RE: Water Right Research Results

Dear Elmer,

Enclosed is the summarized version of the results of my search for all the rights you filed on. My search criteria was just to search for any right in Basin 29, under the name of Stanger. Thus, some of these rights might belong to other family or non-relations that just happen to have the same last name.

If there is a couple in particular that you are interested in seeing the details on, you should be able to enter the water right number directly into the web-site and get a print out of the water right. Or you can always give me a call to come on into the office, or have me send you a copy.

I decided not to send you a copy of all of these on the list because I wasn't sure which ones in particular you might be interested in.

Just a couple hints reading the chart:

1: Basis

Any right that has the **status** of "TEMPORARY" are the claims you signed today. They will soon say "ACTIVE".

Rights highlighted in pink with the status of "DECREED" have already been to the Snake River Basin Adjudication (SRBA) court and are finalized. They are no longer "Claims" but perfected water rights.

Two of the water rights on the list have a status of "LAPSED". I am afraid that there is not a way to reinstate these permits. Enclosed is a copy of the notices of the lapsed status.

2: Source list

Anything that says GROUND WATER, means it is a well.

UNNAMED STREAM means that the name is not on the USGS quad. It might be locally known by another name, but we have to data enter it as UNNAMED STREAM.

PROFILED

SPRINGS means the water is directly diverted from the springs. So if you have a claim that is diverted from springs that supply Indian Creek, the source would be listed as Springs instead of Indian Creek. But, if you take water directly from Indian Creek, the source should read Indian Creek.

Conclusion:

As you can see, I didn't find any claims for water use from Indian, Smith, or Walker Creek. If I am missing some of your filings, there are a couple reasons I might not have found them.

- 1) Refer back to item #2 of this list to make sure that the source should actually be listed as Indian, Smith, or Walker Creek.
- 2) The claims might be under a different name, maybe a corporation name.
- 3) Missing claims might not be located in Basin 29, which is all I searched.

I hope this helps. Please feel free to drop me a line if you have any questions. Once again, I apologize for not getting back to you on this subject earlier.

Sincerely,

Craig L. Saxton

Memorandum

Date: July 5, 2001

From: Craig Saxton

Subject: 29-04497

Priority Date:

Claimed priority date is June 20, 1902.

Deed of Indian Allotments issued May 3 1902.

Mr. Stanger requested an irrigation appraisal in August 3, 1967. The appraisers investigation states, "This farm has diverted water onto about 90 acres for over 60 years with no controversy." It also states, "This land was originally an Indian allotment and neighbors & users recognize this as a prior right to non-Indian lands."

Based on the Appraiser's report, the priority date of this water right is around 1907. Based on the above information and allowing up to a 5 year period of development of the water right I can support a 1902 priority date.

POU – Found 81.2 acres that could be flood irrigate and 10 acres that came under sprinkler irrigation sometime in 1981 according to the claimant.

Enlargement claim sent to the claimant and a total of 91.2 acres will be recommended as a PPU.

POD – GPS location

Diversion Rate/Vol – needs to be measured

SOU – IDWR standard

Purpose of Use – irrigation and possibly stock. Waiting claimant response for stock.

RE: Amended claims 29-04497, 29-13185 and Enlargement claim 29-13204.

Dear Mr. Stanger,

After our meeting on June 12, 2001 I found a couple of issues that need to be addressed.

Issue 1:

Claim 29-04497: Enclosed is an amended claim to add 6.2 additional acres. From walking the field and looking at contour maps I found 81.2 acres that would have been flood irrigated. Your original filing claimed 75 acres. So I amended the claim to add the additional acreage. The fee for this change is \$1 per acre equaling a \$6.20 filing fee.

If you still water stock, please indicate on the claim (highlighted in yellow) how many head of stock you water from the Portneuf under this water right.

After more review of the priority evidence you provided, I feel I can support the June 20, 1902 priority date claimed.

Issue 2:

Claim 29-13204: Enclosed is an enlargement claim. I found 10 additional acres that you irrigate from your sprinkler system, but could not have irrigated by flood irrigation. You indicated in our conversation that you installed the sprinkler system around 1981. The claim I have prepared is for the 10 additional acres with a 1981 priority date. If you feel this is incorrect, feel free to change the priority date on the claim and provide evidence of the new date when you return the claim. The filing fee is \$110.00. Fee breakdown is as such: \$50 claim fee, \$50 late fee, and \$1/per acre.

An enlargement claim will not provide you with any additional water, but will allow you to irrigate the additional acres with the water under your 1902 right.

Issue 3:

Claim 29-13185: This was my fault. When we filed the Stockwater claim for the well near Walker creek, I did not allow for a diversion rate that would support 450 cattle as you indicated.

PROFILED

SCANNED
APR 05 2005

I amended the claim to allow for a greater diversion rate and diversion volume. The claim needs to be signed in front of a notary and returned to me. There is no fee for this amendment.

Issue 4:

As we discussed, your system from the Portneuf will need to be measured. You will be contacted by a contractor sometime in the near future so they can meet with you to measure your system capacity. Or, as we discussed, since you don't run the system very often, please give me a call and let us know next time you plan on turning on the system.

Conclusion:

The decision to submit these claims I prepared is totally your decision. However, I feel this is the best route to take in order to most accurately represent your water use.

So, to review, I am sending you three claims to be signed and notarized. Total filing fee is \$116.20. Feel free look over the changes and initial any changes you wish to make. I am sending you a map to help describe what I found. If you feel my interpretation of your water rights is inaccurate, please contact me.

