Subject: basin 29 claim

Good Morning Carter,

I got a call from DC (Dean) Hansen about his AJ claim, A29-7264. He wanted to talk about leasing the property to Terry Rindlisbaker to grow potatoes. He is in Boise this week and when I talked to his wife I gave him the option to come into Boise if he had time. I gave them your name. They live in Bountiful Utah so it's difficult to see him here in Soda. I'm not sure if he will even come in but I wanted to give you a heads up.

I haven't done a field verification on this claim yet.

thanks
cindy

Photo 2. Looking easterly.

Figure 1. 1987/88 NAPP Photography

June 25th, 2002 I met with Dean Hansen, the property owner. The original owner was Verg. E. Hansen, Dean's father. After Verg's death, the property was in probate for many years. Dean decided until he knew if the property was his he didn't want to invest the money to install a pivot. The dispute on the property was settled in 1998 or 1999.

David Rupp owned the property adjacent to the Hansen property and leased the property for several years until the Rupp's lost their property to the bank. Terry Rindlisbaker purchased the Rupp's property from the bank. He also began leasing the Hansen's place until Verg's death.

Photos 1 and 2 were taken looking in an easterly direction at the point of diversion (POD) and the place of use (POU).

The POD is located on Terry's property. Dean's buried mainline runs east to the center of the southwest quarter and then runs south to the end of the southwest quarter. Several years ago when the county did some work on the road west of Dean's property they took out the mainline under the road.

Figure 1 shows the point of diversion and place of use. Water right 29-536 is a decreed domestic right.

Photo 3. Looking south.

This water right was decreed for 153 acres of irrigation in the Bancroft-Lund decree in 1992. Dean Hansen owns the SW quarter of section 14, township 9 south, 40 east.

Photo 3 was taken from the home site looking south at the place of use. The 1987 crop was potatoes. It's currently planted in dry farm barley.

Dean is going to find out the specific dates of when his father past away and when the trust was settled.

Harold Jones did the licensing exam on this water right on July 7, 1971. At that time Harold noted a 600 hp V-12 diesel motor. Terry changed this system when he purchased the property. Currently there is a 250 hp General Electric pump, serial number DTJ429144, model number 5K6286XN74A with a 60 hp auxiliary pump, serial number 51646, model number 6YB60-4. This system is currently operating two 80-acre pivots for Terry.

REF: Snake River Basin Adjudication (SRBA)

SUBJECT: CRP Contract

Dear Claimant(s);

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown **above in the "address" label** has been filed in the Snake River Basin Adjudication (SRBA).

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. A field examination to verify items in the Notice will be conducted by Department personnel as soon as the weather permits. I was able to visit some of you this year before the snow arrived. While waiting for the weather to cooperate again I would like to collect some of the necessary documentation needed to recommend your claim to the SRBA court. The statute (42-104) requires the water be put to beneficial use to have a valid water right. One exception to the statute is if the land has been put into CRP. But evidence must be submitted to the Department of Water Resources to retain the water right otherwise the water right will not be recommended to the SRBA court.

If you have previously irrigated land that has been put into CRP, I would appreciate it if you could send me a copy of the contract when the land was put into CRP for my records, **by March 1, 2002. If you do not have any land in CRP please disregard this notice.** With no response from you, we will assume that you do not have any land in CRP. You may contact either the Farm Service Agency (FSA) or Natural Resource Conservation Service (NRCS) in Soda Springs at 547-4396 for a copy of the contract.

RE: Notices of Claim A29-07264 and A29-12230

Dear Mr. Hansen:

The Idaho Department of Water Resources (IDWR) is returning your Notices of Claim to a Water Right along with your check No. 3470 in the amount of \$203.00 and check No. 3469 in the amount of \$25.00 because the Notices were filed after the deadline shown on the "Request for Extension of Time" and are, therefore, subject to assessment of a late filing fee.

Your extension was granted until May 15, 1990. Your Notices were postmarked September 11, 1990. For them to be receivable, you must either be granted another extension of time to file, or pay the normal filing fees plus a late fee of \$50.00 for each Notice. A late domestic/stockwater Notice is \$75.00; \$25.00 initial fee and \$50.00 for the late fee. The irrigation Notice is \$253.00; \$203.00 initial fee and \$50.00 for the late fee.

You may be granted an extension if extenuating circumstances prevented you from filing on time. The enclosed "Request for Extension of Time" form can be submitted to the State Office (address is at bottom of form) for consideration by the Department. If you submit the request, keep the Notices until the request is returned to you showing whether or not the extension was granted. Return the Notices with a copy of the extension and the appropriate fee(s) to this office.

Total Q measured 6.68 cfs

If source is surface water, estimate total flow of source

Methods of measurement McCrometer #78-10-2320 Meets Permit requirements? Yes

Measurement calculations:

$V = 153 \text{ ac} \times 3 \text{ af/a}$
 $= 459 \text{ af/a}$

McCrometer meter
 $\frac{2000 \text{ gpm}}{448.8 \text{ spm}} = 6.68 \text{ cfs}$

$153 \text{ ac} @ 0.02 \text{ cfs} = 3.06 \text{ cfs}$

$V = 3.06 \text{ cfs} \times 1.985 \times 214$
 $= 1298.6$
