APPLICATION FOR PERMIT

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant Robert and Jise Loomis Phone 254-3984

Post office address P.O. Box 161, Inkom Id. 83245

2. Source of water supply Groundwater which is a tributary of _____

3. Location of point of diversion is SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 16 Township 8 S

Range 36 E B.M. Barnock County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount .04 for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount .02 for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. .06 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Well, pump and lines to home and orchard.

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 6" inches; proposed depth of well is 220 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 1 years (minimum 1 year - maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 16 Township 8 S

Range 36 E B.M. RC 5-5-82

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water 1.

(5) If water is to be used for other purposes describe: _____

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 29-7633 Priority March 19, 1982 Amount 0.03 cfs

THIS IS TO CERTIFY, that Robert &/or Ilse Loomis
of Inkom, Idaho, has complied with the terms and conditions of Permit
No. 29-7633 issued pursuant to Application for Permit dated March 19, 1982,
and has submitted proof to the Department of Water Resources on April 13, 1983,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.03 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>November 15</u>	at <u>0.02</u> cfs and	<u>9.7</u> acre feet
<u>Domestic</u>	from <u>January 1</u> to <u>December 31</u>	at <u>0.03</u> cfs and	<u>1.2</u> acre feet
<u>(1 Unit)</u>	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.03 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
10.9 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 16,
Twp 8S, Rge 36E in the County of Bannock

Re: field inspection of 29-07633

In response to Keith Henrich's letter dated June 23, 1995 I field inspected the Loomis apple orchard. Mr Loomis is not exceeding his water right.

Water right 29-07633 allows the use of 9.7 acre feet of water and the irrigation of 3.4 acres. There is an additional component for domestic use of 1.2 acre feet of water and .5 acres of irrigation of lawn and garden.

Mr Loomis is watering 850 apple trees with a drip irrigation system. The emitters used are capable of one gallon per hour. None of the area between the trees is being watered. Approximately 50 square feet of ground per tree is being watered; one acre is being watered.

Mr Loomis's records indicate that on the days he waters each tree receives 6 gallons of water. At the time of my visit he had not yet watered the trees this year. Past records indicate that he is using about 2 acre feet of water per year on the orchard.

There are three gardens at the farm, they measure 12 feet by 30 feet. All use a raised bed design. A small hot house is utilized to start plants for the garden.

Mr Loomis has a utility building which is used as an apple packing shed, cider pressing building, and cold storage unit. The packing unit is operated for about one month a year. It is a small unit operated by two individuals. The water used for washing is recirculated in a 30 gallon bathtub and changed every 3 to 4 days. The unit will use about 300 gallons per season. The cider press will use 150 gallons per day for two weeks. these uses fall in the small domestic exemption for business.

Mr Loomis has ordered 8000 feet of drip tape to replace the current system. The rated capacity of the tape is one liter per hour per meter. this is less than the current system. He is also working with the agriculture specialists from the U if I and the county extension agent on ways to make the system more efficient.

Dispute festers on Walker Creek

Farmer's expansion plans have neighbors talking to lawyers

By Chuck Oxley

Of The Journal

A plucky ball of brown feathers greets Bob Loomis as he steps off his front porch into the late afternoon sunshine. The bird struts close, bobbing its head by Loomis' tall, dusty cowboy boots.

"That chicken thinks it's a cat," Loomis says with a concerned look on his face.

But the 56-year-old farmer has more concerns than his chicken's feline behavior. Loomis also has been struggling with a group of neighbors who don't want him to expand his farming operation, as he plans to do soon.

But it's not just about farming — it's a conflict that has roots as deep as the apple trees that stand on Loomis' sloping orchard.

Loomis is a native of Vermont and a retired U.S. Army veteran. He owns a small apple orchard at the end of Walker Creek Road, south of Inkom. It's a quiet cluster of houses and ranchette homes built on mountain slopes.

Since moving there in 1978, Loomis and his wife, Ilse, have slowly built and expanded the orchard's apple production. They have 850 small apple trees, 300 of which produce about 10 bushels of McIntosh apples each September harvest.

The Loomis' sell most of the crop at the Farmers Market in Pocatello. Some he presses into apple cider on his farm.

Graphic by Blake Roberts

But Loomis' health has started to fail. For years, he's battled severe skin cancer. Multiple sclerosis now forces him to walk with a cane.

Loomis knows he may not live long, and he wants to increase his farm's production to provide for a grandson, Bradley R. Kennedy, who needs special care.

Bradley, 7, suffered brain, optical, and spinal cord damage when he was abused by a babysitter when he was 10 months old.

In June, Loomis leased about 10 acres in back of his house to Paul Gannon, 51, owner of Oliver's restaurant in Pocatello.

Gannon wants to build a medium-sized greenhouse to naturally grow garden vegetables for use and sale in his restaurant.

Therein lies the problem.

Joe and Sharon Colton live next door to Loomis' property. They relocated to Walker Creek in 1975 because they didn't like the commercialization building up near their Pocatello home.

"We moved to this deserted little

"

We moved to this deserted little piece of property so we could raise our children in the style we wanted.

"

— Sharon Colton, neighbor

piece of property so we could raise our children in the style we wanted," Sharon said. "They're all grown, but now we have grandchildren.

"We have no opposition to his apple orchard at all, but now he's decided to take in a partner. That's a commercial business, and we have ordinances on our property that say you can't go commercial."

The "we" Sharon Colton refers to includes a loosely formed group of several families who live on Walker Creek Road.

In June, the neighbors met informally with Loomis and Gannon to discuss how the increased traffic and water use might affect the area. The discussion turned sour, and both sides left the meeting more angry than they came to it.

The neighbors took their case to the Bannock County Planning and Development Department.

"Our whole thing is that we feel the planning and zoning committee doesn't understand their own ordinances," said

(See DISPUTE, A-6)

World rangeland summit: Better strategies needed

SALT LAKE CITY (AP) — Cattle and other grazing animals should not be the sole tenants of rangelands — but neither should they be the sole scapegoats for the problems of the world's prairies, experts said at a conference Monday.

Instead, the world's land managers need to devise better strategies.

1. Well & 1/2 horsepower pump. Distribution system for irrigation, and domestic use;
- A. Drip irrigation system for 850 apple trees: Emitters allow 1 gallon per hour. Irrigation is coupled to rainfall and soil moisture; Mr Loomis is irrigating a 50 sq foot area per tree (6 gallons per day on those days he irrigates).
 - B. $\frac{(50 \text{ sq ft})(850 \text{ trees})}{(43560)} = .98 \text{ acres of trees.}$
 - C. 4 gardens using drip tape. garden sizes are 12'x30'. Raised bed gardens.
 - D. Mr Loomis said he did not irrigate after August 31 to prepare the trees for harvest & stop growth of the apples.
