RE: 29-7482, Sunbeam Water Co.

Mr. Parrish,

Pursuant to your letter of August 6, 2003, I have reviewed the Department's record for license 29-7482 in the name of Sunbeam Water Co. The license clearly indicates the domestic use is for 17 units in the SWNW and NWSW of Section 1, Twp 08S, Rge 31E. This is consistent with the recommendation in the Snake River Basin Adjudication mailed to your client in February of this year.

Your letter indicates more than 17 homes are connect to the subdivision's water system. Since the number of homes covered by license 29-7482 cannot be increased, your client will need to file an application for permit for the additional homes to include lots that are stubbed into the water system but not currently developed. The number of new homes can reflect expected developed for the next five years.

For your convenience I have included an Application for Permit with instructions. If you have question on completion of the application please call either Roger Warner or Keith Wilson at this office.

Feel free to call me if you have questions concerning other information reflected on the recommendation.

Respectfully yours,

Ernest Carlsen

RE: BASIN 29 WATER RIGHTS

Mr. Carlsen,

I have been forwarded paperwork from my clients concerning water rights in Basin 29. Frankly, I am not 100% sure what they may be required to do in order to maintain those water rights. What I can tell is that apparently there is some incorrect property information contained in your data base with regard to the use of those water rights.

In this particular matter, my client is Sunbeam Water Company, and as you should know, they are a small and basically insolvent water company created by a land developer in order to facilitate development and establishment of Garden Grove Subdivision just east of American Falls, Idaho in Power County. Sunbeam Water Company is not defunct, it still operates, collects a minimal amount of money monthly for water usage and continues to provide domestic, culinary water for all of the homes in the Subdivision. I note under your preliminary recommendation, provided in documentation dated February 18th, that the domestic use specified is indicated for 17 homes, I believe that is inaccurate as it is my understanding that we are talking about more home sites than that. In fact I think under the plat that there is almost twice that, although many of those lots have not been developed.

Either way, be that as it may, there has been no change in water right ownership and I suspect that if there has been any notice of new owner, it is simply somebody in your office misunderstanding the status of this particular subdivision.

With that in mind, I am unsure as to how you want me to proceed on behalf of my clients. I would be more than happy to take steps as may be necessary in order to preserve the water rights necessary concerning the subdivision and homes of which we speak.

I will await to hear from you and appreciate your efforts.

Cordially,

Craig W. Parrish

Director of ~~Water~~ Water Resources.

Dear Sir,

I would like to file a protest against
the Sunbeam water company's application
to drill wells in the Sunbeam area.

I ~~feel~~ feel the drilling of these wells
would affect the flow of the Sunbeam
creek on which I have stock water rights.

I feel a company like this should not be
allowed to drill wells for subdivisions
and then sell the water to the persons
who live in the subdivisions.
