MEMORANDUM

TO: File 29-07862 / LDS Church - Virginia Ward
FROM: Brenda Chapman
DATE: March 21, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

F. FLOW CALCULATIONS

The $\frac{1}{2}$ acre of lawn surrounding the church has been added to the irrigated acres for a total of 1.5 acres. The recommended irrigation rate has been increased to the capacity of .04 cfs. This adjustment is based on the current guidelines for processing combination domestic and irrigation rights.

The domestic rate has been left at the higher rate because the church's instantaneous demand may require that rate of flow.

G. VOLUME CALCULATIONS

The volume recommendations have been adjusted accordingly based on the information in Section F. They are addressed in the remarks based on current supplemental groundwater processing procedures.

RE: Irrigated Acres

=====

Permit No. 29-07862 allowed an appropriation for domestic purposes and for one acre of irrigation. The field examiner found one acre of irrigation, plus 1/2-acre of irrigated lawn associated with the domestic use. Idaho Code §42-111 allows up to 1/2-acre of irrigation to be included in a domestic use. However, to avoid any ambiguity it has been preferable to include the 1/2-acre of lawn, etc., with the irrigation component of a right that includes both domestic and irrigation uses. Otherwise, in the future one may have to guess whether the domestic component of the right includes some irrigation.

Permit No. 29-07862 presents a dilemma. Following our recent practice requires listing 1.5 acres of irrigation, even though it exceeds the face of the permit, which listed only one acre to be irrigated. In my opinion, the difference is cosmetic, not substantial. Therefore, I recommend that the license be issued for 1.5 acres of irrigation. The remarks on the license should indicate that the domestic component does not include irrigation water for a lawn, garden, etc. In this way, there will be no confusion in any future interpretation of the license.
