Memorandum

Date: January 15, 2003

From: Craig L. Saxton

Subject: SRBA claim 29-04366 and 29-10539

I have been in contact with claimant on at least 9 different occasions and have requested priority evidence on most of these contacts.

4/11/01	Request for Evidence of Priority letter sent
5/2/01	Phone conversation with claimant
7/12/01	Field exam – claimant present
10/2/01	Intrepid Field Exam
2/6/02	Sent letter requesting Priority Evidence
2/6/02	Phone conversation with claimant
2/11/02	Resent letter requesting Priority Evidence
3/18/02	Phone conversation with claimant
3/21/02	Phone conversation with claimant

Evidence of priority for 29-10539 is 1937 from claimant telling me he spoke with Elwin Anderson and Mr. Anderson said that the claimed POU was irrigated at that time. I don't know if it is from Well or N. Fk Pocatello Ck. Assumed from N. Fk Pocatello Ck.

No evidence of priority for 29-04366. Recommend D&S. No irrigation. From FE on 7/12/01 I determined that the claimant doesn't use the well to irrigate the main pasture anyway. Well used for domestic and irrigation of lawn around the house. D&S is probably most accurate description of historical use anyway.

RE: Amendment of Snake River Basin Adjudication (SRBA) claim 29-04366.

Dear Mr. McCormack,

Enclosed is the amended claim we spoke about over the phone. Note, that I only changed the priority date and despite that you originally claimed irrigation from your well, I do not have enough information to recommend irrigation as a portion of this claim. In order for me to recommend a 1927 priority date for Domestic and Stockwater use, the claim needs to be amended to reflect the 1927 priority date.

Please look over the claim and initial any changes you wish to make. When satisfied, sign the claim in front of a notary and return it to this office as soon as possible.

I did some checking regarding the priority date issue for claim 29-10539 from the North Fork of Pocatello creek. My notes indicate that you stated that in conversation with Elwin Anderson, he confirmed irrigation of your property dating back to 1937. I sent several letters to you requesting additional evidence of use prior to 1937 but no response was received (enclosed). If you do gain additional evidence that Pocatello creek water was used on your property prior to 1937, please submit that evidence along with the additional information we spoke about over the phone.

Respectfully submitted,

Craig L. Saxton
Sr. Water Resource Agent

RE: Evidence of Priority for Snake River Basin Adjudication (SRBA) claims 29-04366 and 29-10539.

Dear Tom,

Per our conversation on the phone on February 6, 2002, I thought I would send you a follow up letter describing the information that needs to be submitted.

Claim 29-04366 is for 5 acres of irrigation from your well. You claimed a priority date of December 30, 1955. Claim 29-10539 is for 10 acres of irrigation from Pocatello Creek. You claimed a priority date of June 1, 1927.

Both of these SRBA claims require priority evidence. Evidence can be in the form of affidavits from persons with first hand knowledge of the water use, receipts for irrigation equipment, or even old aerial photos which can be obtained from the Farm Service Agency.

Without this evidence, I cannot recommend use other than Domestic and Stockwater. I appreciate your prompt attention to this matter.

Please feel free to contact me at (208) 334-2190 if you have any questions.

Respectfully submitted,

Craig L. Saxton
Water Resource Agent

Field Notes

Date: July 12, 2001

From: Craig L. Saxton

- Pictures 1 and 2 show East Point of diversion
- Property bought July 1982
- Ground water used for lawn and field East of the house.
- Add stockwater use to N. Side of Road. Has horses over on that side. Graze the land, but I don't think he actually diverts the water over specifically for stock water use.
- Add north side of road as irrigated place of use. Old ditch on North side shows historical irrigation of land. Since Tom bought the property in 1982, he has irrigated the north side of the road from time to time for fire protection and keeping the trees alive. He runs hoses under a culvert, or late at night just runs the hose across the road. Pictures 3, 4, 5 show Tom has made an effort to irrigate land and keep weed free for fire protection.
- Picture 7 shows second or West point of diversion.

Notes: Tom hasn't been able to divert out of the stream due to low water and silting of the stream channel. He had someone from the department out to look at the stream a couple years ago (didn't remember the name, but thinks it could have been Greg Taylor) to see if Tom could back-hoe the silt from the stream. IDWR representative said he couldn't. Asked what he could do. I told him that he could do what he needs to do to maintain his diversion, but if he planned on making major changes to the stream around his points of diversion, he should contact stream channel personnel to be safe.

The issue of priority evidence was brought to Tom's attention for the second time. He said he will get right on it and send me the evidence when he gathers the data.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by May 11, 2001, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at 525-7161.

Respectfully submitted,

Craig Saxton
