

AMENDED DIRECTOR'S REPORT

Subcase No. 95-8248

In Re CSRBA

Twin Falls County Civil Case No. 49576

Report to the CSRBA District Court

Prepared by the Idaho Department of Water Resources

Gary Spackman, Director

Carter Fritschle, Manager, Adjudication Section

August 27, 2019

DESCRIPTIVE SUMMARY

This is an Amended Director's Report submitted by the Director of the Idaho Department of Water Resources (IDWR).

DISCUSSION

On August 2, 2018, IDWR filed a Director's Report for Evergreen Water Association's Water Right No. 95-8248, for domestic purposes. No objections or responses have been filed, and the objection and response deadlines have passed.

IDWR has identified an inadvertent errors in the Director's Report in the Quantity and Purpose and Period of Use Quantity elements for Water Right No. 95-8248. Included in the recommendation is a condition limiting the water use to 2,500 gallons per day (gpd) with an annual volume of 4.48 acre feet yearly (afy). The 2,500 gpd limit per day would only produce an annual diversion volume of 2.8 afy. Therefore, the recommendation should be amended to show the maximum authorized annual diversion volume of **2.8 AFY** in both the Quantity and Purpose and Period of Use Quantity elements for Water Right No. 95-8248.

The Director submits for filing with the Court an Amended Director's Report for the aforementioned subcase (see attached recommendation).

CARTER FRITSCHLE
Manager, Adjudication Section
