RE: EVIDENCE OF PRIORITY FOR DEMAR GILBERT

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 29. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.

.....
The Department will not recommend the Notice of Claim be decreed by the court if evidence of a priority date is not submitted. The Notice of Claim will be disallowed.
.....

Please submit the documentation supporting the priority date within 30 days of the date of this letter, referencing all documents with the corresponding Claim number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact our Soda Springs office: Cindy Bird, 15 W Center St., Soda Springs, ID 83276 (208) 547-3993.

Respectfully submitted,

July 29, 2002 DeMar Gilbert accompanied me during the field exam. Photo 1 was taken looking south at the point of diversion from Dry Creek. The ditch was overgrown by did has a little water in it.

Photo 2 was taken looking in a southeasterly direction with the POD in the foreground and the POU in the background. The POD is a 8" concrete pipe in the creek.

Photo 2. IMG_584.JPG 9:28 am

Ditches are located throughout the place of use. Today the only thing that was being irrigated from this source is the yard.

Mr. Gilbert stated that by noon the water that was in the ditch would be gone.

The property is irrigated by flood irrigation only. Marsh Creek is also used on the property east of Marsh Creek (section 10) road under 29-2016A. Dave Carlson is making the recommendation of this claim

Photo 3 was taken looking easterly at the POU. The irrigated POU is on both sides of the road in section 9 & 10. The water is diverted to the property east of the road through the culvert shown in photo 4. Dry creek hasn't had a lot of water in recent years so many of the ditches are overgrown.

July 30, 2002 Allen Ruberry and I stopped by Mr. Gilberts at 12:30 pm to measure the water in the ditch. There wasn't enough water in the ditch to measure. Mr. Gilbert had told me turning the field exam that the water is gone by noon.

Mr. Gilbert had an abstract of the property and it appears that the additional acreage in sections 3 & 4 was combined with the land in sections 9 and 10 in about 1916.

A large berm was installed in the early nineties in the NENE and the SENE of section 9 to reduce the damage from flash flooding.

Proof of Completion of Works.

To All Whom It May Concern:-

This is to certify that Lorin Walker of Inkom, County of Bannock, and State of Idaho, the holder of Permit No. 728, issued upon Application No. 1033, bearing date of priority of July 13, 1904, authorizing the diversion of $1 \frac{3}{5}$ second-feet of the waters of Dry Creek County of Bannock, State of Idaho, at NE $\frac{1}{4}$ of NE $\frac{1}{4}$ pf Section 9 Tp. 8 S., R. 36 E.B.M., for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho, relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use one and three-fifths second-feet of water; and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 9, and SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 10, Tp. 8 S., R. 36 E.B.M.

Witness my hand this twenty-second day of October A.D. 1906.

Jas. Stephenson Jr.,

State Engineer of the State
of Idaho.

Recorded in Book "2" of Miscellaneous records at page 8, Records of Bannock County, State of Idaho, March 22, 1911 at 11:55 A.M.

Permit No. 728 (29-2018) was cancelled because
proof of B.U. was not filed in 1909.

POOR ORIGINAL

Boise, Idaho, October 5, 1906.

Mr. Joseph H. Hunt

Pocatello, Idaho.

DEAR SIR:

The holder of Permit No. 728, Lren Walker, residing at Incom, Idaho, which permit authorizes the diversion of 1 3/4 second-feet of the waters of Dry Creek and Springs at _____, desire to make proof of the completion of works of diversion, at _____, on August 6, 1906.

Will you therefore please arrange with the holder of said permit for an examination of the works of diversion, ascertain whether or not they comply fully with the terms of said permit, and render me a report on the condition of such works before the date fixed for said proof of completion, in accordance with the provisions of Sections 4 and 5 of House Bill No. 146, passed by the Seventh Session of the Legislature, approved March 11, 1903.

Your report should be of sufficient detail to enable me to figure out the amount of water the works are capable of diverting and conveying to the place of use; giving also the description of the location of the point of diversion, and, in case of irrigation, the legal description of the land to be irrigated.

Will you also make a map on the enclosed plat, giving all the essential features of the works, such as point of diversion, route of ditch, place of use, etc.

You should also arrange with the holder of said permit for the payment of your fee for this service and such proper expenses as you will incur in making this examination and report.

Please advise me promptly of your receipt of this communication, and whether or not you will be able to make the examination and report requested.

Yours truly,

JAS. STEPHENSON, JR.,

State Engineer.

As the time has passed for the examination will you kindly arrange to do the work as soon as convenient.
