreage as of 1987 is roughly 13 acres.

Also ask if he can provide some estimate or evidence of what is actually irrigated.

Might base Irrigated POU on capacity of system.

Lot 4

Total Number of Acres to be Irrigated

There is a seepage and small springs about one-half mile above my house and barn in canon directly above my land, an opening on same which water at present sinks in gravel. This water I wish to develop by tiling or otherwise and pipe to house and barn for domestic use, and irrigation. I also wish to plumb all flood waters or flow of the canon not already appropriated, when these sources fail, I want to pump from Fortneuf River water sufficient to irrigate crops on land as described. Referring to "8" I expect it to take considerable time and expense to lay tile for seepage up into in some places are probably ten or twelve feet deep. Referring to "4" the diversion of water from canon is near the southwest corner of the lot four, section one, which is my own land. The pump is also on my land as indicated by plat. The pipe line from the springs will run parallel to the bed of canon approximately. Amount of water claimed from Fortneuf River is (7 1/4) three-quarters of one cubic foot. The amount of water claimed from the springs is 0.12 sec. ft. The springs in question are located on the Mountallo Forest Reserve. There is no land between mine and the Forest Reserve.

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is **15953**
 Recorded in Book **57** Page **15953** Approved **March 18, 1924.**

POCATELLO, IDAHO

April 19, 1928.

Mr. C. S. Lamb,
Pocatello, Idaho.

Dear Charlie:

We are enclosing letter concerning your
Permit No. 15953 from the Reclamation Commissioner.

It would seem that your permit claims two different sources of water in two different amounts. The only one which is material to you, in so far as the State Engineer's office is concerned, is the one from Portneuf River. In view, also, of the fact that the only party ahead of you is the Twin Falls Canal Company on the Snake River, we question very much whether you should go to the expense of obtaining a water license. The fact that you have been using the water establishes a right although it will give you a different priority date than if you completed your application for water through the State Engineer's office.

Under the circumstances, our advice to you would be to permit your permits to lapse as you would gain nothing whatever by obtaining a water license. You should, however, retain in your files the letter which we are enclosing.

Yours very truly,

TCC:BMA