I apologize for the inconvenience. I realize I just dropped a lot of information on you. However, I am encouraged that we are working through the necessary details in order to accurately describe your water right and allow me to make a positive recommendation to the court.

As always, please feel free to contact me if you have any questions.

Respectfully submitted,

The United States of America,

To all to whom these presents shall come, Greeting:

WHEREAS, a schedule of allotments approved by the Secretary of the Interior has been deposited in the General Land Office, whereby it appears that Robert Tindore, an Indian of the Fort Hall Reservation, has been allotted the following-described land:

The southeast quarter of the southwest quarter of Section twenty and the northeast quarter of the northwest quarter of Section twenty-nine in Township seven south of Range thirty-six east of the Boise Meridian, Idaho, containing eighty acres,

according to the Official Plat of the Survey of the said Land, returned to the General Land Office by the Surveyor General:

NOW KNOW YE, That the UNITED STATES OF AMERICA, in consideration of the premises, and in accordance with the provisions of the Act of Congress of February 23, 1889 (25 Stat., 688), HAS GIVEN AND GRANTED, and by these presents DOES GIVE AND GRANT, unto the said Robert Tindore and to his heirs, the lands above described; TO HAVE AND TO HOLD the same, together with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, thereunto belonging, unto the said Robert Tindore and to his heirs forever, with the provision that the title hereby acquired shall not be subject to alienation, lease, or incumbrance, either by voluntary conveyance of the grantee or his heirs, or by the judgment, order, or decree of any court, or subject to taxation of any character, but shall be and remain inalienable and not subject to taxation for the period of twenty-five years, and until such time thereafter as the President may see fit to remove the restriction. And there is reserved from the lands hereby granted, a right of way thereon for ditches or canals constructed by the authority of the United States.

This patent is issued in lieu of one dated May 3, 1902 and shall not operate to extend the restriction declared in that patent.

IN TESTIMONY WHEREOF, I, Calvin Coolidge,

President of the United States of America, have caused these letters to be made:

Patent, and the seal of the General Land Office to be hereunto affixed.

GIVEN under my hand, at the City of Washington, the THIRTIETH

day of APRIL in the year of our Lord one thousand

nine hundred and TWENTY-FIVE and of the Independence of the

United States the one hundred and FORTY-NINTH

The United States of America,

To all to whom these presents shall come, Greeting:

WHEREAS, a Certificate of the Register of the Land Office at BLACKFOOT, IDAHO, has been deposited in the General Land Office, whereby it appears that, pursuant to the Act of Congress of May 20, 1862, "To Secure Homesteads to Actual Settlers on the Public Domain," and the acts supplemental thereto, the claim of JOSHUA R. MUNN has been established and duly consummated, in conformity to law, for the SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER AND THE LOT FOUR OF SECTION NINETEEN AND THE NORTHEAST QUARTER OF THE NORTHWEST QUARTER AND THE LOT ONE OF SECTION THIRTY IN TOWNSHIP SEVEN SOUTH OF RANGE THIRTY-SIX EAST OF THE BOISE MERIDIAN, IDAHO, CONTAINING ONE HUNDRED FIFTY-EIGHT AND FORTY-FIVE-HUNDREDTHS ACRES,

according to the Official Plat of the Survey of the said Land, returned to the GENERAL LAND OFFICE by the Surveyor-General:

NOW KNOW YE, That there is, therefore, granted by the UNITED STATES unto the said claimant the tract of Land above described; TO HAVE AND TO HOLD the said tract of Land, with the appurtenances thereof, unto the said claimant and to the heirs and assigns of the said claimant forever, subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with such water rights, as may be recognized and acknowledged by the local customs, laws, and decisions of courts; and there is reserved from the lands hereby granted, a right of way thereon for ditches or canals constructed by the authority of the United States.

IN TESTIMONY WHEREOF, I,

WILLIAM H. TAFT

President of the United States of America, have caused these letters to be made Patent, and the seal of the General Land Office to be hereunto affixed.

GIVEN under my hand, at the City of Washington, the FOURTH

I have witnessed the use of water by Elmer Stanger on his farm in Township 7S Range 36E section 20 and 29 since 1953. I am enclosing a letter from Rizdon W. Barron that I received from him in 1995 as to the water rights we applied for. In talking to Mr. Barron he informed me that our water in 1912 was diverted from the Portneuf River on the ground now farmed by Mr. Stanger. He also stated that the ground Mr Stanger farms was also irrigated out of the same ditch diversion.

Dear Sir:

Attention: J. P. Garner
Appraiser

This is in reply to your inquiry under date of September 3, 1952, in regard to water rights from the Portneuf River appurtenant to land owned by E. C. Stanger of Inkom, Idaho.

On going through our files we find no decreed water right for the land owned by Mr. Stanger that was formerly Indian allotted land; namely Allotment No. 13, embracing land described as SE/4 SW/4 Sec. 20; NE/4 NW/4 Sec. 29, T 7 S, R 36 E., B.M., Idaho, and Allotment No. 16 - SW/4 SE/4 Sec. 20; NE/4 NE/4 Sec. 29, T 7 S, R 36 E., B.M., Idaho.

However, although we have no record of any decreed water right, we know that for several years water has been diverted from the Portneuf River by means of pumping to irrigate Allotment No. 13 and several other former Indian allotments. It may be that there is a State decree covering this.

Please feel free to call on this office for any further information you feel we may be able to give you.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by May 21, 2001, **referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at 525-7161.

Respectfully submitted,

Craig L. Saxton
